Report of The Minister of Education 1960

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I present the Report of the Department of Education for the year 1960. In so doing, I should like to comment upon some aspects of the educational system which appear to be of special interest.

The total number of pupils in the elementary and secondary schools of the Province in September, 1960, was 1,389,163, an increase of 69,938 over the enrolment of the previous year. The elementary schools showed an increase of 44,739 and the secondary schools an increase of 25,199.

Expanding enrolments continued to spur on the building programme, as will be noted in the pages that follow. In 1960, new accommodation was provided for 78,750 elementary-school pupils at an estimated cost of \$59,938,000, and for 26,480 secondary school pupils at an estimated cost of \$39,169,000.

The year 1960 appears to have been the turning point in the teacher supply situation as far as the elementary schools are concerned. The current enrolment in the ten Teachers' Colleges totals 6,730, of whom 5,740 will be candidates for teaching certificates next June. The successful students from such a large group should generally meet the demand for elementary-school teachers in 1961.

As the bulge in school population moves into the secondary schools, as shown by an increase of 15.7 per cent in Grade 9 enrolment in September, 1960, as compared with 2.7 per cent in 1959, steps have been taken to increase the supply of teachers to meet the expanding need. A programme of two summer courses supplemented by special supervision during the first year of teaching has attracted to the schools a gratifying number of able graduates of the universities. This year, the summer courses were offered in London and Kingston as well as in Toronto, and this movement toward decentralization proved very satisfactory.

The number of central elementary schools provided by boards of trustees of township school areas and of union separate schools is steadily increasing, with the result that many rural children are now enjoying the advantages of attending a graded school. At the present time, less than 8 per cent of the elementary-school enrolment is found in one-room schools and less than 4 per cent in two-room schools. Local boards have found that, where they operate central schools, teachers who have a broad professional education can be attracted and held; an interchange of teachers can be arranged to provide specialized instruction in music, art, and physical education; and the number of grades per teacher can be reduced.

Financial assistance through bursaries, scholarships, and loans was given to approximately 6,000 students in the scholastic year 1959-60, in a total amount just short of \$2,000,000, an increase of 80 per cent over the amount paid in 1958-59.

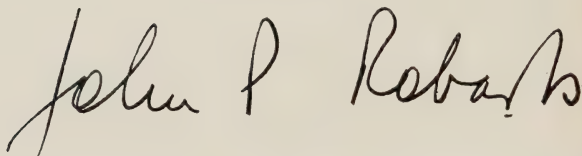

The government has established an Advisory Committee on University Affairs. Among the functions of the Committee are: (a) to receive representations from the universities relating to their financial needs for operating costs and capital outlays; (b) to secure from the universities the information necessary for consideration by the Committee; and (c) to make recommendations to the Minister of Education regarding the amount of the annual grant to each university for operating costs and capital outlays.

In 1944, the Guidance Services Branch was established in this Department to give assistance through local authorities to pupils and their parents in educational and vocational planning. A first objective in the programme was to provide the schools with an increased amount of educational and occupational information. This is being accomplished through the co-operation of universities and other educational institutions, as well as of business, industry, and service organizations. The steady development of the guidance programme in elementary and secondary schools has also been furthered by various training courses for teachers offered by this Department, and by continued emphasis upon the aim of developing self-guidance on the part of the pupils.

The Department of Education completely re-organized its Statistics Division several years ago. Through the work of a trained statistician and a competent staff, and through the provision of modern equipment, up-to-date statistical information is now made available within a minimum of time. This service is of great value at a time when rapid expansion of the educational system calls for careful planning soundly based on recent and reliable information.

In this report, information and statistics will be found with regard to the topics mentioned and to many other features of the school system. The educational system of Ontario is a vast venture in co-operation which involves the provincial and municipal governments, the taxpayers, the boards of trustees, the teachers and administrators, the parents, and last, but not least, because they provide the purpose of it all, the pupils and students themselves. The common task—the education of the children and youth of this Province—is well worth the faithful effort of everyone.

Respectfully submitted,

A handwritten signature in dark ink, reading "John P. Robarts". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

Minister of Education.

Toronto, January 9, 1961.

Elementary Education

ENROLMENT

The total enrolment of pupils in elementary schools in September, 1960 was 1,126,388, of whom 843,737 were enrolled in public schools and 282,651 in separate schools. This was an increase of 44,739 over the total elementary school enrolment of September, 1959.⁽¹⁾

BUILDING PROGRAMME

In 1960 elementary school accommodation was increased by 78,750 pupil places, provided in 529 new buildings and additions, at an approximate cost of \$59,938,000. From 1945 to 1960 inclusive, 679,800 pupil places were provided, at an estimated cost of \$461,145,000.⁽²⁾

TRANSPORTATION

In the school year 1959-60, elementary-school boards transported 76,796 pupils to school. Of these, 6,502 were transported to secondary school. This was an increase of 12 per cent over the previous year. Of the pupils transported by elementary-school boards, 26 per cent resided 6 miles or more from school, 22 per cent resided 4 to 6 miles from school, 51 per cent resided 2 to 4 miles from school and 1 per cent resided within 2 miles of school. Board-owned vehicles were used to transport 15 per cent of the pupils over 10 per cent of the routes.⁽³⁾

CENTRAL SCHOOLS

The number of larger graded schools in rural areas continues to increase. These central schools are being provided by boards of trustees of township school areas and of union separate schools. The broader and more effective educational opportunities made available in central schools have been a source of satisfaction to pupils, parents, teachers, trustees and ratepayers, and have encouraged boards of areas in which central schools have not previously been established to give serious consideration to the provision of these facilities. It has been the experience that in central schools, teachers with a broad professional education can be attracted and held, the number of grades per teacher can be reduced and specialized instruction in music, art, and physical education can be provided.

The increasing provision of transportation and its acceptance by parents have assisted in the establishment of central schools. It is not expected that boards will find it possible to provide for the elementary education of all pupils in central schools. Because of physical obstacles and the sparse settlement of parts of the Province it is likely that it will be necessary to maintain ungraded one-room schools in certain locations for some time, but there is a quickening trend towards centralized accommodation. Less than 8 per cent of the elementary-school enrolment is now found in one-room schools and less than 4 per cent is found in two-room schools.

INTERNSHIP PLAN

Many teachers who have been working towards post-graduate degrees in Education and who have expressed an interest in qualifying for the elementary-school inspector's certificate, have taken part in the Internship Plan to become more fully acquainted with the many and varied duties of an elementary-school inspector.

The Internship Plan in Supervision is sponsored by the Ontario College of Education and approved by the Department of Education. Since its inception in 1955, eighty-five teachers have been placed with experienced inspectors in the

⁽¹⁾ See Table 5

⁽³⁾ See Table 17

⁽²⁾ See Table 18

field for a two-week period to study at first hand the various aspects of the supervision of classrooms and the administration of elementary schools. Subsequently, twenty of the participants have been employed as elementary-school inspectors by the Department of Education.

PRINCIPALS OF ELEMENTARY SCHOOLS

School boards are required to appoint a principal for each school. He is responsible both for its organization and discipline. In recent years, the principal has also been expected to take a more active part in the supervision of instruction. This expectation is reflected in the plans for new school buildings and in the qualification of principals under new regulations.

Since 1945, a principal's office has been provided in each school; in earlier days, many principals administered their schools from their classrooms. More principals are now relieved from their teaching duties on a part-time or full-time basis, depending on the size of the school, to supervise instruction throughout the school. In keeping with this growing recognition of the position of the principal in the elementary school, the regulations have been amended, effective September 1, 1961, to require all new appointees as principal of an elementary school having an enrolment of 300 or more to hold a Bachelor of Arts degree as well as a Permanent First Class Certificate or a Permanent Elementary-School Teacher's Certificate.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1960, was 262,775, an increase of 25,199 over September, 1959. By courses, the enrolments were as follows: General 200,368; Commercial 32,345; Commercial Special 2,182; Technical 22,343; Home Economics 365; Art 764; Special Industrial 1,358; and Special Courses 3,050.⁽⁴⁾

The total number of full-time teachers (including principals) in September, 1960, was 11,478, an increase of 1,014 over that of the previous year. With an allowance for part-time teachers the pupil-teacher ratio in September, 1959, was 22.6 to 1, as compared with 22.4 in 1959 and 22.9 in 1958.

BUILDING PROGRAMME

There were 24 new secondary school buildings completed in 1960 and additions were made to 48 existing school buildings at a total cost of approximately \$39,169,000.⁽⁵⁾

TRANSPORTATION

During the school year 1959-60, secondary school boards furnished transportation for 61,387 pupils. These pupils were transported over 1,824 routes at a cost of \$32,134 per day.⁽⁶⁾

The number of pupils transported to secondary schools by elementary school boards increased this year.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with an operator to furnish transportation for more than one year but not more than five years.

⁽⁴⁾ See Tables 5 and 55

⁽⁶⁾ See Table 17

⁽⁵⁾ See Table 18

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1959-60, financial assistance was given to approximately 6,000 students in the form of scholarships, bursaries, and loans in a total amount just short of \$2,000,000. This represents an increase over the previous year of 70 per cent in the number of students assisted and almost 80 per cent in the total amount disbursed. The Dominion Government contributed \$100,000 to the bursary awards.

Ontario Scholarship winners, designated Ontario Scholars for the first time, and successful applicants for bursaries to the total number of 4,117 received free gifts in the amount of \$1,042,997. Loans, repayable on very generous terms beginning in the year after a student's graduation or withdrawal, were issued to 2,198 young people in the amount of \$926,876. Some students received aid of two types from the scholarship, bursary and loan categories.⁽⁷⁾

For the fiscal year 1960-61, the sum of \$1,200,000 has been set aside for scholarships and bursaries, while the "drawing account" for student-aid loans is \$3,000,000. It is abundantly apparent to the Student-Aid Committee which considers the applications that without such government assistance a great many students would be denied higher education.

DEPARTMENTAL TESTING PROGRAMME IN GRADE 12

In the spring term of 1960, short-answer achievement tests were administered to all pupils in Grade 12 of the General Course in English and Chemistry in order to assist principals and teachers, especially the many young teachers in secondary schools, to set and maintain adequate standards of promotion and to recommend on a uniform provincial basis their candidates for the Secondary School Graduation Diploma. This programme was extended experimentally to include the Grade 12 pupils in other courses for the first time.

In 1960-61 the tests are being extended to other subjects. Their value is increasing as supervisory officials and teachers gain facility in the interpretation and application of the results.

PRIVATE TRADE SCHOOLS

In 1960 there were 152 schools registered under The Trade Schools Regulation Act. Of this group two have ceased business and 11 are new schools or branches. Fifteen schools which were registered in 1959 did not renew their registration.⁽⁸⁾

The co-operation of the Better Business Bureau and certain newspaper advertising managers has been of great assistance in maintaining the standards of these private schools. The quality of instruction appears to be adequate.

TECHNICAL INSTITUTES

The technical institutes, which are organized under The Department of Education Act, and which, in general, operate under advisory committees, offer advanced technological education between the levels provided in secondary schools and in the universities.

Four institutes of technology—Ryerson Institute of Technology, Toronto; The Hamilton Institute of Technology; The Eastern Ontario Institute of Technology, Ottawa; and The Western Ontario Institute of Technology, Windsor—provide a three-year programme leading to employment in business and industrial occupations. They also offer evening classes for employed persons who wish to improve their education. At all of these institutes there is a common first-year course for aeronautical, chemical, electrical, electronic, instrument, gas, mechanical, and

⁽⁷⁾ See Table 65

⁽⁸⁾ See Table 73

metallurgical technologies. The Ryerson Institute of Technology offers the three years of each of these courses. In the other institutes, it is necessary for the students to transfer to Ryerson to complete the second or third year of certain of the courses.

The Provincial Institute of Mining at Haileybury offers a two-year Diploma Course in technological subjects relating to mining. A recent addition to the building makes provision for a suitable milling laboratory, a new classroom to serve both milling and fire assaying, administrative offices, a staff room, students' common room, and a school library.

On September 30, 1960, there were 3,049 students enrolled in the day courses in the five institutes mentioned, and 3,481 in the evening courses.⁽⁹⁾

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

Although The Lakehead College of Arts, Science and Technology, Port Arthur, now operates under a Board of Governors, it continues to receive financial assistance from the Ontario Department of Education. This institution offers first year university courses in arts and science, and conducts two-year technological courses in forestry, mining, and industrial chemistry.

THE PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades, Toronto, was established in 1951 to provide "in-school" training for apprentices in trades designated under the Apprenticeship Act of the Department of Labour of the Province of Ontario. In 1960, the enrolment on the last day of September included 670 students on a ten-week course in the designated trades, and 130 students in courses of varying lengths in the non-designated trades. In the designated trades, four classes are admitted per year. The evening class programme, designed to encourage tradesmen to up-grade their training, had 1,631 persons enrolled on November 1, 1960.⁽¹⁰⁾

Teacher Education

ENROLMENT

In the autumn of 1960, a total of 6,730 students enrolled in the Teachers' Colleges, an increase of 779 over the previous year. Of these 3,750 were registered in One-year Courses, 991 in the First Year of the Two-year Course, 1,203 in the Second Year of the Two-year Course, and 786 in the Completing Year of the In-service Course. Approximately 28 per cent of the students were men, an increase of 1 per cent over 1959.⁽¹¹⁾

At the College of Education, 598 students were enrolled in courses leading to the High School Assistant's, Vocational, and Industrial Arts Certificates, an increase of 73 over the previous year. In addition, 82 students enrolled in the Library Course, an increase of 26 over 1959. In all courses, registration at the College of Education increased from 581 in 1959 to 680 in 1960. The proportion of men students enrolled increased slightly from approximately 62 per cent in 1959 to 63 per cent in 1960.⁽¹¹⁾

TEACHER SUPPLY

The supply of teachers for the elementary schools was maintained by an increase in the number of graduates of the Teachers' Colleges and the operation of Pre-Teachers'-College Summer Courses. In 1960, approximately 4,100 students graduated from the Teachers' Colleges. Of these, 2,821 were in One-year Courses, 730 were in the Second Year of the Two-year Course, and 589 were in the Com-

⁽⁹⁾ See Table 71

⁽¹¹⁾ See Tables 9 and 10

⁽¹⁰⁾ See Table 72

pleting Year of the In-service Course. A total of 562 graduates of the Pre-Teachers'-College Summer Courses, First Year, and 599 graduates of the Pre-Teachers'-College Summer Courses, Second Year, were granted temporary certificates after attendance at the Toronto and Port Arthur centres. At the University of Ottawa Teachers' College, 63 candidates with teaching experience under Letters of Permission obtained Deferred Interim Second Class Certificates, and 41 obtained Interim Second Class Certificates through attendance at summer sessions. These certificates are valid in elementary schools where French is a subject of instruction with the approval of the Minister.

The increasing supply of teachers for the elementary schools has made possible the raising of academic requirements for entrance to teacher training courses and a decrease in the number of candidates admitted to the Pre-Teachers'-College Summer Courses. In September, 1960, the academic requirement for admission to the Two-year Course was the Secondary School Graduation Diploma of the General Course with a minimum of four options instead of the three options previously required. Announcement has been made that, beginning in September, 1961, the academic requirement for entrance to the One-year Course will be standing in eight Grade 13 papers, including both English Literature and English Composition instead of the one English paper formerly required. Announcement has also been made that the Pre-Teachers'-College Summer Courses, first offered in 1952, will be discontinued, and that the First Year Summer Course will not be offered in 1961. This means that the In-service Training Course will cease to be an avenue for teacher qualification. The number of students entering the teaching profession through this Course has been gradually reduced in recent years, from 1,120 in 1958, to 734 in 1959, and to 562 in 1960.

Letters of Standing, valid in Ontario's elementary schools and granted to well-prepared teachers from other provinces of Canada or other countries of the Commonwealth, totalled 577 in the school year 1959-60. Letters of Permission issued to boards of trustees on behalf of uncertificated teachers in elementary schools totalled 753 by the end of November for the school year 1960-61.

The special summer course programme, formerly offered only in Toronto, for the preparation of secondary-school teachers was extended in 1960 to centres in Kingston and London as well. A total of 1,035 candidates enrolled for the first eight-week summer session, an increase of 120 over 1959. Of these, 571 were at Toronto, 192 at Kingston, and 272 at London. A total of 866 candidates enrolled at the Toronto centre for the second summer session of five weeks, an increase of 179 over 1959.

Letters of Standing, valid in Ontario's secondary schools and granted to secondary school teachers trained in other provinces of Canada or other countries of the Commonwealth totalled 84 for the school year 1959-60. Letters of Permission, issued to school boards on behalf of secondary-school teachers not holding basic secondary-school teaching certificates totalled 584 by the end of November, 1960. In addition, 262 Letters of Permission for the teaching of special subjects were granted on behalf of teachers fully qualified to teach general academic subjects.

LAKEHEAD TEACHERS' COLLEGE

In September, 1960, the Lakehead Teachers' College began operation in temporary quarters in a new secondary school building in Fort William through the co-operation of the Board of Education of that City. The initial enrolment of 207 indicates the interest taken in teacher education by the young people of North-western Ontario, and augurs well for the future of the College.

NEW CONSTRUCTION

In April, 1960, construction was begun on a permanent building for the Lakehead Teachers' College on a site adjacent to the Lakehead Institute of Arts, Science and Technology in Port Arthur. The new two-storeyed building is T-shaped in form, and provides classrooms, library, gymnasium, auditorium, offices, and service areas. Special features of the building are a cafeteria and student common-room. It is expected that the College will move into its new quarters in 1961.

During 1960, the building of the Hamilton Teachers' College was enlarged by the addition of a wing which includes eight classrooms and a cafeteria. The accommodation thus provided will be occupied early in 1961.

Before the close of the year under review, planning was begun for the building of the proposed Windsor Teachers' College. The new building will be erected on a site that has been obtained adjacent to the City of Windsor in the Township of Sandwich West near the junction of Third Concession Road and Dougall Avenue. It is expected that the new College will serve students living within the boundaries of Essex and Kent Counties.

Curriculum Development

CURRICULUM

The Curriculum and Text-books Branch has charge of the work within the Department dealing with the preparation of courses of study and the provision of suitable text-books to accompany these courses. The officials of the Branch are assisted in the development of new courses by committees made up of well-qualified classroom teachers, directors and supervisors of special subjects, members of the staffs of the Teachers' Colleges and the Ontario College of Education, and inspectors. Other interested individuals, groups, and organizations are also consulted from time to time. As far as possible, officials of the Branch participate in curriculum work with local committees of teachers, at conferences, conventions, and workshops conducted by teacher organizations, inspectors, and Teachers' College staffs.

A new course in Science in the Intermediate Division was issued in 1960. The course includes basic programmes in the natural and physical sciences, including some subject matter formerly taught in higher grades. Since it emphasizes the experimental method and demonstrates the inter-relationships among the several branches of science, it will almost certainly result in greater encouragement of the habit of making accurate observations, of withholding judgment until the evidence is in, of drawing conclusions that go only as far as the evidence permits, and of developing all the other aspects of critical thinking.

A Reading List for the Primary and Junior Divisions has been issued for the guidance of teachers and school librarians in the selection of supplementary reading books. The use of this List should ensure that each school has a sound basic library for children so that they may have an opportunity to avail themselves of the literary heritage that is theirs. Committees are working on the development of new courses in English at the Intermediate Division level, in Physics at the Grade 11 level, and in Biology at the Grade 13 level. A committee is also examining the handwriting programme in the elementary schools. A course of study in Russian is being developed for Grades 9 to 13. Experimental classes in this subject have been carried on for three years. Russian is now accepted as an option for the Secondary School Graduation Diploma, and has been approved as a subject for examination at the Grade 13 level beginning in 1962.

The policy of authorizing local Co-ordinating Committees to adjust existing courses to meet local requirements has continued to produce fruitful study of curriculum problems at the local level. This study has involved large numbers of teachers in curriculum work and thereby created marked improvement in classroom practice.

TEXT-BOOKS

During the past year, the Curriculum Branch has continued to work closely with authors, artists, cartographers, editors, and publishers in the preparation of new text-books designed especially for use in the schools of the Province. As a result, improved text-books are now being published in the fields of History and Geography for the Intermediate Division, Government at the Grade 10 level, Spelling, and Primary Reading. New atlases have been designed, and for the first time, a dictionary developed especially for Canadian elementary school pupils is available. New History texts written in French for use in schools in which French is a subject of instruction with the approval of the Minister are now available for several grades. Formerly these schools had to depend to a large extent on texts translated from English.

The policy of the Department in encouraging the development of text-books by Canadian educators and publishers has provided new opportunities for Canadian teachers, supervisors, and inspectors, and has resulted in some excellent creative work. Pupils and teachers throughout the Province are enjoying the benefits of this work, and those responsible for producing it know that in its preparation they have so deepened their own understanding and knowledge that they can be even more effective in their regular teaching and supervisory duties.

Professional Development

SERVICES

The Professional Development Branch has as its main responsibility the promotion of the in-service growth of teachers in the elementary school. An Assistant Superintendent of Secondary Education gives special attention to this work in the secondary schools.

In-service programmes continue to expand as teachers increasingly become aware of the need to improve their professional qualifications and to keep informed as to the latest trends and practices. Officials of the Branch offer assistance to inspectors and teachers in organizing and conducting professional activities consistent with such goals.

HELPING TEACHERS

For the third successive year experienced "helping teachers" were employed to work, in co-operation with school inspectors, in assisting teachers with limited training and experience. The supervision and administration of this programme, which involved thirty-two "helping teachers" during the fall term of 1960, were the responsibility of the Professional Development Branch. There is every indication that this programme provided invaluable assistance to many beginning teachers during a most important stage of their teaching careers.

SUMMER COURSES

In co-operation with the Registrar's Branch and other superintendents of the Department, the Professional Development Branch supervised various summer courses for elementary school teachers. During the summer of 1960, courses were offered in thirteen centres throughout the Province and provided teachers with the opportunity for study in a wide variety of curricular fields at all levels of the elementary school programme.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1960, there were 364 student teachers at the University of Ottawa Teachers' College, 35 of whom were enrolled in the course leading to the Interim Elementary-School Teacher's Certificate, and 329 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First or Second Class Certificates; in 1959-60, 91.2 per cent of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1960, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 4,830. There were, in addition, 5,161 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.⁽¹²⁾

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1960, there were 83,985 French-speaking pupils enrolled in separate and public schools, an increase of 3,901 over the preceding year. The number of French-speaking pupils in kindergarten classes was 5,702.⁽¹³⁾

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1946. The number of pupils taking these courses in November, 1960, was 33, and all grades were represented.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1960, was 1,389,163, an increase of 69,938 over the preceding year. The elementary schools showed an increase of 44,739 and the secondary schools an increase of 25,199. For the school year 1959-60 the attendance efficiency of all elementary schools was 94.2 per cent; of secondary schools 95.0 per cent.⁽¹⁴⁾

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required, unless excused under the provisions of The Schools Administration Act, 1954, to attend school from that date until the last school day in June in the calendar year in which they attain the age of sixteen years.

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

EMPLOYMENT

The number of home permits issued during the year 1959 was 1,889, an increase of 246 over 1958. The number of employment certificates issued was 3,120,

⁽¹²⁾ See Table 63

⁽¹⁴⁾ See Table 5

⁽¹³⁾ See Tables 41 and 53

a decrease of 2,159 from 1958. This decided drop in the number of employment certificates issued for children of compulsory school age indicates that pupils are staying in school longer than at any previous time.⁽¹⁵⁾

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as an alternative to General Science, Physics and Chemistry in Grades 9 to 12. These courses are given in 120 schools in Grades 9 to 12 and in 29 schools in Grades 9 and 10 only. There are 47 schools in which only the Agricultural Science option is taught. The other provision for agricultural instruction is the creation of a department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10, which includes Agriculture and Shop Work for boys and Home Economics for girls. In January 1960, there were 102 schools with departments of Agriculture.⁽¹⁶⁾

The total number of pupils taking Agricultural Science for the school year 1959-60 was 58,308 and taking Agriculture 10,289. There were 12,887 pupils carrying on home projects in connection with their school work, including 5,067 enrolled in 4 H Clubs in 24 activities.

PRACTICAL WORK

In addition to the regular classroom and laboratory work, most schools provide gardening or require home projects. In addition, many schools are equipped with poultry houses, colonies of bees, and other special facilities for practical work. Agricultural buildings and tractors have been provided by 89 of the schools with departments of Agriculture. At twelve schools, greenhouses have been provided.

Art

RESEARCH

Saturday morning classes were conducted for children with outstanding ability in art at the Ontario College of Art from October, 1959, to March, 1960. A staff of four artist-teachers was employed to teach 80 gifted pupils. At the close of the session, a large and attractive display of the children's work was arranged in the College. Many teachers visited the display to study the results of these special classes.

SUPERVISION AND TRAINING

The programme of art in elementary and secondary schools and in teachers' colleges was given attention.

Meetings of elementary school teachers were held in several inspectorates and workshops were conducted in a number of rural areas.

The Summer Courses in Art were again attended by large numbers of enthusiastic teachers. Courses were offered in two centres—Toronto and Fort William. In Toronto, courses leading to all Art certificates were held, while in Fort William, those leading only to the Elementary certificate were made available.

⁽¹⁵⁾ See Table 14

⁽¹⁶⁾ See Table 69

ART PUBLICATIONS

The five booklets on Art, prepared by the Art Branch and distributed to teachers through Inspectors of Schools, were in great demand.

Audio-Visual Education

SCHOOL BROADCASTS

A programme of 128 school broadcasts was prepared under the supervision of the Departmental Radio Committee for use in the elementary and secondary schools of the Province. Through the courtesy of the British Broadcasting System, 20 broadcasts were made available to Ontario schools. In addition, four broadcasts from the Australian Broadcasting Commission proved quite useful. All programmes were presented in co-operation with the Canadian Broadcasting Corporation over a network of 27 radio stations.

Radio manuals outlining the series of broadcasts were distributed to all Ontario teachers in September. In the elementary schools, an intensive evaluation survey to test the effectiveness of the programmes was begun. By this policy, through the Superintendent of Elementary Education, certain selected areas of the Province are asked each year to participate in a survey with the expectation that in the next five or six years most of the schools in the Province will be covered. An evaluation was also conducted in the schools of the secondary school system.

Ontario elementary schools have 14,400 classrooms served by central sound systems. Also, there are 10,726 radios used in elementary-school classrooms. In the secondary schools, 8,279 classrooms are served by central sound systems, and 527 classrooms report radios available.

FILM SERVICE

Films distributed from the Audio-Visual Education Branch directly to schools were shown on 100,964 occasions to a total of 4,391,789 students during the school year. In addition, 14 Boards of Education are operating their own film service, with a total of 4,253 film prints on extended loan from the Audio-Visual Education Branch. There were 73 additional film titles added this year, and there are now 1,421 titles, with 12,946 prints of sound films, available for use in Ontario schools.

Ontario elementary schools have reported the ownership of 1,791 sound projectors, 2,668 filmstrip projectors and 574 opaque projectors. The secondary schools reported 566 sound projectors, 685 filmstrip projectors and 319 opaque projectors.

SUMMER COURSES

Two summer courses in Audio-Visual Methods at Toronto and Ottawa offered teachers an opportunity to improve their professional training in Audio-Visual techniques. A total of 294 teachers enrolled in these courses, an increase of 81 over the previous year.

Auxiliary Education Services

SERVICES

It is gratifying to report that where formerly the establishment of auxiliary classes appeared feasible only in the larger urban areas, more and more small urban and rural areas are now offering this service. The major emphasis of the work of the staff of the Auxiliary Education Services Division during 1960 was in

(1) organizing and conducting surveys in areas contemplating the establishment of services for exceptional children, (2) working with teachers and inspectors in rural areas for the purpose of planning suitable school programmes for children with learning difficulties, and (3) working with teachers and inspectors regarding special class programmes. The staff also participated in numerous in-service training programmes for teachers on special education topics not only as they affect special classes but also atypical pupils in regular grades.

The Division maintains a library of magnatype books to assist pupils with limited vision as well as a large professional library for the use of teachers and inspectors. Such books are lent free of charge.

TEACHER TRAINING

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education are offered to all teachers and principals. A total of 509 enrolled in these courses held at Toronto and London, an increase of 75 over the previous year. Eight different options were offered covering various phases of exceptionality. It is encouraging to note that the number of secondary school teachers enrolled in the option "Auxiliary Education in Secondary Schools" is increasing each year. Fifty-six teachers completed the attendance requirement for the Specialist Certificate.

The Department of Education conducted a five-week course for teachers of trainable retarded children in schools affiliated with the Ontario Association for Retarded Children. Fifty-two teachers attended the course.

TRAINABLE RETARDED CHILDREN

The programme of assistance to local Associations for Retarded Children which was begun in 1953 continues to grow at an unexpected rate. In September, 1960, there were 63 local Associations conducting classes in 66 schools with a total enrolment of 1,949 pupils eligible for grants. In 1960, grants on approved capital expenditures were paid to 16 local Associations.

Community Programmes

SERVICES

The Community Programmes Branch assists communities to provide better opportunities for people to use their leisure time enjoyably and constructively through recreation and adult education. This assistance to communities involves: grants, advice and guidance, leadership training, conferences and seminars, and surveys. The Branch works in co-operation with municipal recreation committees; school boards; national, provincial and local organizations; university extension departments; and other departments in the Provincial Government. Communication with the municipalities is maintained through a field staff which has offices in Fort William, North Bay, Toronto, Hanover, London, Hamilton, Belleville, and Ottawa. Working out of the central office, there are also special advisers in the fields of arts and crafts, drama, music, puppetry, recreation for older people, rural programmes, social recreation, recreation buildings and areas, and citizenship. In order to make resource materials available for community use, the Branch produces a number of publications and operates a loan service in drama, music, films, slides, and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in that field. The three-year in-service training course, which was initiated by the Branch in

1951, is now administered by the Extension Branch, University of Western Ontario. In 1960, there were 106 people who enrolled for such training. In the last six years, 158 Interim Certificates and 57 Permanent Certificates have been issued to qualified persons.⁽¹⁷⁾

RECREATION DEVELOPMENT

Ontario Regulations 57/57 provide provincial grants to the municipal governments that pass the necessary by-law to appoint a municipal recreation authority and conduct or assist local recreation programmes. There has been a significant development in this field during the past fourteen years. Between 1954 and 1960 the number of municipalities involved increased from 224 to 322; during the same period, grants paid per year rose from \$287,306 to \$532,459.⁽¹⁸⁾

LEADERSHIP TRAINING

The training of leaders is a basic need in the fields of recreation and adult education. The Community Programmes Branch is continuously involved in this activity and conducts courses either co-operatively with a community or directly, as a Branch project, if the training serves a number of communities jointly.

CITIZENSHIP EDUCATION

Service was continued during the year under review to teachers of classes for non-English-speaking immigrants in Ontario. These classes were supplied with the texts and resource materials made available through the Federal Citizenship Branch. Certificates were issued to newcomers to Canada who successfully completed a course in English and Citizenship. Teacher education was provided through regional seminars and through the Department of Education Summer School course in the teaching of English as a second language.

RURAL PROGRAMME

In co-operation with the Ontario Department of Agriculture and local committees, the Community Programmes Branch conducts Rural Community Night Schools. In 1960, the number of these Night Schools was 16 with a total enrolment of 1,352. The Community Programmes Branch also co-operates with the Department of Agriculture and the Provincial Leadership Forum Committee to conduct an Annual Leadership Institute which serves delegates from all areas of Ontario.

Correspondence Courses

GENERAL INFORMATION

Through the Correspondence Courses Branch, the Department of Education provides correspondence courses for Ontario persons who are unable to attend school. Of all students for whom these courses are provided, more than 90 per cent are over 16 years of age. Younger persons enrol for reasons of distance from school, temporary absence from Ontario, or illness. The courses which are offered are academic subjects for Grades 1 to 13 (including bilingual courses for French-speaking pupils in Grades 1 to 8) and nine trades courses in the fields of automotive mechanics, carpentry, machine shop practice, and radio theory and practice. All academic courses are free to residents of Ontario wherever they may be living. Trades courses are available to residents of all provinces at \$10 a course.

Enrolment of children in the elementary grades continues to decrease, while enrolment of adults in secondary school grades continues to increase, with enrolment in Grade 13 being much greater than that in any other grade at the secondary-school level.

⁽¹⁷⁾ See Table 79

⁽¹⁸⁾ See Table 79

All correspondence courses have been prepared by teachers in the schools. All secondary-school lessons are marked by teachers in the schools, and each year an increasing number of elementary-school lessons are being sent out to teachers to be marked.

ENROLMENT

The maximum active enrolment for the school year was 5,742 on April 29, 1960. This was the highest figure yet reached. Since the number of students enrolled in correspondence courses is constantly changing, the average weekly enrolment over a period of time should be considered. For the school year 1959-1960, the average weekly enrolment was 4,482, made up of 366 elementary-school children (English), 39 elementary-school children (bilingual), 249 adults taking elementary-school courses, 3,695 persons enrolled in academic courses at the secondary-school levels and 133 students in trades courses. The number of lessons marked during the year was 116,290.⁽¹⁹⁾

New students granted courses during the year totalled 7,795. The rate of increase is such that this figure is twice as large as the figure for total admissions in 1955. The number was made up of 860 elementary-school pupils, 6,537 students taking secondary-school academic courses, and 398 students in trades courses. In addition to those admitted in the regular way, 41 persons in sanatoria received correspondence courses, 17 persons in penitentiaries, reformatories and training schools, and one student receiving instruction in a school car. Fifteen teachers teaching Grades 9 and 10 in elementary and continuation schools received courses as teaching aids. The Branch is also providing courses for 9 students attending 7 secondary schools of Ontario, who, while making full use of the programme the schools provide, find it impossible to complete Grade 11, 12 or 13 within the school year because the subjects they require are not taught.

Students prepared through correspondence courses wrote 891 Grade 13 Departmental examination papers in June, 1960, and obtained standing in 647. During the year, 387 statements of Grade 12 standing, 644 certificates covering subjects in other secondary-school grades, and 53 trades courses certificates were issued.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, Secondary School Honour Graduation Diplomas, Advanced Technical Evening Class Certificates, and Provincial Institute of Technology Diplomas issued, will be found in Table 64.

Continued study of the Grade 13 examinations, with particular reference to marking procedures, gave promise that the present release date for the results can be maintained, and possibly advanced, despite increasing numbers of candidates.

For the first time, objective-type test items not exceeding 30 per cent of the total value of the paper were used on five papers. This resulted in an improvement in the examinations and also in faster marking. While some constructive criticisms were received and while those immediately concerned with the setting of the papers are aware that improvements can be effected, there was general agreement that limited use of objective-type items is acceptable.

⁽¹⁹⁾ See Table 75

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank, have been in operation for thirteen years. In the year 1959-60, the sum of \$19,295.05 was paid to 803 students, of whom 539 reside east of Sault Ste. Marie and 264 reside west of that city.⁽²⁰⁾

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1959-60, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to Miss Jean McNicol, of Clarke Road High School, East Middlesex; Miss Christina I. MacBeth, Ryerson Institute of Technology, Toronto; Miss Elizabeth A. Thorn, Powassan Public School; and Mr. Edgar N. Wright, Island Public School, Toronto.

TEACHER EXCHANGE

During the school year 1959-60 a total of eighteen Ontario teachers were on exchange, sixteen in the United Kingdom, one in British Columbia, and one in the United States.

Guidance Services

SERVICES

Guidance in Ontario schools includes the time-proven services of counselling, aids to student appraisal, provision of educational and career information, and some job placement.

Over the past year, guidance workers in the schools have been called upon to give important assistance in the administration and interpretation of the Carnegie Study and the Grade 12 Departmental test programme. The effectiveness of secondary-school Guidance programmes has improved because of the increased number of adequately-trained personnel. Continued expansion and improvement of Guidance services in Ontario schools have gone hand in hand with a greater understanding of the services desirable and possible.

An ever-increasing interest in obtaining educational and occupational information is evident on the part of students and their parents. This demand has been matched by willing action on the part of universities and other educational institutions, as well as of business, industry and service organizations, in making available much helpful information to the schools. The value of this co-operation of school and community in providing students with authentic information regarding further education and vocational opportunities is now widely recognized.

TRAINING

Teachers' in-service training courses in testing, counselling and group work, provided by Guidance Services Inspectors in co-operation with local District Inspectors, continue to be in demand throughout the Province in urban as well as rural areas. During 1960, curriculum revision in Guidance has been undertaken, and minor adjustments in the time allocated to Group Work in Guidance in the secondary schools have been made to compensate for added emphasis laid on the individual counselling programme. Beginning in September of this year, all Ontario schools have been required to set up and maintain a uniform system of student records. This cumulative record system has enabled the schools to expedite the interchange of essential information about the students of this increasingly mobile generation.

⁽²⁰⁾ See Table 66

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 77 per cent of the elementary schools of the Province. Music was also taught in 296 secondary schools. There were 284 school choirs, 157 bands, and 81 orchestras in these schools, and 27 operas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 157 centres with more than 60,000 pupils participating.⁽²¹⁾

TEACHER TRAINING

There were 1,103 certificated teachers and supervisors engaged in the elementary schools and 349 in the secondary schools of the Province during the school year 1959-60. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 643 teachers at the Summer Courses in Music in 1960. An experimental course on string instruments was offered in Toronto to teachers who had taken the previous two courses. This course was attended by 41 persons.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1960, Grade 12 standing was attained by 2,660 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 304 pupils who tried the Departmental Grade 13 examinations and by 1,044 pupils who presented equivalent certificates.

RADIO

Twenty-five music broadcasts were presented in four series during January, February, March and April. "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five 15-minute programmes for Grades 4 to 6; "Music for Young Folk," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," five 15-minute programmes for Grades 5 to 8, were broadcast, with commentary prepared and given in each case by the Director of Music of the Department of Education.

Ontario School for the Blind

ENROLMENT

At the end of the school year in June, 1960, there were 219 students enrolled at the Ontario School for the Blind in Brantford. During the summer vacation, 34 withdrew by graduation, to seek employment, or to attend a regular school. In September, 42 new students were admitted, bringing the enrolment to 227, the largest in the history of the school—134 boys and 93 girls. Of these, 165 are from Ontario, 13 from Alberta, 24 from Saskatchewan, 19 from Manitoba, 3 from Quebec, 2 from the North West Territories and 1 from Peru.⁽²²⁾

PROGRAMME

The programme of the school is based on the Provincial Courses of Study for Grades 1 to 12, leading to a four option Secondary School Graduation Diploma. Subjects such as home economics and handicrafts for girls, manual training and piano tuning for boys, and typing for both, are practical courses begun as early as Grade 6 and continued through Grade 12.

An active and varied physical education programme, conducted indoors and out, and having full regard for the individual abilities of the students, is provided. A broad musical training programme consisting of vocal, choral and instrumental work gives each child the opportunity to develop his talents. Recreational activities

⁽²¹⁾ See Table 78

⁽²²⁾ See Table 77

include Girl Guides, Boy Scouts, Wolf Cubs and Brownies, as well as senior clubs for social activities and the operation of snack bars. Many events taking place in the community are attended by the students.

Ten students completed the work of Grade 12 in June, 1960, and of these, six are continuing their education in college or university and one is training to be a home teacher for the blind.

NEW BUILDINGS

The new music wing on the main administration building was ready for use in December, 1960. This impressive one-storey structure contains a new auditorium, costume and scenery rooms, music studios and practice rooms, a piano tuning department, and a recreational playroom for the physical education department.

An addition to the Junior School of four large, well-equipped classrooms was ready for use in October, 1960, providing adequate instructional accommodation for the pupils who live in the Junior Dormitories.

Ontario School for the Deaf

ENROLMENT

The enrolment of 482 pupils at the Ontario School for the Deaf, Belleville, in 1959 was the highest in the history of the school to that date, but it was surpassed in the school year 1960-61. On October 15, 1960, the children at the school numbered 512 (277 boys and 235 girls), an increase of 30 over last year, and distributed as follows: Junior School, 251; Intermediate School, 118; and Senior School, 143. The age of admission to the school was raised in the year under review from five years to five years, four months. All pupils have severe hearing losses and come from Ontario.⁽²³⁾

PROGRAMME

The school provides a programme to meet the academic, vocational, and social needs of children from five to twenty years of age. Vocabulary and language development are emphasized in the junior grades. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. A well-rounded programme of physical education, inter-school athletics, cultural, social, and recreational activities, is carried on throughout the school year.

Academic classes have increased in number. There are 27 Junior School Classes, 10 in the Intermediate School, and 14 in the Senior School. An elementary metal shop opened in January, 1960, as part of the vocational programme. Drafting was introduced during the last school year and upholstery was added in September, 1960, both in the Senior School vocational programme. Additional modern equipment has been installed for use in commercial classes, in sewing classes, and in the print shop.

The school's ninetieth anniversary was specially observed on October 20, 1960, when a tree-planting ceremony was held on the Junior School grounds, a birthday dinner was enjoyed in the Junior School dining room, and a banquet and programme took place in the main dining room.

IMPROVEMENTS

Extensive improvements to school property have been made during the past year, many of them by boys and girls in the Senior Vocational classes. Landscaping has been continued. Kitchenettes have been built in two senior residences, while drapes have been added to children's playrooms and dormitories. Additional playground equipment has been built and erected. Improvements to kitchen equipment have resulted in better working conditions and more efficient use of staff time.

⁽²³⁾ See Table 76

Physical and Health Education

SERVICES

The Physical and Health Education Branch continued to emphasize programme improvement in the year under review. Such improvement is becoming increasingly necessary in this age of automation and more leisure time. It is encouraging that parents, school principals and inspectors are strongly supporting a programme which should result in more healthy individuals. The staff of the Branch provides leadership in the field through curriculum courses and guides, teacher visitation, in-service courses, summer courses, and youth leadership training courses at summer camps.

ONTARIO ATHLETIC LEADERSHIP CAMP

Five hundred and fifteen young men and women from Grade 11, selected on a basis of high academic standing, ability to get along with people, and a desire to accept the responsibilities of leadership, attended the Ontario Athletic Leadership Camp for a two-week period in 1960. Many of these secondary-school students will enter the teaching profession to provide leadership in our school system. Plans are approved to double the capacity of this camp in the next five years.

ONTARIO CAMP LEADERSHIP CENTRE

Two hundred and fifty counsellors-in-training were recommended by the directors of non-profit camps to take the three-week course at the Ontario Camp Leadership Centre in Haliburton in 1960. These Grade 11 and 12 students were selected for their leadership qualities and high academic standing. The 3,300 acre site with its lakes, sandy shores, rocky outcroppings and nearby bogs, provides opportunities for unlimited experiences in studying natural science, camp craft, water safety, conservation, use of map and compass, out-tripping and survival living. Experience indicates that a high percentage of these counsellors will enter the teaching profession.

GRANTS TO NON-PROFIT CAMPS

Camp grants are paid to non-profit camps in accordance with the regulations. Over 400 applications for grants have been received. Final payment of these grants in 1960 will amount to approximately \$50,000.

Provincial Library Service⁽²⁴⁾

SERVICES

The Provincial Library Service Branch assists communities to provide public libraries, and to improve the quality of library service. Members of the staff arrange and participate in workshops and conferences on various subjects, such as rural library service, library work with children, and the responsibility of public library trustees. The branch staff edits the quarterly "Ontario Library Review" and distributes other printed material.

A library of 75,000 volumes is located at headquarters, from which books are sent out to teachers, and boxes of books are circulated among rural schools and communities not served by public libraries. A small library is also located at Moose Factory.

All cities in the Province have established public libraries. Most towns, and many smaller municipalities, have also established library service. All these libraries are aided by Provincial grants, distributed from a legislative vote which amounted to \$1,750,000 in 1960.

⁽²⁴⁾ See Table 74

DEVELOPMENT

Total expenditure on public library service amounted to \$8,843,661 in 1959. Although much of this expenditure was in urban areas, extension of rural library service is taking place. Legislation and grants have been provided for county libraries, and the establishment of such libraries is being considered in several counties. Regional library co-operatives, aiding library service in the large territorial districts in the north of the Province, have been established in recent years, largely through Provincial aid. A new co-operative, for Sudbury and Manitoulin Districts, began in 1960. Several smaller public libraries were also organized.

LIBRARIANSHIP

In 1960, 52 students obtained the degree of Bachelor of Library Science at the Library School of the University of Toronto. A much larger enrolment began studies for the academic year which will end in the spring of 1961. These librarians, needed for raising quality of service, will serve in public, university, school and special libraries in Ontario and elsewhere.

The question of the training of non-professional library assistants, which has been partially met by Departmental training courses and workshops in the past, is receiving study in the light of probable county and regional library development.

LIBRARY USE

Book circulation increased to 25,500,000 books in 1959. Total circulation, including reference use, films and other materials, was 26,168,140. Many public libraries continued fine work in the field of adult education, sponsoring art exhibits and discussion groups.

Service Record

IN MEMORIAM

W. H. CARLTON, B.A., B.Paed., who was Inspector of Public Schools for Northumberland No. 2, died in his sixty-eighth year at Cobourg after a short illness, on November 30, 1960. He was born in Creemore and received his elementary-school education at Reddickville near Shelburne. After attending Beeton Continuation School and the Owen Sound Collegiate Institute, he pursued studies leading to a Bachelor of Arts degree and a Bachelor of Pedagogy degree from the University of Toronto. His teaching experience was gained in the Toronto Public Schools.

In 1929 Mr. Carlton was appointed by the Simcoe County Council as public school inspector and served in that county for two years at Barrie and for seven years at Bradford. After further inspection experience in Grenville, he went to Cobourg in January, 1940, as Inspector of Public Schools for Northumberland. His influence upon education was further extended by service on the staff of several Departmental summer courses for teachers. Mr. Carlton was devoted to his work and will be remembered for the friendly way in which he approached his task of helping teachers to guide the educational development of their pupils.

JAMES MALCOLM DENYES, B.A., who retired in 1938, after having served as Inspector of Public Schools in Halton County for twenty-five years, died on February 23, 1960. A tribute to his service was given in the 1938 Report of the Minister.

HARVEY W. KNIGHT, B.A., B.Paed., Inspector of Public Schools in Ontario No. 1, died in Uxbridge Hospital on May 24, 1960. He was born in Warton in 1901. After attending Midland High School, he graduated from Queen's University in 1936, and received his Bachelor of Pedagogy degree from the University of Toronto in 1944. Mr. Knight was Principal of Ritson Avenue Public School in Oshawa for twenty years. He was appointed Inspector of Public Schools for Grenville County in 1943, and transferred to Ontario No. 1 in 1950.

Mr. Knight was active in community organizations such as the Public Library Board, service clubs, lodges and the United Church. An able educator, he was devoted to his inspectorate, his family, and his community. His sudden passing brought sorrow to all who knew him.

ROBERT JOICE LANG, B.A., M.Ed., Public School Inspector for the North York Board of Education, died in his fifty-second year on December 3, 1960. He was born at Erin, Ontario. He received his elementary education in York Township and his secondary education at Runnymede and Humberstone Collegiate Institutes. He graduated from the Toronto Normal School and was granted the degrees of Bachelor of Arts and Master of Education by the University of Toronto. With the exception of one year which he spent in the Air Force, he was employed in North York as a teacher, principal, executive assistant to the director of education and public school inspector. He was a calm and capable administrator, who will be sadly missed in his home, and in the school system to which he gave long and effective service.

JOHN G. McEACHERN, B.A., B.Paed., who retired from the staff of the London Normal School in 1947, died on September 18, 1960. A tribute to his service was given in the 1947 Report of the Minister.

RETIREMENTS

CHARLEMAGNE X. CHARRON, B.A., was born at Rockland and attended the Separate School in that village, the University of Ottawa, and the Ontario College of Education. His early experience was in the Rockland High School where he taught for five years. In 1928 he was appointed Inspector of Public and Separate Schools with residence at Cochrane. He was afterwards transferred to Sturgeon Falls and then to Windsor. He retired from this post on August 31, 1960. Mr. Charron made a significant contribution in the fields of administration and supervision of the schools under his jurisdiction throughout his career.

JOSEPH A. GIBSON, B.A., B.Paed., retired on February 1, 1960, from the position of Public School Inspector for Swansea, Weston, and Vaughan. He was born in Dunbarton, Scotland, and in 1917 graduated from the Dunbarton Academy. After serving in the Imperial Army from 1916 to 1919, he came to Canada and attended the Faculty of Education. He taught in Earl Grey Public School in Toronto for seven years and in the Central High School of Commerce for two years. In 1929 he was appointed Public School Inspector for North Wellington with office in Harriston. From 1931 until 1955 he was inspector in Simcoe County with his office in Orillia. From 1955 until February 1, 1960 he was Public School Inspector for Swansea, Weston, and Vaughan Township.

Mr. Gibson is a graduate of the University of Toronto with B.A. and B.Paed. degrees. He had been a devoted civil servant with the interest of pupils, teachers and trustees at heart.

WILLIAM F. HISCOCKS, B.A., retired as Public School Inspector for the Inspectorate of Leeds No. 1 on August 31, 1960. He had served in this inspectorate with headquarters at Gananoque for eighteen years, and had previously been an inspector in Northern Ontario with headquarters at Monteith and at Cochrane, for seven years. Mr. Hiscocks was a native of Bruce County and received his secondary education at Wingham High School. During the First World War he served overseas with the Canadian Army and with the Imperial Army with the rank of Staff Captain. He received his Bachelor of Arts degree from the University of Toronto and attended the Ontario College of Education. He was a teacher on the staff of the Stratford Collegiate Institute before becoming principal of Chapleau High

School. Before his appointment as public school inspector he was principal of the Northern Academy at Monteith. In his quiet, effective way, Mr. Hiscocks was successful in helping pupils and teachers in the areas in which he served.

SIDNEY D. HOLMES, B.A., B.Paed., Assistant Superintendent of Curriculum, retired on March 31, 1960. Mr. Holmes, who was born in England, received his elementary and secondary school education in Picton, Ontario. Upon graduation from the Picton Collegiate Institute, Mr. Holmes enlisted in the Royal Canadian Artillery, and while on active service was wounded at Passchendaele in 1917.

After the war he enrolled at the University of Toronto and graduated with honours in Chemistry. Professional training at the Ontario College of Education followed, whereupon Mr. Holmes began his teaching career at the Oshawa High School. Two years later he was appointed to the staff of Mount Allison University where he gave professional courses to degree candidates qualifying for the secondary school teaching licence. He returned to Ontario to teach Science, first at the Smith's Falls Collegiate Institute and later at Jarvis Collegiate Institute in Toronto. In this sixteen-year period he earned the high respect of his colleagues both for his competence in the classroom and his concern for the prestige of his subject. He was the author of several articles in such magazines as "The School", and he gained editorial experience which was to stand him in good stead in a subsequent position.

When the Ontario Department of Education re-established the post in 1944, Mr. Holmes became Editor of Text-books. In this capacity he demonstrated a concern for scholarship and accuracy which characterized all of his work with the Department of Education. He became Assistant Superintendent of Curriculum and Text-books in 1957, and from that time until his retirement gave unstintingly of his experience and ability in the preparation of new text-books.

REGINALD HAROLD KING, M.A., retired on December 31, 1960, from the position of Director of Education for the Board of Education of Scarborough Township. Mr. King was born at Orangeville in 1896 and received his primary and secondary education at Orangeville and Saint John, New Brunswick. He graduated from McMaster University in Classics with the degree of B.A. in 1917 and received an M.A. degree in 1923. His teaching career began in Newmarket High School in 1919. The next two years he taught in Strathroy High School. In 1922 he became the first principal of the first High School in Scarborough. When the Scarborough Board of Education was formed in 1953 Mr. King was appointed Director of Education for Scarborough and held that position until he retired. The R.H. King Collegiate Institute has been named in his honour. During his 38 years of faithful service in Scarborough Township, the enrolment in the secondary schools increased from 116 to 7,800 pupils.

HORACE G. LOCKETT, M.A., B.Paed., retired from the position of Master at the Hamilton Teachers' College on June 30, 1960. Entering Queen's University on the McKerras Scholarship, he was granted the B.A. degree in 1912, the M.A. degree in 1914, and the High School Assistant's Certificate in 1915. After five years of teaching in elementary and secondary schools, he was appointed to the staff of the North Bay Normal School in 1919. In the following year he was transferred to the staff of the Hamilton Normal School where, for forty years, he served with distinction. During his long career Mr. Lockett held all of the offices in the Supervising and Training Department of the Ontario Education Association, which honoured him with a life membership in 1960. An able teacher with successful experience in a variety of schools, he gave invaluable assistance and advice to the thousands of students whom he taught. He will long be remembered for his skill in English, his sense of fairness, and his keen interest in College athletics.

ROBERT SAMUEL McBURNEY, B.A., B.Paed., Inspector of Public Schools, Kenora No. 1, retired on June 14, 1960. Mr. McBurney was born in Wingham and

received his elementary and secondary education in Huron County. After having attended the Faculty of Education, Toronto, he taught near Niagara Falls, and at Gorrie, Highgate, and Ridgetown. He later served for nineteen years as a principal at Port Arthur, and during this period obtained a Bachelor of Arts degree from the University of Western Ontario and a Bachelor of Pedagogy degree from the University of Toronto. On September 1, 1941 he was appointed Inspector of Public Schools in Kenora District, where he served until his retirement. Mr. McBurney's quiet and sympathetic manner earned him the respect of pupils, teachers, and trustees. He rendered conscientious service to the schools of his inspectorate, particularly to those schools in sections located in unorganized territory, some of which he first visited by plane. Since retiring, Mr. McBurney has made his home in Lindsay, Ontario.

W. ROY McVITTIE, B.A., retired from the Public Service on February 29, 1960. He was born in Southampton, Ontario, and attended elementary and secondary schools there. He graduated from the Toronto Normal School and received a Bachelor of Arts degree from Queen's University. After teaching for eleven years in Northern Ontario, Kingston, and Burlington, he was appointed Public School Inspector on July 1, 1931, with residence in Cochrane, Ontario. In 1935 he was transferred to Barrie, and in 1945 to Guelph where he remained as inspector in Wellington County until his retirement. Mr. McVittie served as secretary and as president of the School Inspectors' Group of the Civil Service Association of Ontario and for three years as secretary of the Ontario School Inspectors' Association. Since retiring he has continued to act as chairman of the Annual Meeting of Township School Area Boards of Western Ontario, a group which has been meeting for fourteen years, and which first met in Wellington County where Mr. McVittie was inspector. His contribution to education in the Province and his influence in effecting improvements in larger units of administration were recognized by trustees of the Province by making him an honorary member of the Ontario School Trustees' and Ratepayers' Association.

ANGUS MOWAT, M.A., retired on March 31, 1960, from the position of Director of Provincial Library Service. Appointed in 1937 as Inspector of Public Libraries, he had previously held positions as chief librarian in Saskatoon, Windsor, Belleville, and Trenton. During the Second World War, he obtained leave to serve with the Canadian Army in the Hastings and Prince Edward Regiment.

In April, 1948, Mr. Mowat became Director of Public Library Service. In 1959 following a recommendation by Dr. W. S. Wallace in his "Provincial Library Service in Ontario" report, he was appointed Director of Provincial Library Service.

The author of two books, as well as many articles, pamphlets and reports, Mr. Mowat is well-known as a man of letters. His work for the development of public library service throughout the Province, his service as an administrator, and his knowledge of books and encouragement of reading, will be remembered and appreciated.

CLARE B. ROUTLEY, M.A., retired as Superintendent of Professional Development, on September 30, 1960. Born in Lambton County, he attended elementary and secondary schools in Alvinston, and the University of Western Ontario, where he received the degree of Bachelor of Arts. Later, as a result of postgraduate studies at the University of Ottawa, he was awarded a Master of Arts degree. His professional education was obtained at London Normal School and the Ontario College of Education, following which he taught in rural schools in Lambton, Middlesex, and Essex Counties, and for a time in the elementary and secondary schools of Fort William and Hamilton.

In 1933 he was appointed Inspector of Public Schools in Prescott and Russell Counties, and in 1938 was transferred to Wentworth County where he served until

his appointment as Assistant Superintendent of Elementary Education, in 1945. When the Professional Development Branch was organized in 1957, he became its first Superintendent.

Mr. Routley was widely known as an educator and as a leader in community organizations. His special interest was in Junior Red Cross, which he served for fifteen years as Chairman, Ontario Division. Mr. Routley's wide experience, his energy and enthusiasm, fitted him admirably for the job of raising the level of professional competence of Ontario teachers.

STANLEY A. WATSON, B.A., retired as Superintendent of Curriculum and Text-books on October 31, 1960. Mr. Watson has had a unique professional experience: teacher, principal, and inspector of elementary schools, master and principal in the normal schools, author of text-books and curriculum consultant, Assistant Superintendent of Elementary Education, and Superintendent of Curriculum.

Mr. Watson is a native of Orillia, and after graduation from the Orillia Collegiate Institute, he attended North Bay Normal School. He began his teaching career in a rural school near Orillia, and in the Orillia Public Schools. In 1915 he enlisted in the Simcoe Foresters. His service in France was with the 116th Battalion during which time he was awarded the D.C.M. and Bar and commissioned in the field.

Upon graduation from the University of Toronto, Mr. Watson taught and served as principal in several Toronto Public Schools. During this period he was called upon to collaborate with the late Thornton Mustard in the preparation of new courses of study for the elementary schools of Ontario.

Since 1940, when he joined the Department of Education as a master at the Toronto Normal School, Mr. Watson has maintained an active interest in curriculum.

During the Second World War he served at National Defence Headquarters as A.A.G., Directorate of Personnel Selection.

When illness terminated his military service in 1943, Mr. Watson became Inspector of Public Schools in South Simcoe, and Principal of the Ottawa Normal School the following year. He was appointed Assistant Superintendent of Elementary Education in 1946 and became the first Superintendent of Curriculum and Text-books in 1956.

Mr. Watson's achievements have been characterized by a breadth of scholarship, an understanding of students, and a sense of humour, which have earned him the esteem of countless teachers, superintendents, and scholars across Canada and abroad. As Superintendent of Curriculum and Text-books for Ontario, visiting lecturer at the University of British Columbia, curriculum consultant in New Brunswick, chairman of the Committee of Directors of Curriculum for the Canadian Education Association, adviser to authors and publishers, he has made lasting contributions to Canadian education. Perhaps foremost of these contributions is the growing prestige of Canadian text-books now appearing in Ontario classrooms.

DIED IN SERVICE

W. H. Carlton.Elementary School Inspector, Elementary Education Branch, November 30, 1960.

H. W. Knight.Elementary School Inspector, Elementary Education Branch, May 24, 1960.

R. J. Lang.Public School Inspector, North York Board of Education, December 3, 1960.

RETIREMENTS ON SUPERANNUATION

- C. X. Charron.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Windsor R.C.S.S. Division No. 2, August 31, 1960.

*Students in this course are completing the final year of the In-Service Training Course and have attended two Pre-Teachers'-College Summer Courses and have taught two years on temporary certificates in the public or separate schools of Ontario.

NOTE: In addition to the students referred to in the above table, 81 students (34 men and 47 women) at the Ontario College of Education are candidates for the Interim Elementary-School Teachers' Certificate valid in the elementary schools.

The one-year Deferred Elementary School Teachers' Course formerly offered at the University of Ottawa was discontinued in 1960.

(September 1, 1959 to August 31, 1960)

A—Interim Certificates

1. Intramural

	First Certificate	Up- Grading
Elementary		
1. Second Class (University of Ottawa Teachers' College)		
(a) One-year Course	303
(b) Completion of Three Summer Sessions	41
2. Elementary-School Teacher's Teachers' Colleges		
(a) One-year Course, including 16 Deferred Elementary-School Teacher's Certificates from University of Ottawa Teachers' College	2,430
(b) Second year of Two-year Course	684
(c) Completing Year (at Teachers' College) of In-service Course	557
Ontario College of Education		
Elementary-School Teacher's Option	25
3. Primary School Specialist's		
(a) to candidates entering with B.A. degree only	26
(b) to candidates entering with Elementary-School Teacher's Certificate	11
Total, Elementary	4,066	11
Secondary		
4. High School Assistant's, Type B		
(a) One-year Course	214
(b) Completion of 10-week Summer Session 1959 and 5-week Summer Session 1960	716
(c) Departmental 5-week Summer Course	130
5. High School Assistant's, Type B (Endorsed)	450
6. High School Assistant's, Type A (Taken concurrently with Type B but not included in the 214 above)		
(a) One-year Course	129
7. Vocational, Type B, One-year Course	72
8. Vocational, Type A, Summer Sessions	59
9. Intermediate Home Economics	50
10. Intermediate Industrial Arts	1	53
Total, Secondary	1,132	742
Elementary	2. Extramural	
1. Second Class		
(a) raised from Third Class	10
(b) to candidates re-writing Teachers' College papers	40
(c) to holders of Letters of Standing	97
2. First Class		
(a) raised from Second Class
(b) to candidates re-writing Teachers' College papers	8
(c) to holders of Letters of Standing	20
3. Elementary-School Teachers'		
(a) raised from Second Class	266
(b) to candidates re-writing Teachers' College papers	166
(c) to holders of High School Assistant's Certificates	16
(d) to holders of Letters of Standing	313
(e) to holders of Kindergarten-Primary Certificates
Total, Elementary	644	292

TABLE 11—PROFESSIONAL CERTIFICATES ISSUED DURING 1959-60 (Continued)

Totals	152,267	635	177,620	240,692,000

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

CHART 3. POST-WAR BUILDING CONSTRUCTION—ADDITIONAL PUPIL PLACES

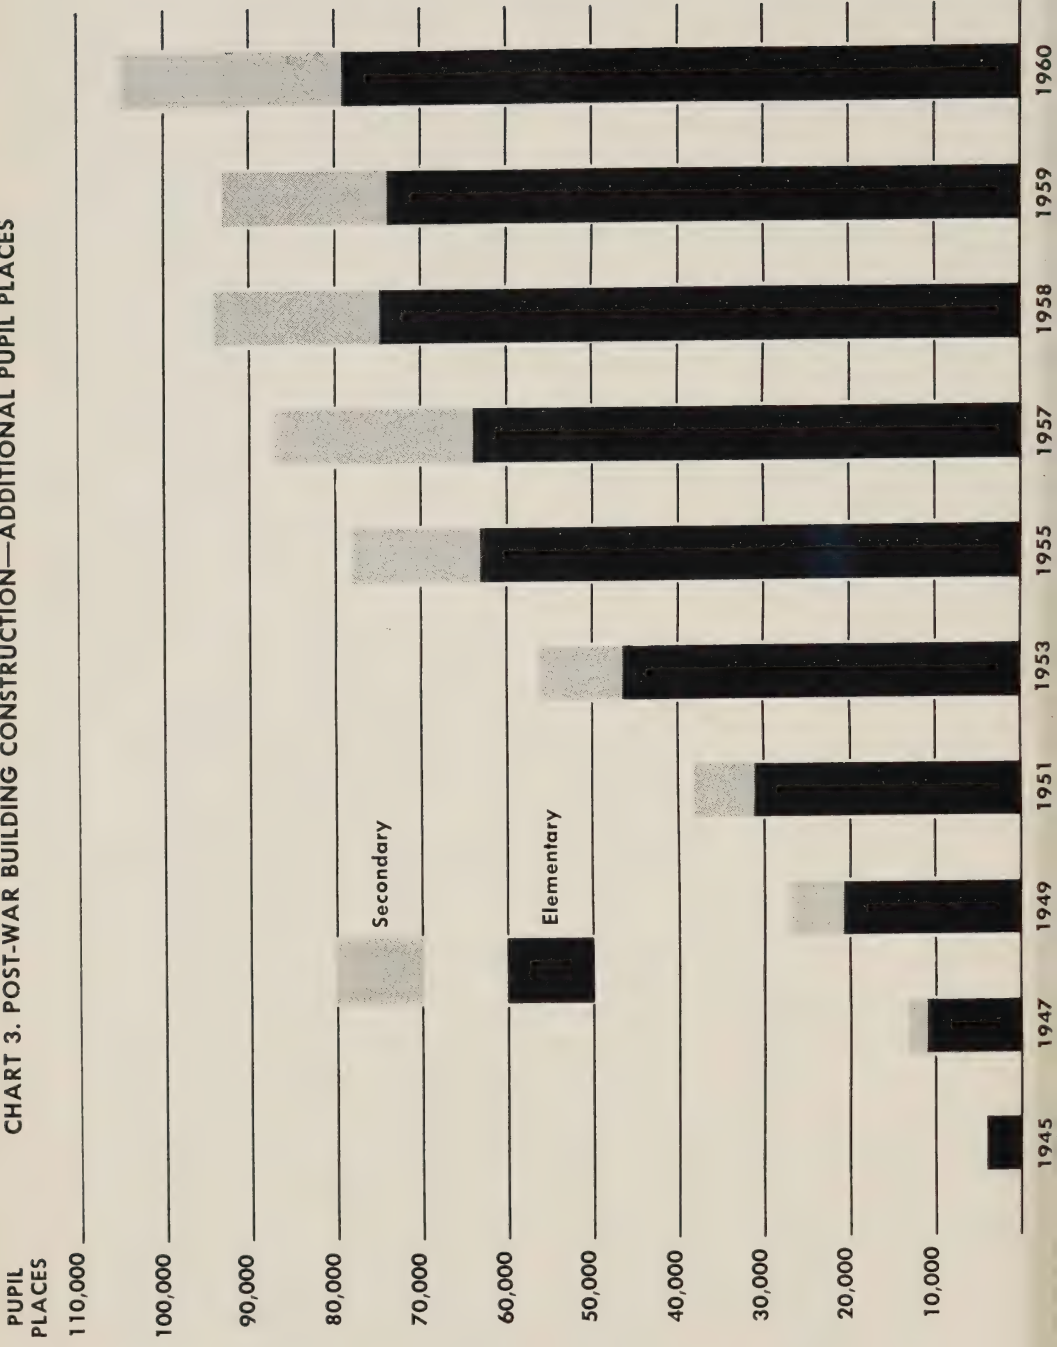

TABLE 19—DESTINATION OF PUPILS WHO LEFT ONTARIO ELEMENTARY AND SECONDARY SCHOOLS DURING THE TWELVE MONTHS ENDING THE LAST SCHOOL DAY IN SEPTEMBER, 1960

Destination of Pupils	Number	Percentage Distribution
Retired from school life to enter:		
Proprietary and Managerial.....	99	0.1
Professional.....	759	0.7
Clerical.....	10,892	10.7
Agricultural.....	4,675	4.6
Fishing, Hunting, Trapping, Logging and Mining.....	572	0.6
Manufacturing and Mechanical.....	4,160	4.1
Construction.....	1,307	1.3
Transportation and Communications.....	1,727	1.7
Commercial, Financial.....	4,213	4.1
Service.....	6,243	6.2
Labouring Occupations.....	6,768	6.7
Not Employed.....	11,429	11.3
Total.....	52,844	52.1
Further Training:		
Private Academic Schools.....	8,904	8.8
Universities.....	5,931	5.9
Business Schools.....	2,306	2.3
School of Nursing.....	2,058	2.0
Provincial Technical Institutes.....	886	0.9
Private Trade Schools.....	451	0.4
Teachers' Colleges.....	2,929	2.9
Pre-Teachers'-College Summer Course.....	219	0.2
Agricultural Schools.....	194	0.2
Other Educational Institutions or Training.....	1,470	1.4
Total.....	25,348	25.0
Left Ontario.....	19,553	19.3
Death, Disability, etc.....	3,687	3.6
Total Number of Pupils Leaving the Ontario School System.....	101,432	100.0

TABLE 66—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS
1959-60

The Province of Ontario provided transportation assistance to 803 students during the school year 1959-1960. \$19,295.05 was paid to 539 students residing east of Sault Ste. Marie and 264 students residing west of Sault Ste. Marie. Of those assisted 250 were in the first year, 252 in the second year, 199 in the third year, 100 in the fourth year, 2 in the fifth year and 0 in the sixth year.

The institutions attended by these students were as follows:

Queen's University	205	Ontario College of Education	19
University of Toronto	193	University of Waterloo	19
University of Western Ontario	163	Ontario Agricultural College	18
Assumption University	62	MacDonald Institute	8
University of Ottawa	59	Ontario College of Art	6

Report of The Minister of Education 1961

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1961. The report contains a brief descriptive summary of the work of the divisions and branches which are responsible for the organization and supervision of the educational system together with a compilation of general and comparative statistics related thereto.

In September, 1961, there were 1,462,230 elementary and secondary school pupils enrolled in the schools of the Province, an increase of 73,067 over the same month in 1960. It is interesting to note that the elementary schools showed an increase of 36,665 and the secondary schools an increase of 36,402.

The supply of teachers for the elementary schools continues to improve. In June, 1961, more than 5,100 certificated teachers graduated from the ten Teachers' Colleges, and the enrolment at these Colleges for the 1961-62 school year is 6,058.

At the opening of school in September, 1961, there were 618 centrally-located graded schools in operation in rural areas. These schools contain 3,588 class-rooms and have replaced 1,547 one-roomed schools. In the one year preceding September 5, 1961, there were 109 new central schools established by local boards of trustees. In 1961, only 7 per cent of the pupils of the Province attended one-roomed schools.

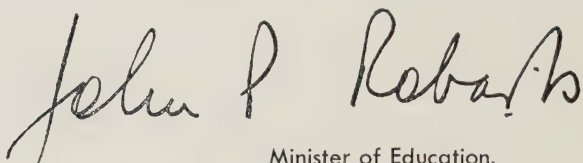

The spring of 1961 ushered in a new era for vocational education with the signing of the new Provincial-Federal Technical and Vocational Training Agreement. In response to the financial encouragement offered under the plan, a large number of school boards are providing vocational accommodation for the teaching of commercial and technical courses in their secondary schools. By the end of the year, 202 building projects were being processed in this connection, including new buildings and additions to existing schools. The facilities for vocational education that are being provided under the Agreement just mentioned will assist the secondary schools of the Province in their effort to give each of their students the maximum opportunity to acquire an education for better living and a better livelihood. The extent to which the pupil will benefit from this opportunity depends, of course, upon his abilities, his interest, and his application. Until recently our society was able to absorb into remunerative employment almost every pupil leaving school with or without a graduation diploma. But now, technological changes have made it impossible for a pupil leaving grades 9, 10 or 11 without a diploma and without a specific skill to obtain employment with any degree of security for the future. To meet the needs of this large group of pupils necessary changes are being made in school organization and subject content. Teachers, as well as representatives from all other groups concerned with education, are being

consulted. Effort is being made to preserve those features of the system that have proved their value in the past, and at the same time to provide new opportunities for ambitious students.

Financial assistance through scholarships, bursaries, or loans was given to more than 8,000 students in the scholastic year 1960-61, in a total amount slightly over \$2,500,000. Ten scholarships of \$2,500 each were made available to students for postgraduate study in Ontario Universities; these awards, known as the Queen Elizabeth Scholarships, were provided from the scholarship fund established to mark the visit of Her Majesty Queen Elizabeth II to Ontario.

World affairs, technological advances, and economic conditions from time to time spur special interest in specific fields of education. Current examples of such interest are the new approaches in the teaching of science and mathematics and the expansion of technical and vocational programmes. The basic principle of providing opportunities throughout the school system whereby the children and youth of the Province may not only prepare themselves to make a living but to realize their own best selves remains constant. This principle continues to guide all those who have an active interest in the schools of Ontario—parents, teachers, trustees and educational officials.

Respectfully submitted,

A handwritten signature in dark ink, reading "John P. Roberts". The signature is fluid and cursive, with the first name "John" and last name "Roberts" clearly legible. The middle initial "P." is smaller and less distinct.

Minister of Education.

Elementary Education

ENROLMENT

The number of pupils in the elementary schools of Ontario in September, 1961, totalled 1,163,053, of whom 861,715 were enrolled in public schools and 301,338 in separate schools. This total represented an increase of 36,665 over the elementary school enrolment of September, 1960.

BUILDING PROGRAMME

In 1961, elementary school accommodation was increased by 66,150 pupil places, provided in 452 new buildings and additions, at an approximate cost of \$53,301,000. From 1945 to 1961 inclusive, 745,935 pupil spaces have been provided in the elementary school system, at an estimated cost of \$514,446,000.

TRANSPORTATION

During the school year 1960-61, transportation was provided by elementary school boards for 84,808 children who were attending elementary schools and for 7,382 children attending secondary schools. This represented an increase of more than 16 per cent in the number transported as compared with the previous year. Buses owned by elementary school boards carried 16,071 children. Of all pupils transported, 3,646 pupils were transported a distance under 2 miles, 45,934 pupils were transported 2 to 4 miles, 21,010 were transported 4 to 6 miles, 12,738 were transported 6 to 9 miles, 3,691 pupils were transported 9 to 12 miles, and 5,171 pupils were transported 12 miles or more to the schools which they attended. School boards provided transportation for 263 non-resident pupils, residing in portions of the territorial districts, where there was no school accommodation, to schools in which they were given regular classroom instruction.

FALL CONFERENCES

For a number of years, two-day Fall Conferences have been held in each of the Teachers' Colleges for the members of the Teachers' College staffs and for the inspectors of the area served by each College. In this way those who are engaged in the education of teachers are brought into close contact with those who are responsible for the professional in-service development of the teacher in the classroom. Officials of the Department, representing the Teacher Education, Elementary and Secondary Education, Curriculum and Text-books, Professional Development and Special Services Branches, are also in attendance.

The programme varies from year to year and has included question and answer sessions, group and panel discussions, addresses, demonstrations and the viewing of films. Each programme is designed to solve general and specific problems, to broaden the educational understandings of the participants, and to promote co-operation between the master in the Teachers' College and the inspector in the field in order that there may be continued improvement in the work of the teachers in the classrooms throughout the Province.

IN-SERVICE PROGRAMME FOR INSPECTORS

Since 1955, an in-service programme has been provided each year to assist newly-appointed elementary school inspectors with their duties. Seven programmes have been held, and a total of 103 public and separate school inspectors have been brought to the Department's offices in Toronto for the courses, which are conducted during the first week in October. Provision has been made for the inspectors to meet the Minister of Education and his senior officials, and to discuss with the officials of the Elementary Education Branch and of other branches, the supervisory and administrative duties which they are undertaking. Through these

courses, inspectors have become acquainted at first hand, and early in their new careers, with the personnel and organization of the Department of Education and with further details of the inspectoral duties which they have assumed.

INTERNSHIP PLAN

In the six years that the Internship Plan in Supervision has been in operation under the sponsorship of the Ontario College of Education and with the approval of the Department of Education, 109 teachers have participated. Each candidate has been placed with an experienced inspector for a two-week period to study at first hand aspects of the supervision of class-rooms and the administration of elementary schools. Thirty-four of the candidates have since been appointed as elementary-school inspectors.

CENTRAL SCHOOLS

The number of central schools being provided by boards of trustees of township school areas and of union separate schools for pupils in rural areas of the Province, continues to increase. At the opening of school in September, 1961, there were 618 centrally located graded schools in operation. These schools contain 3,588 classrooms and have replaced 1,547 one-roomed schools. In the one year preceding September 5, 1961, there were 109 new central schools put into operation by local boards of trustees.

SUPERVISION OF ELEMENTARY SCHOOLS

There is a trend in Ontario towards the establishment of municipal inspectorates in urban and large suburban municipalities. In a municipal inspectorate the public school inspector is appointed by the local school boards, subject to approval by the Minister. Existing legislation provides for the permissive establishment of a municipal inspectorate in an area where the average attendance of pupils in public schools under one board in any year is from 2,000 to 3,000 and for mandatory establishment of a municipal inspectorate when the average attendance is 3,000 or more.

In September, 1951, there were 37 municipally-employed public school inspectors, superintendents, and directors with inspector's qualifications, and 137 provincially-employed elementary school inspectors. By September 1961, the number employed by local school boards had increased to 124. The number of provincially-employed inspectors in September, 1961, was 188. During the same period the number of municipal inspectorates increased from 17 to 38.

THE RESIDENTIAL AND FARM SCHOOL TAX ASSISTANCE GRANTS ACT

The Residential and Farm School Tax Assistance Grants Act was passed in 1961 to relieve owners of residential and farm property of a portion of the amount of school taxes which they would be required to pay in 1961. During 1961, each elementary school board was paid a legislative grant of \$5.00 times the 1960 average daily attendance of its resident pupils. In 1961 it was optional to use this grant to reduce the school tax rate on farm and residential property below the tax rate on commercial property.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1961, was 299,177 an increase of 36,402 over September, 1960. By courses, the enrolments were as follows: General, 227,018; Commercial, 36,550; Commercial Special, 2,227; Technical, 26,618; Home Economics, 499; Art, 795; Special Industrial, 1,408; and Special Courses, 4,062.

The total number of full-time teachers (including principals) in September, 1961, was 12,850, representing an increase of 1,372 over that of the previous year. With an allowance for part-time teachers, the pupil-teacher ratio in September, 1961, was 23.0 as compared with 22.6 in 1960 and 22.4 in 1959.

BUILDING PROGRAMME

There were 15 new secondary school buildings completed in 1961 and additions were made to 47 existing school buildings at a total cost of approximately \$31,941,000.

TRANSPORTATION

During the school year 1960-61, secondary school boards furnished transportation for 69,568 pupils. These pupils were transported over 1,894 routes at a cost of \$37,067 per day.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with operators to furnish transportation for more than one year but not more than five years.

TECHNICAL-VOCATIONAL TRAINING AGREEMENT

An unprecedented number of secondary school boards adopted plans in 1961 to provide vocational accommodation for the teaching of Business (Commercial) and Technical Courses in their schools. Responsible for this acceleration was the new Provincial-Federal Technical and Vocational Training Agreement. By the end of December, 1961, 202 building projects were being processed in this connection, including both new buildings and additions to existing schools. Half of these projects will be located in areas where courses in the Business and Commerce, and Science, Technology and Trades Branches have never previously been available to students. Thus in many parts of Ontario, the plan opens up exciting new educational opportunities for young people.

NEW OPPORTUNITIES IN SECONDARY SCHOOLS

In the summer of 1961, plans were started for a re-organization of the secondary school system on a three-branch basis with new programmes and courses of study designed to provide greatly expanded opportunities for the development of the full potential of all its students. School boards have been and will be encouraged to organize their secondary schools, beginning in September, 1962, into three distinct but equal branches: (1) Arts and Science; (2) Business and Commerce; (3) Science, Technology and Trades. The precise contents of the new programmes and courses are being developed on the basis of consultations throughout the Province with teachers, university authorities, educational officials, trustees, parents, and representatives of business, industry and labour.

Within each branch, there will be an interesting and challenging five-year programme through which students may proceed to higher education and training. Each branch will offer a four-year programme for those whose aptitudes and ambitions do not tend towards advanced education. There will also be a one-or two-year programme offering occupational subjects, designed to prepare students for the service trades and occupations.

Over the years, this re-organization of the secondary school system should have the following beneficial effects: (1) It will make school more interesting and rewarding for students. (2) It will elicit maximum achievement from greater numbers of students at all levels. (3) It will educate and train a much larger proportion of our young people more thoroughly and to a higher degree and will thus help Canada to meet the challenges of today's increasingly complex social and economic setting.

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1960-61, financial assistance was given to approximately 8,000 students in scholarships, bursaries, and loans in a total amount just over \$2,500,000. This represents an increase of 20 per cent over the previous year in the number of students granted some form of student-aid. The Federal Government contributed \$100,000 of this total. Some students received aid in two of the forms mentioned.

To enable students to finish the final year in secondary school and to proceed to the first year of post-secondary education, the sum of \$625,097 was awarded in free gifts as scholarships and bursaries. Bursaries to students in undergraduate years totalled \$569,715. Loans, repayable on very generous terms beginning in the year after a student's graduation or withdrawal, were issued to 3,361 students in the amount of \$1,388,707.

For the fiscal year 1961-62, the sum of \$1,450,000 has been set aside for scholarships and bursaries, while the "drawing account" for student-aid loans is \$3,000,000. With such assistance available from the Provincial Government, no student in Ontario who earns through employment during his vacation periods need forego college or technological training for lack of means.

THE RESIDENTIAL AND FARM SCHOOL TAX ASSISTANCE GRANTS ACT

This Act was passed in 1961 to relieve owners of residential and farm property of a portion of the amount of school taxes which they would be required to pay in 1961. During 1961, each secondary school board was paid a legislative grant of \$5.00 times the 1960 average daily attendance of its resident pupils. In 1961 it was optional to use this grant to reduce the school tax rate on farm and residential property below the tax rate on commercial property.

DEPARTMENTAL TESTING PROGRAMME IN GRADE 12

In the spring term of 1961 short-answer aptitude and achievement tests were administered to all pupils in Grade 12. The subjects of History (or Economics), Algebra, and Latin were covered by these tests for the first time. The reporting of scores to the schools and to the Department has been simplified and noticeable progress has been achieved towards a more uniform standard for the Secondary School Graduation Diploma in Ontario. In 1961 the universities asked the secondary school principals to submit percentile scores for students who applied for admission.

In 1961-62 the achievement tests are being given to pupils in diploma subjects usually taught in Grade 11 while the aptitude tests are continued in Grade 12.

PRIVATE TRADE SCHOOLS

During 1961 the total number of private trade schools registered under The Trade Schools Regulation Act was 153. Of these, two schools failed during the year. Thirteen others failed to renew their license and fourteen new schools commenced. Three others were refused approval because of unsatisfactory conditions connected with their application.

The co-operation of the Better Business Bureau and certain newspaper advertising managers has been of great assistance in maintaining the standards of these private schools. The quality of instruction appears to be adequate.

TECHNICAL INSTITUTES

The technical institutes, which are organized under The Department of Education Act, and which, in general, operate under advisory committees, offer advanced technological education between the levels provided in secondary schools and in the universities.

Four institutes of technology—Ryerson Institute of Technology, Toronto; The Hamilton Institute of Technology; The Eastern Ontario Institute of Technology, Ottawa; and The Western Ontario Institute of Technology, Windsor—provide a three-year programme leading to employment in business and industrial occupations. They also offer evening classes for employed persons who wish to improve their education. At all of these institutes there is a common first-year course for aeronautical, chemical, electrical, electronic, instrument, gas, mechanical, and metallurgical technologists. The Ryerson Institute of Technology offers the three years of each of these courses. In the other institutes, it is necessary for the students to transfer to Ryerson to complete the second or third year of certain of the courses.

The Eastern Ontario Institute of Technology offers a three-year course in Business Administration.

The Provincial Institute of Mining at Haileybury offers a two-year Diploma Course in technological subjects relating to mining. A recent addition to the building makes provision for a suitable milling laboratory, a new classroom to serve both milling and fire assaying, administrative offices, a staff room, students' common room, and a school library.

On September 30, 1961, there were 3,833 full-time students enrolled in the day courses in the five institutes mentioned, and on November 1, 1961, there were 3,481 enrolled in the evening courses.

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

Although The Lakehead College of Arts, Science and Technology, Port Arthur, now operates under a Board of Governors, it continues to receive financial assistance from the Ontario Department of Education. This institution offers two-year university courses in arts and science, and conducts two-year technological courses in forestry, mining, and industrial chemistry.

THE PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades, Toronto, was established in 1951 to provide "in-school" training for apprentices in trades designated under the Apprenticeship Act of the Department of Labour of the Province of Ontario. In 1961, the enrolment on the last day of September included 641 students on a ten-week course in the designated trades, and 595 students in courses of varying lengths in the non-designated trades. Included in this figure are 521 students accommodated under the provisions of Schedule 5 of the Technical and Vocational Training Agreement in nine different trades. In the designated trades, four classes are admitted per year. The evening class programme, designed to encourage tradesmen to upgrade their training, had 2,151 persons enrolled on November 1, 1961. This is an increase of 520 over the previous year.

Teacher Education

ENROLMENT

In the autumn of 1961, a total of 6,058 students enrolled in the Teachers' Colleges, a decrease of 672 from the previous year. Of these, 3,750 were registered in one-year courses, 945 in the First Year of the Two-year Course, 837 in the Second Year of the Two-year Course, and 526 in the Completing Year of the In-service Course. Approximately 28 per cent of the students were men, the same percentage as in 1960.

At the Ontario College of Education, 910 students were enrolled in courses leading to the Interim High School Assistant's, Vocational and Industrial Arts

Certificates—an increase of 312 over the number of the previous year. In addition, 88 students were enrolled in the Library Course, an increase of 6 over 1960. In all courses, registration at the Ontario College of Education increased from 680 in 1960 to 998 in 1961. The proportion of men students increased from approximately 62 per cent in 1960 to 69 per cent in 1961.

TEACHER SUPPLY

In 1961, approximately 5,100 students graduated from the Teachers' Colleges. As a result, the supply of teachers for the elementary schools was equal to the demand and a slight surplus was apparent. Of these 5,100 graduates, 3,336 were in the One-year Courses, 1,087 were in the Second Year of the Two-year Course, and 694 were in the Completing Year of the In-service Course. Improvement in teacher supply has made it possible to raise the standards for entrance to Teachers' Colleges and to discontinue the In-service Training Course. Effective in September, 1961, the academic standing necessary for entrance to the One-year Course, formerly standing in eight Grade 13 papers including either English Literature or English Composition, was raised to require standing in eight Grade 13 papers including English Literature and English Composition. It is gratifying to note that despite this higher academic requirement, enrolment in the One-year Course increased from 3,381 in 1960 to 3,413 in 1961. Attention is now being directed to increasing the number of Grade 13 graduates admitted to the One-year Course and, at the same time, to gradually reducing the number of students from Grade 12 entering the Two-year Course. The number of students entering the teaching profession through the In-service Course has been reduced in recent years—from 1,120 in 1958, to 734 in 1959, and to 562 in 1960. The Pre-Teachers'-College Summer Course, First Year, was not held in 1961; this fact forecasts the end of the In-service Training Course, as the Pre-Teachers'-College Summer Course, Second Year, will not be offered after 1961, and the last group to be prepared as teachers under this emergency scheme will enter Teachers' College for their completing Year in September, 1962. Similarly, at the University of Ottawa Teachers' College, where summer courses leading to a Second Class Certificate have been offered for the past six years, no First Summer Session was offered in 1961, and the last group to obtain certification through this course will complete the required three summers of attendance in 1962. A total of 510 graduates of the Pre-Teachers'-College Summer Course, Second Year, had the validity of their temporary certificates extended for one year after attendance at the Toronto and Port Arthur centres. Following the successful completion of the University of Ottawa Teachers' College Summer Session, 66 teachers had the validity of their Deferred Interim Second Class Certificates extended for one year.

Letters of Standing, valid in Ontario's elementary schools and granted to well-prepared teachers from other provinces of Canada or other countries of the Commonwealth totalled 547 in the school year 1960-61. Letters of Permission, issued to boards of trustees on behalf of uncertificated teachers in elementary schools, totalled 535 by the end of November for the school year 1961-62. This figure represents a decrease of 218 from the number of Letters of Permission issued at the end of November, 1960.

The Special summer course programme for the preparation of secondary school teachers was provided in 1961, as in 1960, in Toronto, Kingston, and London. A total of 1,222 prospective teachers enrolled at the three centres for the first eight-week summer course—an increase of 187 over the number of the previous year. At the same time, the number of teachers returning for the second eight-week summer course rose from 866 in 1960 to 895 in 1961. The present plan is to offer these two summer courses in 1962 at the same three centres, but to reduce the duration of the second summer course from eight weeks to seven.

Letters of Standing, valid in Ontario's secondary schools and granted to

secondary school teachers trained in other provinces of Canada or other countries of the Commonwealth, totalled 72 for the school year 1960-61. Letters of Permission, issued to boards of trustees on behalf of secondary school teachers not holding basic secondary school teaching certificates, totalled 769 by the end of November, 1961. In addition, 235 Letters of Permission for the teaching of special subjects were granted on behalf of teachers fully qualified to teach general academic subjects.

NEW CONSTRUCTION

In September, 1961, the Lakehead Teachers' College began operation in its new building adjacent to the Lakehead College of Arts, Science and Technology at Port Arthur. A total of 231 students enrolled, an increase of 24 over the enrolment of the previous year when the College operated in rented quarters in Fort William. The new building of the Lakehead Teachers' College was formally opened on October 18, 1961.

Construction was begun in 1961 on a new Teachers' College for the Windsor area. Located in Sandwich West Township, the building is expected to be ready for occupancy in 1962.

Sites have been acquired in the Niagara Peninsula and in the City of Ottawa for expansion of Teachers' College facilities in these areas.

NEW CERTIFICATION PLAN

A new plan of certification was announced in December, establishing four levels for the Elementary-School Teachers' Certificate: Standard 1, obtained by students graduating from Teachers' College after entering with the minimum admission requirements; Standards 2 and 3, obtained through progress in university credits or through attendance at Departmental summer courses; and Standard 4 requiring a B.A. or equivalent university degree. It is hoped that this plan will provide an incentive to elementary-school teachers to proceed in greater numbers to a university degree as well as to further professional education.

COMMONWEALTH AID

During 1961, four members of the Teacher Education Branch were granted leave of absence to undertake service, through the External Aid Office of the Government of Canada, in newly developing Commonwealth countries. In this field, staff members are serving in Sarawak, at the Batu Lintang Training College; in Singapore, at the Singapore Teacher Training College; and in the West Indies Federation. In addition, an official of the Teacher Education Branch spent approximately eight weeks in Africa visiting Ghana, Nigeria, and Sierra Leone as a member of a team seeking information regarding ways by which Canada might assist these Commonwealth countries.

Curriculum and Text-Books

CURRICULUM

The Curriculum and Text-books Branch supervises within the Department the work of preparation of new courses of study and the provision of suitable text-books for these courses. Committees chosen from well-qualified classroom teachers, directors and supervisors of special subjects, members of the staffs of the Teachers' Colleges and the Ontario College of Education, and inspectors are appointed to make recommendations about the aims and objectives, contents, and methods for new courses. Other interested individuals, groups, and organizations are also

consulted from time to time. Officials of the Branch participate in curriculum work with local committees of teachers, at conferences, conventions and workshops conducted by teacher organizations, inspectors, and Teachers' College staffs. Representations are welcomed from these bodies as well as from individuals and organizations interested in the work of curriculum development.

A new course in science in the Intermediate Division was introduced in Grades 7, 8 and 9 in September, 1961; the new course for Grade 10 will begin in September, 1962. Also in the science field, the committee working on the development of a new course in physics at the Grade 11 level has completed its work while the committee on biology at the Grade 13 level has made substantial progress. These developments are part of a sequential pattern to revise the whole science programme in the light of rapidly expanding knowledge in this subject.

New courses in guidance for Grades 7 to 13 inclusive and a course in Russian for Grades 9 to 13 have been issued to the schools. An Alcohol Studies Guide prepared by the Alcoholism and Drug Addiction Research Foundation of Ontario at the request of, and in consultation with, the Department of Education was made available to assist teachers of physical and health education and others who, in classes or in study groups, deal with topics in this field. A new teacher's guide to the course in religious education for pupils in Grade 8 in the public schools was distributed during the year.

New detailed courses in history, geography and government for the Intermediate Division and new courses in industrial arts for the Intermediate and Senior divisions have been completed. The work of revising the course in art for the senior Division has been carried on.

A major project undertaken during the year was the adaptation of existing courses and the development of new courses as a consequence of the decision to reorganize the secondary schools. These courses will make possible the provision of a greater variety of opportunity for students of differing interests, aptitudes and abilities. Several curriculum committees were appointed in the various subject fields. A total of 164 secondary school teachers are serving on these committees. As the work has progressed, other groups of teachers throughout the Province have been consulted. Suggestions, comments and criticisms received from them have been referred to the curriculum committees for consideration. Consultations have also been held with representatives of business, industry, trade unions and some professions. In some instances committees visited communities in Canada and the United States to see, at first hand, programmes that were recommended as the most up-to-date in particular fields.

TEXT-BOOKS

During the past year, a number of new text-books in science for the Intermediate Division were approved for use. These books by Canadian authors and publishers were developed especially for the new courses in Ontario. Additional series of texts were made available in spelling, composition, primary reading, history and geography. Single books in several other subject fields were also approved.

Circular 14 is the publication of the Department that lists the text-books approved or recommended for use in the schools. This publication is issued early in the calendar year. During the year, as additional texts become available and are approved or recommended for listing, supplements to Circular 14 are issued to the schools. In this way the latest and best books can be made available to our students. Great care is exercised in assessing the suitability of new text-books. Copies are sent from the Department to readers who are outstanding teachers. These readers carry out a detailed examination of the books and offer comments, suggestions and criticisms. When these are received in the Department, they are

reviewed by officials before any recommendation is made. Only texts that meet the highest standards as judged by criteria dealing with content, method, accuracy, format, illustration, caption, printing and binding are approved for use. The policy of multiple listing of texts in a subject field has resulted in competition among publishers to produce the best books possible at the lowest cost.

Professional Development Branch

SERVICES

The particular responsibility of the Professional Development Branch is the promotion of the in-service growth of teachers in the elementary schools. An Assistant Superintendent of Secondary Education gives special attention to this work in the secondary schools.

Officials of the Branch assist elementary school inspectors and groups of teachers in organizing various types of programmes designed to increase professional competence. During the past year increasingly large numbers of teachers in many centres across the Province attended workshops, conferences, seminars and demonstrations. Officials of the Branch participated in many of these programmes as speakers, resource persons, and consultants.

For the fourth consecutive year experienced "helping teachers" were employed to work, in co-operation with elementary inspectors, in assisting teachers with limited training and experience. In 1961 there were 27 teachers who provided assistance in 25 inspectorates for approximately 175 teachers.

SUMMER COURSES

Department of Education Summer Courses continue to play an important role in in-service education. The policy of decentralization which makes it possible to provide courses in many areas of the Province is proving most popular. During 1961 there were 13 different courses offered in 16 Ontario communities ranging from Windsor to Kenora. A total enrolment of 7,079 teachers indicates an ever growing interest among teachers in improving their professional competence and status. The Professional Development Branch, in co-operation with the Registrar and other superintendents of the Department, supervises all summer schools.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1961, there were 358 student teachers at the University of Ottawa Teachers' College, 50 of whom were enrolled in the course leading to the Interim Elementary-School Teachers' Certificate, and 308 in the course leading to the Interim Second Class Certificate.

In 1929-30, only 25 per cent of French-speaking teachers held First or Second Class Certificates; in 1960-61 over 95 per cent of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1961, the total enrolment of French-speaking pupils taking French courses in secondary schools was 5,120. There were, in addition, 5,822 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1961, there were 86,147 French-speaking pupils enrolled in separate and public schools, an increase of 2,162 over the preceding year. The number of French-speaking pupils in kindergarten classes was 6,521.

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1946. The number of pupils taking these courses in November, 1961, was 20, and all grades were represented.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1961, was 1,462,230, an increase of 73,067 over the preceding year. The elementary schools showed an increase of 36,655 and the secondary schools an increase of 36,402. For the school year 1960-61 the attendance efficiency of all elementary schools was 94.4 per cent; of secondary schools 95.2 per cent.

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required, unless excused under the provisions of The Schools Administration Act, 1954, to attend school from that date until the last school day in June in the calendar year in which they attain the age of sixteen years.

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

EMPLOYMENT

The number of employment certificates issued during the year 1960 was 2,868, a decrease of 252 from 1959. The number of home permits issued during the year 1960 was 1,492, a decrease of 397 over 1959. It is an encouraging fact that the number of employment certificates and home permits continues to decrease.

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the natural science and science courses.

SECONDARY SCHOOLS

Instruction in agriculture is provided in secondary schools in two ways. Courses in agricultural science may be given as an alternative to general science, physics and chemistry in Grades 9 to 12. These courses were given in 110 schools in Grades 9 to 12 and in 32 schools in Grades 9 and 10 only. There were 40 schools in which only the agricultural science option is taught. The other provision for agricultural instruction is the creation of a department of agriculture in a school

and the organization of a two-year course for Grades 9 and 10, which includes agriculture and shop work for boys and home economics for girls. In January 1961, there were 105 schools with departments of agriculture.

The total number of pupils taking agricultural science for the school year 1960-61 was 59,208 and taking agriculture 11,278. There were 12,889 pupils carrying on home projects in connection with their school work, including 5,260 enrolled in 4 H Clubs in 24 activities.

PRACTICAL WORK

In addition to the regular classroom and laboratory work, most schools provided gardening or require home projects. In addition, many schools were equipped with poultry houses, colonies of bees, and other special facilities for practical work. Agricultural buildings and tractors have been provided by 91 of the schools with departments of agriculture. At fifteen schools, greenhouses have been provided.

ROYAL WINTER FAIR

The Royal Agricultural Winter Fair in Toronto was attended by 4,267 pupils from 32 schools as guests of the Management.

Art

RESEARCH

Saturday morning classes were conducted for children with outstanding ability in art at the Ontario College of Art from October, 1960 to March, 1961. A staff of four artist-teachers was employed to teach 100 gifted pupils. At the close of the session, a large and attractive display of the children's work was arranged in the College. Many teachers visited the display to study the results of these special classes.

SUPERVISION AND TRAINING

The programme of art in elementary and secondary schools and in teachers' colleges has given attention. Meetings of elementary school teachers were held in several inspectorates and workshops were conducted in a number of rural areas. The summer courses in art were again attended by large numbers of enthusiastic teachers. Courses were offered in two centres—Toronto and London. In Toronto, courses leading to all art certificates were held, while in London those leading only to the Elementary certificate were made available.

ART PUBLICATIONS

The five booklets on art, prepared by the Art Branch and distributed to teachers through inspectors of schools, continued to be in great demand.

Audio-Visual Education

SCHOOL BROADCASTS

A programme of 156 school broadcasts was prepared under the supervision of the Departmental Radio Committee for use in the elementary and secondary schools of the Province. Through the courtesy of the British Broadcasting System, 20 broadcasts were made available to Ontario schools. In addition, 5 broadcasts from the Australian Broadcasting Commission proved quite useful. All programmes were presented in cooperation with the Canadian Broadcasting Corporation over a network of 24 radio stations.

Radio manuals outlining the series of broadcasts were distributed to all Ontario teachers in September. In the elementary schools an intensive evaluation survey to test the effectiveness of the programmes was begun. By this policy, through the Superintendent of Elementary Education, certain selected areas of the province are asked each year to participate in a survey with the expectation that in the next five or six years most of the schools in the province will be covered. An evaluation was also conducted in the schools of the secondary system.

Ontario elementary schools have 16,399 classrooms served by central sound systems, and in addition schools reported the ownership of 10,919 radios. In the secondary schools, 8,941 classrooms are served by central sound systems, and 528 classrooms report radios available.

FILM SERVICE

Films distributed from the Audio-Visual Education Branch directly to schools were shown on 108,044 occasions to a total of 4,988,308 students during the school year. In addition, 19 Boards of Education are operating their own film service, with a total of 5,253 film prints on extended loan from the Audio-Visual Education Branch. There were 69 additional film titles added this year, and there are now 1,460 titles, with 10,873 prints of sound films available for use in Ontario schools.

Ontario schools have reported the ownership of 2,546 sound projectors, 3,660 filmstrip projectors and 1,157 opaque projectors.

SUMMER COURSES

Summer courses in Audio-Visual Methods at Toronto, Peterborough and St. Catharines offered teachers an opportunity to improve their professional training in audio-visual techniques. A total of 395 teachers enrolled in these courses, an increase of 38 per cent over the previous year.

Auxiliary Education Services

SERVICES

The Auxiliary Education Services Division is a resource centre to assist local school officials in modifying or supplementing the regular programme in order to better provide for individual differences—physical, mental and social. In addition, the Division deals with the educational needs of those individuals for whom no other educational agency is responsible.

The major emphasis of the work of the staff of the Auxiliary Education Services Division during 1961 was in (1) organizing and conducting surveys in areas contemplating the establishment of services for exceptional children, (2) working with teachers and inspectors for the purpose of planning suitable school programmes for children with learning difficulties, and (3) working with teachers and inspectors regarding programmes for special classes. The staff also participated in numerous in-service training programmes for teachers on special education topics not only as they affect special classes but also atypical pupils in regular grades.

The Division maintains a library of magnatype books to assist pupils with limited vision as well as a large professional library for the use of teachers and inspectors. Such books are lent free of charge.

TEACHER EDUCATION

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education are offered to all teachers and principals. A total of 715 enrolled in these courses held at Toronto and Windsor, an increase of 206 over the previous year. Eight different options were offered covering various phases of the education of exceptional children. It is encouraging to note that the number of secondary school teachers enrolled in the option "Auxiliary Education in Secondary Schools" is increasing each year. Sixty-three teachers completed the attendance requirement for the Specialist Certificate.

The Department of Education conducted a five-week course for teachers of trainable retarded children in schools affiliated with the Ontario Association for Retarded Children. Forty-six teachers attended the course.

TRAINABLE RETARDED CHILDREN

In 1961, school attendance grants were paid to 71 local associations for retarded children, affiliated with the Ontario Association for Retarded Children. Most of these classes were visited by a Special Services Inspector for the purpose of assisting the teachers in organizing and conducting classroom programmes.

Community Programmes

SERVICES

The Community Programmes Branch assists communities to provide better opportunities for people to use their leisure time enjoyably and constructively through recreation and adult education. This assistance to communities involves: grants, advice and guidance, leadership training, conferences and seminars, and surveys. The Branch works in co-operation with municipal recreation committees; school boards; national, provincial and local organizations; university extension departments; and other departments in the Provincial Government. Communication with the municipalities is maintained through a field staff which has offices in Fort William, North Bay, Toronto, Hanover, London, Hamilton, Oakville, Belleville, and Ottawa. Working out of the central office, there are also special advisers in the fields of arts and crafts, drama, music, puppetry, recreation for older people, rural programmes, social recreation, recreation buildings and areas, and citizenship. In order to make resource materials available for community use, the Branch produces a number of publications and operates a loan service in drama, music, films, slides, and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in that field. The three-year in-service training course, which was initiated by the Branch in 1951, is now administered by the Extension Branch, University of Western Ontario. In 1961, there were 150 people who enrolled for such training. In the last eight years, 174 Interim Certificates and 74 Permanent Certificates have been issued to qualified persons.

RECREATION DEVELOPMENT

Ontario Regulations 57/57 provide Provincial grants to the municipal governments that pass the necessary by-law to appoint a municipal recreation authority and conduct or assist local recreation programmes. There has been a significant development in this field during the past fifteen years. Between 1954 and 1961 the number of municipalities involved increased from 224 to 311; during the same period, grants paid per year rose from \$287,306 to \$562,654.

LEADERSHIP TRAINING

The training of leaders is a basic need in the fields of recreation and adult education. The Community Programmes Branch is continuously involved in the activity, and conducts courses either co-operatively with a community or directly, as a Branch project, if the training serves a number of communities jointly.

CITIZENSHIP EDUCATION

On January 1, 1961, the citizenship service was transferred to the Department of The Provincial Secretary and Citizenship. The Community Programmes Branch continued to supply texts and resource materials made available through the Federal Citizenship Branch until March 31st, 1961. Representatives in North Bay, Fort William, Ottawa, Belleville, Hanover and London have continued to assist with the organization of classes.

RURAL PROGRAMME

In co-operation with the Ontario Department of Agriculture and local committees, the Community Programmes Branch conducts rural community night schools. In 1961, the number of these night schools was 14 with a total enrolment of 1,071. The Community Programmes Branch also co-operates with the Department of Agriculture and the Provincial Leadership Forum Committee to conduct an Annual Leadership Institute which serves delegates from all areas of Ontario.

Correspondence Courses

GENERAL INFORMATION

Through the Correspondence Courses Division, the Department of Education provides correspondence courses for Ontario persons who are unable to attend school. During the year 1961, over 12,000 persons made application for enrolment. Of the students admitted, over 95 per cent were 16 years of age or over. The remainder enrolled for reasons of absence from Ontario, distance from school, or illness. It is interesting to note that nearly 700 students are temporarily absent from Ontario, and are presently residing in over 50 countries around the world. The courses which are offered are academic subjects for Grades 1 to 13 (including bilingual courses for French-speaking pupils in Grades 1 to 8) and nine trade courses in the fields of automotive mechanics, carpentry, machine shop practice, and radio theory and practice. All academic courses are free to residents of Ontario wherever they may be living. Trade courses are available to residents of all provinces at \$10 a course.

All correspondence courses are prepared by teachers in the schools. All secondary school lessons are marked by teachers in the schools, and each year an increasing number of elementary school lessons are being sent out to teachers to be marked.

Enrolment of children in the elementary school grades continued to decrease, and enrolment of adults in both elementary and secondary school grades continued to increase. The enrolment in Grade 13 was much greater than the enrolment in in any other grade.

ENROLMENT

The maximum active enrolment for the school year 1960-61 was 6,096 on April 28, 1961. This was the highest figure ever reached. The average weekly enrolment for the school year was 4,547 made up of 300 elementary-school children (English-speaking), 29 elementary-school children (bilingual), 288 adults taking elementary-school courses, 3,814 persons enrolled in academic courses at the secondary level, and 116 students in trade courses.

A total of 7,860 new students were admitted during the year 1961. In addition to those admitted in the regular way, 26 persons in sanatoria received correspondence courses, 19 persons in penitentiaries, reformatories and training schools, and one student in a school car. Ten teachers teaching Grades 9 and 10 in elementary and continuation schools received courses as teaching aids. The Division also provided courses for 17 students attending 12 secondary schools of Ontario, who, while making full use of the programme the schools provided, found it impossible to complete Grade 11, 12, or 13 within the school year because the subjects they required were not taught.

CERTIFICATES AND STANDINGS

Students prepared through correspondence courses wrote 958 Grade 13 Departmental examination papers in June, 1961, and obtained standing in 710. During the year, 295 statements of Grade 12 standing, 769 certificates covering subjects in other secondary grades, and 62 trades courses certificates were issued.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, Secondary School Honour Graduation Diplomas, Advanced Technical Evening Class Certificates, and Provincial Institute of Technology Diplomas issued, will be found in Table 64.

The study of marking procedures which has been in progress for the past four years is beginning to show worthwhile results. Although in 1961 the number of Grade 13 examination answer papers to be marked was 23,000 greater than in 1960, the results were released five days earlier.

Some progress was made through the examinations to meet the criticism that in the present Grade 13 year there is too much emphasis upon the memorization of factual knowledge and too little upon the development of intellectual power and the understanding of the subjects. One of the papers included a rather searching question which was marked subjectively by a small group of highly-competent examiners without the use of a detailed marking scheme. Extension of this plan should give greater encouragement to teachers to prepare candidates for the type of question which will test understanding of the topic and powers of organization, rather than mere ability to reproduce memorized material.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank, have been in operation for fourteen years. In the year 1960-61, the sum of \$19,930.70 was paid to 797 students, of whom 520 reside east of Sault Ste. Marie and 277 reside west of that city.

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1960-61, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to Mr. John McInnes, East York Board of Education; Mr. Walter B. Mann, Lisgar Collegiate Institute, Ottawa; Miss Sarka Spinkova, Leaside High School; and Miss Vera F. Vanderlip, Earl Haig Collegiate Institute, North York.

TEACHER EXCHANGE

During the school year 1960-61 a total of eighteen Ontario teachers were on exchange—sixteen in the United Kingdom, one in British Columbia, and one in the United States.

Guidance Services

CURRENT DEVELOPMENTS

The year 1961 saw several important developments in the Guidance Services Division. A new publication, *Curriculum 1:3 and S.5, Guidance in the Intermediate and Senior Divisions*, was prepared and distributed to the schools. A Consultative Committee in Guidance, geographically representative of the Province, was appointed to provide greater liaison between the Department and local areas. For the first time, a summer course in guidance was provided at a centre outside Toronto, namely at Kingston; and in Toronto the regular summer courses in guidance had a record enrolment. The combined total of 346 teachers enrolled represents a 32 per cent increase over the highest attendance previously recorded. Twenty-two teachers completed specialist standing during the school year 1960-61. A series of five school radio broadcasts on guidance topics, produced by the Guidance Services Division in co-operation with the Audio-Visual Branch and the Canadian Broadcasting Corporation, was well-received by the schools and by parents.

The introduction of the new secondary school programme with its implications for guidance personnel has resulted in many conferences across the Province. Departmental Guidance Services representatives have met with guidance counsellors, inspectors, principals and teachers at both elementary and secondary school levels, to clarify the role of the guidance worker in the new plan. Provision of adequate counsellor training continues to receive attention.

Members of the Guidance Services Division co-operated in a survey of the graduates of nursing courses in an attempt to discover if the type of pre-nursing education they had received had been satisfactory; in the production of aids for the interpretation of results of Grade 12; in plans for improved guidance quarters and facilities in the schools; and with the Ontario College of Education in the summer course training of secondary school teachers.

REGULAR ACTIVITIES

During the past year, the normal activities of the Division, namely inspection, leadership in programme-planning, in-service training, and promotion of guidance services were continued. In co-operation with local inspectors, twelve in-service courses in testing or counselling were conducted at various centres throughout the Province.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 78 per cent of the elementary schools of the Province. Music was also taught in 289 secondary schools. There were 310 school choirs, 167 bands, and 99 orchestras in these schools, and 22 operas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 150 centres with more than 60,000 pupils participating.

TEACHER TRAINING

There were 1,147 certificated teachers and supervisors engaged in the elementary schools and 443 in the secondary schools of the Province during the school year 1960-61. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 825 teachers at the Summer Courses in Music in 1961.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1961, Grade 12 standing was attained by 3,059 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 299 pupils who tried the Departmental Grade 13 examinations and by 1,162 pupils who presented equivalent certificates.

RADIO

Twenty-five music broadcasts were presented in four series during January, February, March and April. "Primary School Music", five 15-minute programmes for Grades 1 to 3; "Junior School Music", five 15-minute programmes for Grades 4 to 6; "Music for Young Folk", ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings", five 15-minute programmes for Grades 5 to 8, were broadcast, with commentary prepared and given in each case by the Director of Music of the Department of Education.

Ontario School for the Blind

ENROLMENT

In June, 1961, there were 224 students enrolled at the Ontario School for the Blind in Brantford. Of these, 23 withdrew during the summer vacation, 9 by graduation and the others to seek employment or to attend a school for sighted pupils. In September, 35 new students were admitted to the school—19 to Grade 1 and the others distributed from Grade 2 to Grade 11—creating an enrolment of 236, the largest in the history of the school—137 boys and 99 girls. Of these, 177 were from Ontario, 9 from Alberta, 25 from Saskatchewan, 18 from Manitoba, 4 from Quebec, 2 from the North West Territories and 1 from Peru.

PROGRAMME

The basic programme of the school is academic following the Ontario Courses of Study for Grades 1 to 12 inclusive and culminating in a four-option Secondary School Graduation Diploma. To this are added practical courses in home economics and all types of handicrafts for girls, manual training and piano tuning for boys, and typing for both.

A broad physical education programme, conducted indoors and out, provides varied activities to meet the individual needs and abilities of the students. Full opportunity is given every student to develop musical talent through class work in choral, orchestra, theory and music appreciation and through individual lessons in voice or instrument. Extra-curricular recreational, educational and social activities include Girl Guides, Boy Scouts, Wolf Cubs, Brownies, senior clubs for boys and girls and the operation of two small canteens. Students attend a wide variety of cultural activities available in the community, including symphony concerts and dramatic presentations.

The year will be remembered for the production of the Gilbert and Sullivan operetta "The Pirates of Penzance" in June and the play "Why The Chimes Rang" at Christmas.

GRADUATES

Nine students completed the work of Grade 12 in June, 1961, and, of these, three are continuing their education at college or university, two are training to be home teachers of the blind, two are taking vocational training leading to employment, one is in Grade 13 in his home town and one is apprenticed to a piano technician. During the present school year fifteen recent graduates are pursuing further education at the university level.

NEW WING ON MAIN BUILDING

To take care of an increasing enrolment and to extend the educational facilities at the school, a New Wing to the Main Building was completed and officially opened on May 11, 1961. This addition includes an auditorium which will accommodate 300 persons, 4 music studios, 16 music practice rooms, and a complete piano tuning department.

Ontario School for the Deaf

ENROLMENT

The enrolment at the Ontario School for the Deaf, Belleville, on October 13, 1961, was 543 (292 boys and 251 girls) an increase of 31 over that of 1960. The age of admission was raised from five years four months, to five years seven months. Pupils were distributed as follows: Junior School, 268; Intermediate School, 129; Senior School, 146. All pupils are deaf or severely hard-of-hearing and come from Ontario.

PROGRAMME

The school provides a programme to meet the academic, vocational, and social needs of children from five years to twenty years of age. Vocabulary and language development are emphasized in the junior grades. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. A well-rounded programme of physical education, inter-school athletics, and cultural, social and recreational activities is carried on throughout the school year. Approximately 225 boys and girls participated in some form of club activity. Swimming facilities at Albert College were used on a more extensive basis and skating at the Belleville Arena has been a regular weekly feature for the majority of children from early fall to late spring.

Academic classes have again increased in number. There are 29 classes in the Junior School, 13 in the Intermediate School and 15 in the Senior School. Upon graduation, the majority of students go directly into employment, but those with the ability and desire to do so are encouraged to go on to further academic studies. Three students entered Gallaudet College for the Deaf in Washington, D.C., in September of 1961.

During the year under review, modern equipment was added to the print shop, the upholstering shop, the welding shop, the sewing and commercial classrooms, and the school laundry.

The first course in the history of the school in driver instruction was begun as an extra-curricular class for senior students in the fall term of 1961. An in-service training course for all houseparents was begun in September and included lectures, demonstrations and observation classes in the areas of anatomy, audiology, child psychology and the teaching of reading, speech and lipreading. The teacher education course for beginning teachers was again conducted during the full school year.

The facilities of the audiological clinic and the field trips of the audiological services adviser have been extended to reach children in most parts of the province.

IMPROVEMENTS AND CHANGES

During the summer of 1961 the operation of the school farm was discontinued. The registered herd of Ayrshire cattle was sold by auction on August 2. Part of the farm land was sold to the Belleville Public School Board and part to the Bay of Quinte District High School Board. The southern portion of the farm land is being retained and development of this area as a park land was begun by the farm staff. Tree planting in areas near the Junior School buildings was continued by the students in horticultural classes.

During the year the main heating plant of the school was converted from coal operation to natural gas. This has resulted in increased heating efficiency and in the elimination of the soot nuisance to the newly built-up housing areas around the school.

Physical and Health Education

SERVICES

Increased emphasis upon physical education at the elementary school level is reflected in greater attendance at summer school courses, additional in-service training courses, appointment of supervisors by school boards and the building of physical activity rooms.

The Physical and Health Education Branch conducted a refresher course for Heads of Physical Education Departments at the secondary school level in 1961.

A pilot study has been launched to examine the measurable elements of physical fitness of a group of 1,500 students from Grades 7, 9 and 11. This study is being carried out under the guidance of the Department of Educational Research, Ontario College of Education, and with the co-operation of Metropolitan Toronto school boards and boards of health.

An interdepartmental committee, composed of officials from the Departments of Education and Health, has studied the contents of Health courses from Grades 1 to 12, and has presented a report to both Departments.

An Alcohol Studies Guide has been prepared and issued to schools for the use of teachers teaching Health.

ONTARIO ATHLETIC LEADERSHIP CAMP

There were 569 young men and women from Grade 11, selected on a basis of high academic standing, ability to get along with people, and a desire to accept the responsibility of leadership, who attended the Ontario Athletic Leadership Camp at Longford Mills for a two-week period in 1961. Many graduates of previous courses are now teaching and providing leadership in our school system. A new water system and additional playing fields for the Camp were completed this year.

ONTARIO CAMP LEADERSHIP CENTRE

A total of 263 counsellors-in-training attended the three-week course at the Ontario Camp Leadership Centre in Haliburton in 1961. These counsellors-in-training from Grades 11 and 12 were selected for their leadership qualities and high academic standing, after being recommended by the directors of non-profit camps. Experience has shown that a high percentage of these counsellors later enter the teaching profession. The 3,300 acre site with its lakes, sandy shores, rocky outcroppings and nearby bogs, provides opportunities for unlimited experiences in studying natural science, camp craft, water safety, conservation, use of map and compass, out-tripping and survival living. A new building has been erected for crafts. Improvements have been made in roads and fire breaks during 1961.

GRANTS TO NON-PROFIT CAMPS

Camp grants are paid to non-profit camps in accordance with the regulations. Over 500 applications for grants have been received. Final payment of these grants in 1961 amounted to approximately \$53,000.

Provincial Library Service

SERVICES

The staff of the Provincial Library Service assists the counties, districts, and municipalities of Ontario in the provision of libraries. A library of 80,000 volumes is located at headquarters, from which books are lent to schools and libraries. Nearly 100,000 books were sent out on request in 1961, including the Teachers' Reference service. A quarterly magazine, *The Ontario Library Review*, is produced, workshops and conferences are sponsored, and inquiries regarding library legislation and other questions are answered.

DEVELOPMENT

Several new public libraries were organized in 1961. Libraries now serve all cities, most towns, and many smaller communities in the Province. They are assisted financially with Provincial grants, distributed from a legislative vote which amounted to \$2,000,000 in 1961. Grants apply to both operating costs and capital costs for new or renovated library buildings. Library co-operatives, serving seventeen counties and regions, extended their services and put three new bookmobiles into operation.

LIBRARY USE

Circulation of books increased to more than 30,000,000 in 1961. Total circulation, including reference books, films and other materials, reached 31,961,582. Many public libraries expanded their work in the field of adult education, sponsoring art exhibits and discussion groups.

LIBRARIANSHIP

In 1961, there were 77 students who obtained the degree of Bachelor of Library Science at the Library School of the University of Toronto. It is encouraging that the enrolment in courses leading to a degree in Library Science reached its highest point in the fall of 1961. These librarians will take positions in public, university, school and special libraries in Ontario and elsewhere.

In Memoriam

C. X. CHARRON, B.A., who retired on August 31, 1960, after having served as Inspector of Public and Separate Schools, died on July 31, 1961. A tribute to his service is on record in the 1960 Report of the Minister.

FALCONIO CHOQUETTE, B.A., Separate School Inspector for R.C.S.S., Ottawa Division No. 3, died in his sixty-first year on January 19, 1961. He was born in the City of Ottawa. He received his elementary education at Brébeuf school and his secondary education at l'Academie-de-Lasalle. He was granted the degree of Bachelor of Arts by the University of Ottawa. After graduating

from the Ontario College of Education, he taught for a period of three years at the Glebe Collegiate Institute, Ottawa. He was appointed an Elementary School Inspector in 1928, a post which he held until his premature death. Mr. Choquette was a capable orator in both the English and French languages, a meticulous administrator, and a dynamic leader in the classroom.

WILLIAM F. HISCOCKS, B.A., who retired from the position of Public School Inspector for the Inspectorate of Leeds No. 1 on August 31, 1960, died suddenly on January 26, 1961. A tribute to his service was given in the 1960 Report of the Minister.

CHARLES HOWITT, B.A., B.Paed., who retired from the position of Public School Inspector for York No. 8 in 1954, died in Toronto on June 6, 1961. A tribute to his service is recorded in the 1954 Report of the Minister.

ROBERT A. HUTCHISON, B.A., who retired in 1943 from the position of Public School Inspector for Ontario South, died on October 8, 1961. A tribute to his service is recorded in the 1943 Report of the Minister.

S. A. TRUSCOTT, M.A., who retired in 1945, after having served as Inspector of Public Schools in Frontenac County from December, 1912, died in Kingston on August 6, 1961. A tribute to his service was given in the 1945 Report of the Minister.

GORDON YOUNG, B.A., Inspector of Public Schools for Leeds No. 2, died while on duty on February 3, 1961. He was born in Brant Township in Bruce County and attended elementary school at Eden Grove. After attendance at Walkerton High School, he obtained his teaching certificate by attendance during the opening year of the Stratford Normal School, 1908-09. He taught elementary school in Millarton, Dunkeld and Woodstock and was granted the Bachelor of Arts Degree by Queen's University through extramural and summer study. He subsequently taught in Norwich Continuation School and in 1921 became Principal of Norwich High School. Appointed Inspector of Public Schools in Grenville in 1932, he transferred to Middlesex County in 1940, and to the Inspectorate of Leeds No. 2 in 1949.

Mr. Young had a friendly manner and boundless energy which he devoted to his inspectoral duties and to community work. He was interested in the in-service educational programmes of teachers in rural areas and gave particular leadership to this programme among the Elizabethtown Township School Area teachers.

KENNETH L. YOUNG, B.A., who was Director of Community Programmes Branch, died in his fifty-sixth year at London on February 15, 1961. Born in Alberta, he received his elementary and secondary education in that province. He graduated from the University of California with a Bachelor of Arts Degree and later pursued post-graduate studies at the University of Washington. He was a teacher, a principal and later, the supervisor of school and adult education activities. In the Second World War, he was a member of the first group of R.C.A.F. education officers serving in Great Britain and was in charge of the R.C.A.F. education services for Northern England with the rank of Squadron Leader.

In 1946, Mr. Young was appointed Assistant Director of the Ontario Adult Education Board and in 1947 when its executive staff joined the Department of Education, he became a representative for Northern Ontario. In 1950 he was appointed Assistant Director of the Community Programmes Branch and in November, 1954, he became Director.

Mr. Young was widely known as an adult educator and as a leader in municipal recreation organizations. He has left guide-posts that will stand. "Comments on Municipal Recreation" and the more recent set of bulletins for the guidance of Municipal Recreation Committees are examples of the excellent material which he prepared.

Retirements On Superannuation

Cecil F. Cannon

CECIL F. CANNON, B.A., B.Paed., LL.D., retired on April 1, 1961, from the position of Chief Director.

Dr. Cannon began his teaching career in a rural school in Leeds County, and within a few years became principal of Newcastle Public School and supervising principal of the Picton Public Schools. After serving as supervising principal of Oshawa Public Schools, he was appointed Inspector of Public Schools for the City of Oshawa in 1929, later being assigned to the inspectorates of North Hastings, West Durham, and York No. 6. He served one year on loan as Master in the Toronto Teachers' College, and in 1942 was appointed Assistant Chief Inspector of Public and Separate Schools for the Province. In 1944 Dr. Cannon was appointed Assistant Superintendent of Elementary Education, in 1945 he became Superintendent of Elementary Education for the Province of Ontario, and in 1951 he was appointed Deputy Minister of Education. In November, 1956, he assumed the duties of Chief Director of Education for the Province.

Dr. Cannon was born in Portland, Leeds County, and received his elementary education in the two-roomed public school of that village. He attended Athens High School, Smith's Falls Collegiate, and the Ottawa Normal School. He is a graduate in Arts from Queen's University, where he was awarded a scholarship in his final year, and later received the degree of Bachelor of Pedagogy from the University of Toronto. In 1953 he received the degree of LL.D. from Queen's University. In the many responsible positions held by Dr. Cannon, his fairness, good judgment, and faith in those with whom he worked, combined to make him an effective administrator with whom it was a pleasure to be associated.

HARRY W. BROWN, B.A., who retired on August 31, 1961, from the position of Inspector of Elementary Schools, received his elementary and continuation school education at Belmont in Middlesex County, completed his secondary school education at the London Collegiate Institute, and obtained the Bachelor of Arts degree from Queen's University. Upon graduation from the former Faculty of Education in Toronto, he began his teaching career in Thornbury Continuation School. For a number of years thereafter he was principal of the Public and Continuation Schools in Rainy River, and of the Wellington Consolidated School in Prince Edward County.

Appointed Inspector of Public Schools in the Timmins area in 1940, Mr. Brown was transferred to Welland No. 5 and the City of Niagara Falls in 1946. On a number of occasions he served as a lecturer on summer school staffs in the Provinces of New Brunswick, Quebec, and Ontario. In addition to the faithful and efficient conduct of his duties and responsibilities as Inspector of Public Schools, Mr. Brown gave leadership and encouragement to his colleagues, not only in the Niagara Peninsula but also throughout the Province.

LEO W. COPP, B.A., B.Paed., retired as Principal of the Peterborough Teachers' College on August 31, 1961. He was born in Mariposa Township in Victoria County, and received his secondary school education in Peterborough. Following graduation from Peterborough Normal School he served overseas during the First World War and, upon his return to Canada, taught in the rural and urban schools of the Peterborough area. In 1926, Mr. Copp was appointed Public School Inspector for the Districts of Cochrane and Temiskaming and, in 1930, was appointed Public School Inspector in Peterborough County. In 1942 he joined the staff of the Peterborough Teachers' College and, in 1946, was appointed Principal of that College where he served with distinction until his retirement.

During his career, Mr. Copp maintained a keen interest in church, military and civic affairs and brought to his duties a wide understanding of teachers and schools and their role in community life. His good judgment and fine personal qualities enabled him to make a significant contribution to teacher education in Ontario.

CHERRY GRANT, B.A., Librarian at the Ottawa Teachers' College, retired on August 31, 1961. Born in Hazledean, Ontario, Miss Grant attended Carleton Place High School. Following graduation from the Ottawa Normal School, she taught in the Westboro Public Schools for two years. A graduate of the Department of Education Library School, Miss Grant served first on the staff of the Toronto Public Library, later as Assistant Librarian of the Toronto Normal School, and, in 1926, was appointed librarian of the Ottawa Normal School. She brought to her duties as a librarian a thorough knowledge of her work and a contagious interest in fine books and good reading. Her personal graciousness will long be remembered by the many teachers and students to whom she gave kindly and valuable assistance.

JOHN F. GUENTHER, B.A., retired as a Secondary School Inspector on June 30, 1961. He was born in Hamilton, Ontario, and received his elementary and secondary education in that city. He interrupted his education to serve as a member of the 67th University Battery, C.E.F., in England, France and Germany. After graduating from Victoria College in Toronto in 1920, and attending the Ontario College of Education he taught in Kitchener-Waterloo Collegiate Institute, and in Central Collegiate Institute and Westdale Secondary School in Hamilton. In 1944, he was appointed principal of Central Collegiate Institute in Hamilton. In 1947 he was appointed a Secondary School Inspector and served in that capacity until his retirement. During his years of service in education, he proved himself to be an able teacher of broad and thorough scholarship, a capable principal and a successful, highly regarded inspector.

WILLIAM MACMILLAN, B.A., B.Paed., retired as Public School Inspector for the Inspectorate of Perth No. 1 on August 31, 1961. Mr. MacMillan, who was born near Lindsay in Victoria County, received his elementary education in a rural school in his home county and his secondary education in the Lindsay High School. He graduated from the Peterborough Normal School and taught for several years in rural schools in Victoria County prior to overseas service with the Canadian Expeditionary Forces from 1916 to 1919. Mr. MacMillan attended Queen's University and following graduation was appointed to the staff of the Lindsay Collegiate Institute first as a teacher and later as principal. He received the Bachelor of Pedagogy degree from the University of Toronto.

Appointed Public School Inspector with residence at Sudbury in 1938 he was transferred to the Inspectorate of Perth No. 1 with residence in Stratford in 1951, where he remained until he retired. His quiet and friendly manner enabled him to give encouragement and help to many teachers and pupils in the schools under his supervision.

THOMAS H. W. MARTIN, B.A., D.Paed., retired on December 31, 1961 from the position of Superintendent of Public Schools for the Board of Education of the City of Toronto. Dr. Martin was born in Hagersville where he attended public and high school. He attended Weston Collegiate Institute and North Bay Model School. After teaching for a year and a half in rural schools near North Bay and Thessalon, he enlisted in the 7th Battalion C.R.T. and served in France from 1917 until 1919. Upon his return, he taught school in Toronto and received the Bachelor of Arts degree from the University of Toronto in 1927, and the Doctor of Pedagogy degree in 1932. Dr. Martin served the Toronto Board of Education for over forty years, first as a teacher in Orde St. Model School and later as headmaster at Queen Alexandra Public School, and principal of Strathcona and Brock Public Schools. In 1948 he was appointed Inspector of Public Schools, and in 1956, Inspector of Special Education. From 1958 until 1961 he was Superintendent of Public Schools.

Dr. Martin has been a part-time instructor at the College of Education for 15 years. He has written and edited text-books in English and Social Studies. He has served as a member of the Children's Aid Society of Metropolitan Toronto, a member of the Senate of the University of Toronto, and a Governor of the Council of Exceptional Children.

Dr. Martin's dynamic personality and his willingness to assess new ideas in education, have characterized his service with the Toronto Board of Education. His colleagues, and the teachers and pupils to whom he gave leadership, will remember kindly his contribution to education.

HAROLD M. MATTHEWS retired from the position as Registrar of Trade Schools on December 31, 1961. He was born in Toronto and was educated in Toronto elementary and secondary schools. He was a member of the Canadian Forces in the First World War. After returning from service overseas, he attended the Toronto Normal School. His teaching experience included one year in an elementary school in Saskatchewan, two years in a secondary school in Manitoba, and several years in elementary schools in Waterloo and Toronto. In 1945 he was appointed a Secondary School Inspector of Industrial Arts. From January 1, 1958 until his retirement he held the position of Registrar of Trade Schools. During his years of service in education he has made a significant contribution as a teacher, inspector and administrator.

THOMAS ROY McEWEN, B.A., B.Paed., retired as Public School Inspector for Durham No. 1 on August 31, 1961. Mr. McEwen was born at Foxboro in Hastings County where he received his elementary school education. He attended Albert College in Belleville where he obtained his secondary school education. He received the Bachelor of Arts degree from Queen's University and the Bachelor

of Pedagogy degree from the University of Toronto. He taught first in a four-roomed school at Bolton and then in the Port Arthur Public Schools before serving as principal of Prospect Public School in Port Arthur for fifteen years.

Mr. McEwen was appointed Public School Inspector in Frontenac North in 1934 and later was transferred to Durham County where he was in charge of an inspectorate that included the City of Oshawa for seventeen years. Mr. McEwen's devotion to education, his sound judgment and quiet sense of humour will be remembered in the areas in which he served.

AYLMER M. MOON, B.A.Sc., P.Eng., retired as Assistant Superintendent of Secondary Education on August 31, 1961. Born in Bruce County, he received his elementary and secondary education in Wiarton. He graduated from the University of Toronto with a degree in electrical engineering. In 1932 he was appointed Inspector of Vocational Education after serving as Director of the Industrial Department of the Peterborough Collegiate and Vocational School. From 1946-1952 he was Assistant Director of Vocational Education and in 1952 was appointed Assistant Superintendent in charge of Vocational Courses. Mr. Moon, a member of the Society of Professional Engineers, was for ten years, Provincial Director in charge of vocational training under the Federal-Provincial Agreement. During World War II, he was in charge of the Emergency Training Programme. Prior to his retirement he was active in the plan for the re-training of unemployed persons under the Federal Technical and Vocational Training Assistance Act. During his long period of service, Mr. Moon made a significant and lasting contribution to the development of vocational education in Ontario.

ROBERT A. RIDDELL, B.A., B.Paed., LL.D., Director of Education for Hamilton, retired on September 1, 1961. He was born in Oxford County and attended Woodstock Collegiate Institute, London Normal School, McMaster University and the University of Toronto. He taught in a rural school in his home county and served as principal of several village schools there. In 1928 he joined the staff of the Hamilton Public Schools and was appointed to the position of principal in 1929. He was appointed Inspector in 1938, and Superintendent of Public Schools in 1944. He was Director of Education from 1953 until his retirement. In 1957 he received the honorary degree of Doctor of Laws from McMaster University in recognition of his distinguished service as professional leader of one of the Province's largest educational systems.

Dr. Riddell has given freely of his time and has accepted and discharged most capably heavy responsibility in many educational, church and service organizations. His contribution to education in Hamilton and to the Province generally has been outstanding.

WALTER T. ZIEGLER, B.S.A., M.A., retired as a Secondary School Inspector on August 15, 1961. He was born in Tarrytown, New York, and received his elementary and secondary education there. He was a member of the United States Navy in the First World War. He received his B.S.A. at the Ontario Agricultural College and his M.A. at Columbia University. He taught in Niagara-on-the-Lake, Burlington and Stamford secondary schools. In 1939 he was appointed principal of Cornwall Collegiate-Vocational Institute and remained in that position until his appointment as principal of Kitchener Collegiate Institute and Vocational School in 1944. In 1952 he was appointed a Secondary School Inspector and served in that capacity until his retirement. During his career he showed himself to be an enterprising, successful teacher, principal and inspector whose qualities of leadership enabled him to give notable service to secondary education.

SERVICE RECORD—PERSONNEL EMPLOYED BY PROVINCE OF ONTARIO

A. DIED IN SERVICE

- F. Choquette.....Elementary School Inspector, Elementary Education Branch, January 19, 1961.
- G. Young.....Elementary School Inspector, Elementary Education Branch, February 3, 1961.
- K. L. Young.....Director, Community Programmes Branch, February 15, 1961.

B. RETIREMENTS ON SUPERANNUATION

- H. W. Brown.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Welland No. 5, August 31, 1961.
- C. F. Cannon.....Chief Director of Education, April 1, 1961.
- L. W. Copp.....Principal, Peterborough Teachers' College, Teacher Education Branch, August 31, 1961.
- Miss C. Grant.....Librarian, Ottawa Teachers' College, Teacher Education Branch, August 31, 1961.
- J. F. Guenther.....Secondary School Inspector, Secondary Education Branch, June 30, 1961.
- W. MacMillan.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Perth No. 1, August 31, 1961.

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare; these reports give the number of families transferring in and out of each province. The data is compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.45 children per family—has been used as a multiplier.

*Students in this course are completing the final year of the in-Service Training Course and have attended two Pre-Teachers'-College Summer Courses and have taught two years on Temporary certificates in the public or separate schools of Ontario.

NOTE: In addition to the students referred to in the above table, 47 students (20 men and 27 women) at the Ontario College of Education are candidates for the Interim Elementary-School Teachers' Certificate valid in the elementary Schools.

The one-year Deferred Elementary School Teachers' Course formerly offered at the University of Ottawa was discontinued in 1960.

Report of The Minister of Education 1962

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I present the Report of the Department of Education for the year 1962.

For over nine months of the year the Department of Education was administered by the Honourable John P. Robarts. My association with the Department as Minister began on October 25, 1962.

In September, 1962, the enrolment in elementary and secondary schools reached an all-time high of 1,528,607. In that month the enrolment in elementary schools was 1,197,029 or 222 per cent of the enrolment in 1946; the enrolment in secondary schools was 331,578 or 268 per cent of the enrolment in 1946. While the unprecedented increase in elementary school enrolment was expected because of the sharp increase in the number of live births since 1946, the increase in secondary school enrolment can be attributed to several factors: the increased number of births since 1946 is now bringing more pupils into the junior grades of the secondary school; a much higher percentage of young people are enrolling in secondary schools; and students are, on the average, staying longer in school.

The supply of teachers for the public schools was adequate in 1962, but some scarcity of staff continued in the separate schools where expansion in enrolment has been particularly high. The supply of teachers for the secondary schools was maintained through the operation of regular courses at the Ontario College of Education and through special summer sessions. A total of 1,501 student teachers enrolled at centres in Kingston, London, and Toronto for the Initial Eight-week Summer Course, an increase of 279 over the total of the previous year. It is also gratifying that there has been an excellent response to the demand for additional teachers for technical courses, occupational training courses and commercial courses caused by the reorganized programme for secondary schools and the expansion of vocational education under the Federal-Provincial Technical and Vocational Training Agreement.

In the post-war period, an effort has been made to help local authorities through legislative grants to maintain and improve educational standards in the face of rising costs. In 1946 these payments were approximately \$29,000,000; in 1962 they reached \$201,000,000.

The development of rural central schools is one of the most significant trends in post-war elementary education in Ontario. Aided by the improvement of highways, by public acceptance of transportation of school pupils, and by the formation of larger units of administration, many township area school boards have planned and constructed rural central schools, thus improving the educational opportunities for the pupils affected. At present, 661 rural central schools

Report of The Minister of Education 1962

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I present the Report of the Department of Education for the year 1962.

For over nine months of the year the Department of Education was administered by the Honourable John P. Robarts. My association with the Department as Minister began on October 25, 1962.

In September, 1962, the enrolment in elementary and secondary schools reached an all-time high of 1,528,607. In that month the enrolment in elementary schools was 1,197,029 or 222 per cent of the enrolment in 1946; the enrolment in secondary schools was 331,578 or 268 per cent of the enrolment in 1946. While the unprecedented increase in elementary school enrolment was expected because of the sharp increase in the number of live births since 1946, the increase in secondary school enrolment can be attributed to several factors: the increased number of births since 1946 is now bringing more pupils into the junior grades of the secondary school; a much higher percentage of young people are enrolling in secondary schools; and students are, on the average, staying longer in school.

The supply of teachers for the public schools was adequate in 1962, but some scarcity of staff continued in the separate schools where expansion in enrolment has been particularly high. The supply of teachers for the secondary schools was maintained through the operation of regular courses at the Ontario College of Education and through special summer sessions. A total of 1,501 student teachers enrolled at centres in Kingston, London, and Toronto for the Initial Eight-week Summer Course, an increase of 279 over the total of the previous year. It is also gratifying that there has been an excellent response to the demand for additional teachers for technical courses, occupational training courses and commercial courses caused by the reorganized programme for secondary schools and the expansion of vocational education under the Federal-Provincial Technical and Vocational Training Agreement.

In the post-war period, an effort has been made to help local authorities through legislative grants to maintain and improve educational standards in the face of rising costs. In 1946 these payments were approximately \$29,000,000; in 1962 they reached \$201,000,000.

The development of rural central schools is one of the most significant trends in post-war elementary education in Ontario. Aided by the improvement of highways, by public acceptance of transportation of school pupils, and by the formation of larger units of administration, many township area school boards have planned and constructed rural central schools, thus improving the educational opportunities for the pupils affected. At present, 661 rural central schools

are in operation, of which 43 have been completed since September, 1961. It is of interest to note that fewer than six of every one hundred elementary school pupils in the Province now attend one-room rural schools.

The reorganized secondary school programmes which were announced on August 28, 1961, were available for use in Grade 9 on September 4, 1962. Although their introduction, wholly or in part, in the school year 1962-63 has remained optional with school boards, the reorganized programmes have been widely adopted throughout the Province. The provision of three main branches—Arts and Science; Business and Commerce; and Science, Technology, and Trades—with five-year and four-year programmes of study in each, may be expected to result in more pupils remaining longer in secondary schools to take advantage of educational opportunities designed to meet their interests, abilities, and needs. Occupational courses, one or two years in length, are also available for students whose educational requirements are best met by a relatively brief and practical training in the secondary school.

During the year, courses of study for the new secondary school programmes were developed. A number of new courses were prepared and many of the existing courses were revised and enriched to meet present needs and future trends and demands. In addition, new courses in science in the Senior Division are being developed in the light of research and rapidly expanding knowledge in the various scientific subjects.

The curriculum for elementary schools also received attention in the year under review, and planning was begun for new courses of study for kindergarten and Grades 1 to 6 inclusive. It is the intention that groups and organizations interested in education will have opportunity to make their views known in this connection, and that the people working actively on the revision will include classroom teachers, inspectors, and Teachers' College staff members.

The Grade 13 examination programme continues to receive intensive study, and changes are being made with a view to coping with the increasing number of papers written. In 1946, the number of candidates who wrote Grade 13 papers was 14,718, and the number of papers written was 86,650; in 1962 the number of candidates was 33,414, and the number of papers written was 189,595. Large increases are expected in the years ahead because of rapidly expanding enrolment in secondary schools.

The expansion of accommodation for technical and vocational education continued under the Federal-Provincial Agreement in the year under review. By December, some 217 building projects for this purpose were being processed, capable of providing 109,063 pupil places.

During the fiscal year 1962-63, the Department of Education made available in grants to the universities of Ontario an amount of \$23,295,000 for operating costs and \$22,150,000 for capital costs; a total of \$45,445,000. This total represented an increase of 25 per cent over the amount paid in the previous year; 1962-63 is the third successive fiscal year in which the increase in grants to universities was 25 per cent over the year immediately preceding.

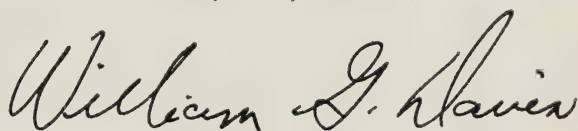

During 1961-62, the Advisory Committee on University Affairs undertook detailed studies of the need for additional facilities for higher education in Ontario. These studies indicated that existing institutions would have to accelerate their programmes for expansion and that support would have to be given to the establishment and development of new institutions in certain parts of the Province. A recommendation that approval be given for the establishment of Trent College at Peterborough has been accepted, and this institution is developing its plans to begin operation as soon as possible. Laurentian University at Sudbury has begun development of its new 500-acre campus. The Lakehead College of

Arts, Science and Technology has been given degree-granting rights so that the class which entered this institution in September, 1962, will be able to complete the requirements for a degree at the College.

The Advisory Committee on University Affairs has also consulted with the Committee of Presidents of the universities on a number of other matters relating to university education. One of these is the provision of teaching staff for the greatly increased enrolments expected in the next decade. Positive steps have been taken by the Government to help increase the number of graduate students proceeding to a teaching career in the universities.

The reports and statistics in the pages that follow emphasize the fact that our school system is far from static. It is passing through a period of tremendous expansion at a time when new educational demands are being made upon it through the onset of automation, the increasing role of science in our daily lives, and the influence that these movements are having upon our economy and the labour market. The Department of Education is endeavouring to meet these demands through reorganized courses, expanded facilities, and a steady programme of teacher recruitment. In these efforts, the co-operation of school boards, teachers, officials and parents has been both essential and encouraging.

Respectfully submitted,

A handwritten signature in black ink, reading "William G. Davis". The signature is written in a cursive style with a large, prominent "W" and "D".

Minister of Education.

Elementary Education

ENROLMENT

The number of pupils in the elementary schools of Ontario in September, 1962, was 1,197,029, an increase of 33,976 over the elementary school enrolment of September, 1961. On September 28, 1962, there were 880,198 pupils enrolled in public schools and 316,831 enrolled in Roman Catholic Separate Schools.

BUILDING PROGRAMME

During 1962, elementary school boards increased their accommodation by 58,500 pupil places in 395 new buildings and additions to existing buildings, at an approximate cost of \$50,704,000. From 1945 to 1962 inclusive, 804,435 pupils places have been provided in the elementary school system, at an estimated cost of \$565,150,000.

SUPERVISION OF ELEMENTARY SCHOOLS

The trend towards the establishment of municipal inspectorates in urban and large suburban municipalities continues. During the past year the number of inspectors employed by local school boards has increased from 124 to 135 and the number of municipal inspectorates from 38 to 41. The number of provincially appointed inspectors also increased, from 188 to 196. Of this latter total 121 are Public School inspectors and 75 are inspectors of Roman Catholic Separate Schools.

Effective August 1, 1962, 16 new elementary school inspectors were appointed. Of these 9 were Separate School inspectors and 7 were Public School inspectors. In October the newly-appointed inspectors attended the regular annual in-service programme which is designed to assist them in the supervisory and administrative duties which they are undertaking. The opportunity was afforded them to confer with the Chief Director, the Deputy Ministers and various branch heads, as well as with other officials with whom they will be working. Problems which had arisen during the first two months of their service were discussed and many aspects of their supervisory and administrative responsibilities received detailed attention. As a continuing extension of this programme, the assistant superintendents normally arrange to visit not only the new inspectors but all inspectors in the field, as time permits. In this way liaison between the Department and the local school boards, through the inspectors, is effectively maintained.

CENTRAL SCHOOLS

The development of rural central schools is one of the most significant trends in post-war elementary education in this Province. As a result of the improvement of highways, public acceptance of transportation of school pupils, and the formation of larger units of administration, many school boards have acceded to the wishes of rural Ontario for improved educational accommodation and have planned and constructed rural central schools.

At present, 661 rural central schools are in operation, of which 43 have been completed since September, 1961. It is significant that fewer than six pupils of every one hundred elementary school pupils now attend one-room rural schools.

The advantages of these central schools have become increasingly obvious. Pupils receive instruction from teachers who generally have higher professional qualifications. They receive instruction of a more specialized nature as a result of the reduction in the number of grades per teacher and of the ease with which the special ability of a teacher in art, music, physical education, science, home economics and industrial arts, may be shared with other classes in addition to his or her own. Pupils are challenged by the larger size of their own peer group to

aspire towards higher standards of application and attainment. In general, central schools have brought an improved quality of education to rural Ontario which has satisfied the expectations of parents, school boards and teachers alike.

TRANSPORTATION

Transportation for 95,576 pupils attending elementary schools and for 7,047 pupils attending secondary schools was provided by elementary school boards during the school year 1961-62. The trend towards increased provision of transportation by boards of trustees which was apparent in 1960-61 continues with an increase of eleven per cent in the number transported. Such expanded service would appear to be attributable to the centralization of rural schools. For the third consecutive year more elementary school pupils than secondary school pupils were transported in the Province.

Of all pupils transported by elementary school boards, 5 per cent were transported a distance under two miles, 49 per cent were transported two to four miles, 23 per cent were transported four to six miles, 14 per cent were transported six to nine miles, 3 per cent were transported nine to twelve miles and 6 per cent were transported a distance of more than twelve miles.

Transportation was provided to enable 8,446 elementary school pupils to receive instruction in Industrial Arts and Home Economics.

ELEMENTARY SCHOOL LIBRARY SERVICES

The importance of a complete school library service in the elementary schools has received increasing recognition in recent years. During the summer of 1962, the first course for elementary school teacher-librarians was given in Toronto, with eighty teachers in attendance. In order to encourage the development of this basic service, the Department has announced that approval for purposes of legislative grant will be given on request, in the case of any elementary school of twelve or more regular classrooms, for an expenditure to provide a central library of at least classroom size.

With an increasingly larger supply of trained personnel and with well-planned accommodation, it is confidently expected that the growth of elementary school library services will continue to be an encouraging and valuable development in rural central, semi-urban and urban schools.

ORAL FRENCH

In the Province, French is being taught as a second language to English-speaking pupils in schools operated by 94 boards. In most cases, the programme is initiated in grade 5 and is extended to the end of grade 8. It has been found that children achieve more success in the second language, if the teacher can speak French fluently with good accent and pronunciation, if not too many new words are introduced in each lesson, if translation is avoided, and if frequent repetition is provided for in the programme.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1962, was 331,578, an increase of 32,401 over the total in September, 1961. The enrolments by courses were as follows:

General	230,516	Home Economics	334
Commercial	50,512	Art	648
Commercial Special	2,962	Special Industrial	1,472
Technical	37,165	Special Courses	7,969*
TOTAL 331,578 (*Includes 4,905 in Occupational Programmes)			

The total number of full-time teachers (including principals) in September, 1962, was 14,923, an increase of 2,073 over the number in the preceding year. With an allowance for part-time teachers, the pupil-teacher ratio in September, 1962, was 22.0, compared with 23.0 in September, 1961, and 22.6 in 1960.

TRANSPORTATION

During the school year 1961-62, secondary school boards furnished transportation for 70,293 pupils. These pupils were transported over 1,907 routes at a cost of \$37,615 per day.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with operators to furnish transportation for more than one year but not more than five years.

THE TECHNICAL AND VOCATIONAL TRAINING AGREEMENT

The response by Ontario Secondary School Boards to the terms of the Federal-Provincial Technical and Vocational Training Agreement has been highly encouraging. Under this agreement, the boards can provide vocational accommodation for the teaching of vocational courses, that is, Commercial Art, Commercial Subjects, Vocational Home Economics and Technical Subjects in their schools.

By December 13, 1962, there were being processed 217 building projects which will provide 109,063 pupil places. These projects include both new buildings and additions to existing schools. Eighty-eight boards which had previously offered the Commercial Course are expanding these facilities and adding facilities for offering the Technical Course. Thus, in many parts of Ontario, the plan opens new educational opportunities for young people who will participate in the reorganized programmes of study for the secondary schools.

SECONDARY SCHOOL BUILDING PROGRAMME

Fourteen new secondary school buildings were completed in 1962 and additions were made to 91 existing school buildings at a total cost of approximately \$82,114,000.

REORGANIZED SECONDARY SCHOOL PROGRAMMES

The reorganized secondary school programmes which were announced on August 28, 1961, were introduced in Grade 9, on September 4, 1962. In preparation for this event the following steps were taken: careful development of the details of organization; necessary changes in Grade 9 curriculum; and wide distribution of information to teachers, school principals, inspectors and local school officials, school board members, parents, and Grade 8 pupils. Curriculum revision for Grades 10, 11, and 12, which was also carried on during the same year, was completed in some subjects and well advanced in others. All courses, including the revised Grade 9 courses, are subject to further revision as may be found desirable. For the new four-year programme, several courses of particular interest which have not heretofore been offered in the secondary schools are being planned.

Although their adoption, wholly or in part, in the school year 1962-63 has remained optional with school boards, in consideration of local differences in pupil enrolment, staff qualifications for teaching certain courses, and specialized accommodation and equipment, the reorganized programmes already have been widely introduced throughout the Province. The provision in each of three main branches—Arts and Science; Business and Commerce; and Science, Technology, and Trades—of five-year programmes leading to higher education, and

four-year programmes providing a good general education and practical preparation for immediate employment, together with, where practicable and advisable, special two-year programmes and one or two-year diversified courses of occupational training, may be expected to retain more pupils longer in secondary school and to result in their better preparation for the duties of citizenship and the particular vocations upon which they will enter. These improved opportunities for developing the potential abilities of the secondary school pupils of the Province should have substantial results in the production not only of abler individuals but of more useful citizens.

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1961-62, financial assistance in the amount of \$3,302,409.85 was provided for 9,542 students in scholarships, bursaries, and loans. This represents an increase of 1,417 over the number who were assisted in the previous year. The Federal Government contributed \$100,000 of the aid to university students and \$21,787.50 to students attending Institutes of Technology. A number of students received both a bursary and a loan.

The sum of \$1,435,949.85 in free gifts was awarded in the form of scholarships and bursaries. Loans, repayable on very generous terms beginning in the year after a student's graduation or withdrawal, were issued to 4,312 students in the amount of \$1,866,460.

The King George VI and Queen Elizabeth Scholarship was established in June, 1962, to commemorate the visit to Ontario of Her Majesty Queen Elizabeth, The Queen Mother. This Scholarship provides \$500 a year to a maximum of four years for the Ontario Scholar who ranks highest in proficiency in his year.

For the fiscal year 1962-63 the sum of \$1,700,000 has been set aside for scholarships and bursaries, while the "drawing account" for student-aid loans is \$3,000,000. With such assistance available from the Provincial Government, no student in Ontario who earns a reasonable amount through employment during his vacation periods needs forego college or technological training for lack of means.

RESIDENTIAL AND FARM SCHOOL TAX ASSISTANCE GRANTS ACT

The Residential and Farm School Tax Assistance Grants Act was passed in 1961 to relieve owners of residential and farm property of a portion of the amount of school taxes which they would be required to pay. Under this legislation during 1962, each secondary school board was paid a legislative grant of \$5.00 multiplied by the 1961 average daily attendance of its resident pupils.

DEPARTMENTAL TESTING PROGRAMME IN GRADES 11 AND 12

In the school year 1961-62, aptitude tests of an objective type were administered to all pupils in Grade 12. Achievement tests of the same type were taken by pupils of Grade 11 in the General Course in the subjects of Geometry and Physics. Further progress towards a uniform standard for purposes of the Secondary School Graduation Diploma has been noted as a result.

Departmental Tests in Grade 12 will be continued in conjunction with the Carnegie Study of the Department of Educational Research in 1962-63. These will include an aptitude test for all pupils and achievement tests for General Course pupils in English and in either French or Advanced French. In Chemistry, a uniform Departmental Examination will be written by pupils in Grade 12 of the General Course in the first week of June. It will be marked by the teachers in the schools.

PRIVATE TRADE SCHOOLS

During 1962, the total number of private trade schools registered under The Trade Schools Regulation Act was 150. Of these, three schools ceased operating during the year, three others failed to renew their license, and three registered for the first time. The schools offered training in a total of forty categories.

The co-operation of the Better Business Bureau and of certain newspaper advertising managers has been of great assistance in maintaining standards in this educational field.

TECHNICAL INSTITUTES

The Technical Institutes, which are organized under the Department of Education Act and are generally operated under Advisory Committees approved by the Department, offer advanced technological education between the levels provided in secondary schools and the universities.

Five Institutes of Technology—Ryerson Institute of Technology, Toronto; Hamilton Institute of Technology; Eastern Ontario Institute of Technology, Ottawa; Western Ontario Institute of Technology, Windsor; and the Northern Ontario Institute of Technology at Kirkland Lake—provide a three-year programme leading to employment in business and industrial occupations. They also offer evening classes for employed persons who wish to improve their education. At all of these Institutes there is a common first-year course for each of the three divisions: Engineering, Arts, and Business. In 1961, the H. B. Beal Technical and Commercial High School in London offered successfully the common first-year Institute course. Secondary schools at Toronto and Sault Ste. Marie also did so in 1962.

The Provincial Institute of Mining at Haileybury offers a two-year Diploma course in technological subjects related to mining. The graduates of this Institute are regarded highly by the mining industry throughout Northern Ontario.

On September 30, 1962, there were 3,905 full-time students enrolled in the day courses in the six institutes mentioned, and on November 1, 1962, there were 4,791 students enrolled in the evening courses.

The Northern Ontario Institute of Technology at Kirkland Lake began operation in September, 1962. The Institute at the present time is located in temporary buildings. It is hoped that the new buildings will be ready for occupancy during January, 1963.

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

Although the Lakehead College of Arts, Science and Technology, Port Arthur, now operates under a Board of Governors, it continues to receive financial assistance from the Ontario Department of Education. This Institution offers two-year university courses in arts and science and conducts two-year technological courses in forestry, mining, and industrial chemistry.

PROVINCIAL INSTITUTES OF TRADES

There are now three Institutes of Trades in operation in Toronto, namely, the Provincial Institute of Trades, the Provincial Institute of Automotive and Allied Trades, and the Provincial Institute of Trades and Occupations. These Institutes provide courses for apprentices in trades designated under the Apprenticeship Act of the Department of Labour of the Province of Ontario, and in the non-designated trades under the Federal-Provincial Training Programme 5. The total enrolments on the last day of September, 1962, were as follows: Apprentices,

643; Under Schedule Five, 799; Evening Courses, 2,732. Three new Institutes are now in the planning stage. They will be located in Sault Ste. Marie, Ottawa, and London. It is hoped that they will be in operation by September, 1964.

ADVANCED TECHNICAL EVENING CLASSES

To provide further technical training for graduates of secondary schools who are working in industry, the programme known as the Advanced Technical Evening Classes has been in operation since 1952. Completion of specified courses under this programme leads to certificates issued by the Minister of Education, and the enrolment in these courses is growing very satisfactorily. For the high school year of 1962-63, the enrolment reported is 3,823 student-subjects in classes conducted in 19 centres.

Teacher Education

ENROLMENT

In September, 1962, a total of 5,514 students enrolled in Ontario's eleven Teachers' Colleges—a decrease of 544 from the previous year. Of these, 3,171 enrolled in one-year courses, 1,087 in the First Year of the Two-year Course, 802 in the Second Year of the Two-year Course, and 454 in the Completing Year of the In-service Course. Continuing a trend first noticed in 1957, the proportion of men increased from 20 per cent in that year to approximately 29 per cent in 1962.

At the Ontario College of Education, a total of 847 students enrolled in courses leading to High School Assistant's and Vocational Certificates, a decrease of 63 from the previous year, and 90 students enrolled in the Library Course, an increase of 2 over the previous year. The proportion of men enrolled in the various courses decreased from 69 per cent in 1961 to 62 per cent in 1962.

TEACHER SUPPLY ELEMENTARY

The supply of teachers for the public schools was adequate in 1962 and for the second consecutive year a slight surplus was apparent. Some scarcity of staff continued in the separate schools where expansion in enrolment has been more rapid. Of approximately 4,700 Teachers' College graduates in the year under review, 3,385 were in one-year courses, 781 were in the Second Year of the Two-year course, and 494 were in the Completing Year of the In-service Course. The emergency In-service Course, begun in 1952, consisting of two six-week summer courses each followed by a year of successful teaching, and then by a Completing Year at a Teachers' College, was discontinued in 1960, and the last group to be trained as teachers under this scheme entered the Teachers' Colleges in 1962. Similarly, summer courses at the University of Ottawa Teachers' College leading, after three summer sessions, to a Second Class Certificate were discontinued in 1960, and the last group to be trained as teachers under this emergency scheme graduated from the third summer session in 1962.

As the supply of graduates from Grade 13 continues to increase, it is planned to reduce gradually the number of students entering the teaching profession with Grade 12 standing and to discontinue the emergency Two-year Course within the next few years.

Letters of Standing, granted to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth totalled 485 in the school year 1961-62, a decrease of 62 from the previous year. Letters of

Permission issued to boards of trustees on behalf of uncertificated teachers in the elementary schools, totalled 500 by November 30 for the school year 1962-63. In addition, 205 Letters of Permission were issued on behalf of certificated teachers who did not hold qualifications for their special work.

SECONDARY

The supply of teachers for the secondary schools was maintained through the operation of regular courses at the Ontario College of Education and through special summer sessions. A total of 1,501 student teachers enrolled at centres in Kingston, London and Toronto for the Initial Eight-week Summer Course—an increase of 279 over the total of the previous year. At the same time, the number of teachers returning for the Seven-week Completing Course rose from 895 in 1961 to 1,139 in 1962—an increase of 244.

The reorganized programme for secondary schools and the expansion of vocational education under the Federal-Provincial Technical and Vocational Training Agreement has created a demand for additional teachers for technical courses, occupational training courses, and commercial courses. More persons applied for summer training in technical shop-work subjects than could be accommodated in the facilities available and 185 persons were qualified by means of summer courses in 1962. In addition, 264 student teachers enrolled in the College of Education regular session for 1962-63. In 1962, a special summer course was established to qualify teachers for the diversified occupational training programme, and approximately 150 skilled tradesmen, industrial arts teachers, and graduates of the Ryerson Institute of Technology were enrolled. A special Vocational Commercial Course was offered for the first time in the summer of 1962 at which approximately 50 students were registered. Among these were certified public accountants, certified general accountants, chartered accountants, graduates of the three-year Secretarial Science Course at an Institute of Technology, graduates of the United Kingdom three-year commercial courses, and university graduates wishing to teach Commercial subjects. All students admitted to this course had passed skill tests and obtained positions with school boards unable to engage legally qualified teachers. In addition, 320 teachers holding High School Assistant's Certificates attended summer courses towards the completion of their commercial Certificate requirements, and about 150 regular summer school students elected Commercial Work as one of the three options required for a High School Assistant's Certificate.

Letters of Standing granted to secondary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth totalled 68 for the school year 1961-62. Letters of Permission, issued to secondary-school boards on behalf of secondary-school teachers not holding basic secondary-school teaching certificates, totalled 1,241 by the end of November, 1962. In addition, 205 Letters of Permission for the teaching of special subjects were granted on behalf of teachers fully qualified to teach general academic subjects.

NEW CONSTRUCTION

In September, 1962, the Windsor Teachers' College began operation in its new building located in Sandwich West Township. A total of 494 students enrolled in the new College. Announcement has been made that a new Teachers' College for the preparation of teachers for elementary schools where French and English are languages of instruction will be established at Sudbury, and that a new Teachers' College will be provided in St. Catharines when justified by increased enrolment in that area.

Announcement has also been made that a College of Education for the preparation of Secondary School Teachers will be established in London, adjacent to the University of Western Ontario. Completion of this College building, to accommodate 600 students, is planned for 1965.

EXTERNAL AID

During 1962, four members of the Teacher Education Branch served in newly developing countries through the External Aid office of the Government of Canada. One member taught in Sarawak, at the Batu Lintang Training College; one served in Singapore, at the Singapore Teacher Training College; one acted as educational advisor to the West Indies Federation; and one went to Ghana to aid in the training of elementary-school teachers.

The Registrar's Branch

SERVICES

The responsibilities of the Registrar's Branch embrace a wide field which includes certification of teachers, the administration of the Grade 13 Departmental examinations, the various Diploma programmes, the preparation of Regulations, the exchange of teachers, the registration of private schools, the admission of applicants to Teachers' Colleges and summer courses, the Departmental correspondence and filing system, the distribution to schools of all Departmental material, and the operation of the Departmental stock room. The regular staff of 70 is enlarged during the summer months by the addition of approximately 350 clerks and typists and by some 975 secondary school and university teachers who are engaged in the marking of the Grade 13 examination papers. In the main, the problem of the Branch is one of increasing volume, both in teachers and in school population.

TEACHER CERTIFICATION

The year 1962 saw the establishment of a new plan for the certification of elementary-school teachers. The plan is designed to encourage teachers to improve their academic and professional qualifications through university study and through successful attendance at Departmental summer courses or equivalent Departmental winter courses. The new plan will replace the Elementary-School Teacher's Certificate and its predecessor, the First-Class Certificate, by providing four levels of certificate. Teachers will be granted Elementary-School Teacher's Certificates, Standard 1, Standard 2, Standard 3, or Standard 4, according to their qualifications. The Interim Elementary-School Teacher's Certificate, Standard 1, is the basic certificate replacing the Interim Elementary-School Teacher's Certificate. The change-over to the new certificate will involve many thousands of teachers.

GRADE 13 DEPARTMENTAL EXAMINATIONS

The Grade 13 examination programme continues to require intensive study and planning in order to keep up with increasing numbers. In 1960, there were 26,638 candidates who wrote 148,485 papers. In 1961, 30,489 wrote 171,250 papers and in 1962, 33,414 wrote 189,595 papers. Another like increase is expected in 1963 and for some years to come. For the examinations of 1963, an earlier release of results is contemplated. It is hoped to bring this about by an earlier time-table, more examiners, commencement of the marking before the end of June and other refinements in examination procedure now under study.

The Branch is working with the Department of Educational Research of the Ontario College of Education and the Educational Testing Service of Princeton, N.J. in an attempt to strengthen our whole testing programme. In October and November, two teams of subject specialists, one in French and the other in Science, visited Princeton to study the methods used there. These teams will report their findings after committee meetings which will take place during the winter months.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank, have been in operation for fifteen years. In the year 1961-62, the sum of \$20,285.49 was paid to 824 students, of whom 564 reside east of Sault Ste. Marie and 260 reside west of that city. Of those receiving assistance, 262 were in the first year, 237 in the second, 205 in the third, 113 in the fourth, 6 in the fifth, and 1 in the sixth.

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1961-62, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to Miss Mary E. Mitchell, Leaside High School, Leaside; Mr. Gordon W. Finlayson, Westacres Public School, South Peel Board of Education; Mr. John S. Macfarlane, St. Andrew's College, Aurora; and Mr. Lorne H. Russwurm, University of Western Ontario, London.

TEACHER EXCHANGE

During the school year 1961-62 a total of twenty-seven Ontario teachers were on exchange—twenty-four in the United Kingdom, one in British Columbia, and two in the United States.

Curriculum and Text-Books

CURRICULUM

The development of curriculum, the preparation of new courses of study and the provision of suitable text-books for these courses are supervised by officials of the Curriculum and Text-Books Branch of the Department. The work in curriculum is carried on with the assistance of committees chosen from qualified and experienced classroom teachers, inspectors, supervisors and consultants of special subjects and members of the staffs of the provincial Teachers' Colleges and the Ontario College of Education. Recommendations relating to the aims and objectives of the educational programme and the content of new courses are made by these committees. Other individuals, groups and organizations concerned with educational development are consulted when the need arises. Officials of the Branch also participate in curriculum work with various committees of teachers in their local areas, and at conferences, conventions, and workshops conducted by educational organizations.

During the year, the courses of study for the new secondary school programmes were completed. A number of new courses have been developed and many of the existing courses have been revised and enriched to meet present needs and future trends and demands. These courses provide for a greater variety of opportunity for students of differing aptitudes, abilities, and interests. They were introduced at the Grade 9 level in September, 1962. The programme at higher grade levels will be introduced one grade at a time in succeeding years.

New courses in science in the Senior Division are being developed in the light of research and rapidly expanding knowledge in the various scientific subjects. The courses emphasize the scientific method of making accurate observations, of experimentation to develop critical thinking, and of drawing conclusions only to the extent that the evidence permits. Work is progressing on the development of new courses in chemistry in Grades 12 and 13 and in physics at Grade 13 level. The course in biology for Grade 13 will be ready for publication in the near

future. The new science programme in the Intermediate Division is now in use in all grades following its introduction in Grade 10 in September, 1962. With the development of the new courses for the upper grades, the work of revision of the science programme from Grade 7 to Grade 13 will be completed.

Plans are progressing for the development of new courses for the Arts and Science Branch of the Four-year Programme in the secondary schools. These courses will extend into new subject areas and thus broaden the opportunities available to the students in this programme.

Committees have been appointed to develop new courses in home economics and in mathematics at the Intermediate and Senior Division levels. Approval has also been given for the development of new health courses for Grades 7 to 12 inclusive.

A major project begun this year is the development of new courses of study for kindergarten and Grades 1 to 6 inclusive. Considerable preliminary planning for these new programmes has been done. Meetings have been held with inspectors, members of Teachers' College staffs and with teacher organizations to secure their advice and suggestions regarding the planning of the new curriculum. Other groups and organizations will also be consulted before decisions are made about the procedures to be used. The revision is seen as a co-operative venture involving representatives of all those who may be affected by any recommendations which may be made.

TEXT-BOOKS

Text-books approved and recommended for use in the schools for the Province are listed in Circular 14, which is issued early in each calendar year. During the year, two or three Supplements to this Circular include the titles of the most recent publications considered suitable for the courses offered. Teachers may select from the list the text-books to be used in a particular school, subject to the approval of the Board in writing. Great care is exercised to assure that the highest standards of style, content, method, format, illustration, caption, cartography, printing, and binding are met before a book is listed. For several years the policy of the Department has been to encourage the development of Canadian authors to assure that the text-books in use in the schools reflect a Canadian viewpoint and that they are based on experience in the society of which the student is a part. The result is that the great majority of the text-books on Circular 14 are the work of Canadian authors, editors, artists, illustrators, and publishers. This policy has also meant that the authors who are usually teachers, have so deepened their own understanding and knowledge that they are more effective in their daily teaching and supervisory duties. Equally important, they help others by participating and sharing their experiences in professional in-service courses, conventions and workshops. In these ways the instructional programme is constantly being improved.

During the year, several new text-books in the various areas of the reorganized secondary schools have been approved or recommended. Additional series of texts were made available in science, history, and geography in the Intermediate Division. Three series of primary readers of Canadian origin which incorporate the latest findings in research and which are based on a well-organized phonics programme are now available. New texts in the language arts with an emphasis on the provision of opportunities for the child to write creatively have been provided. Progress has been made towards the integration of the programmes in spelling, phonics, dictionary skills, composition, reading, and handwriting. A major achievement is the progress towards the completion of the series of histories in French for Grades 5 to 10 for use in the bilingual schools. The texts for Grades 5 to 8 are now in use and have been well received. Plans are proceeding for the provision of other texts for these schools.

Professional Development Branch

SERVICES

It is the responsibility of the Professional Development Branch to promote the concept of in-service growth among elementary school teachers, and to assist in providing the opportunities by which such growth may occur. Assistance has included the preparation of outlines for courses, guidance to inspectors and teachers' groups in organizing and conducting institutes, workshops, conferences, and seminars designed to improve professional competence, and active participation by Branch officials in these in-service sessions as speakers and consultants. During the past year an increasingly large number of teachers attended courses which ranged from all-day meetings conducted on Saturdays through short courses held one night per week for a five- or six-week period to extensive programmes which continued for a major part of the school year.

SUMMER COURSES

The Professional Development Branch has general responsibility for the administration and supervision of Department of Education summer courses. In 1962, a record total of 8,484 teachers enrolled in 16 different types of courses in 36 summer schools located in 15 Ontario communities. A staff of 463 full-time and 167 part-time teachers was employed.

In addition to offering an increased number of established courses, three new courses were instituted to fill particular needs within the educational programme: Elementary School Teacher-Librarians, Heads of Departments (Secondary Schools), and Science (Intermediate Grades 7 and 8).

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1962, there were 304 student teachers at the University of Ottawa Teachers' College, 78 of whom were enrolled in the course leading to the Interim Elementary-School Teacher's Certificate, and 226 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First and Second Class Certificates; in 1962-63, 96.6 per cent of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1962 the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 5,602. There were, in addition, 6,018 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENTS

On September 30, 1962, there were 88,027 French-speaking pupils enrolled in separate and public schools, an increase of 1,880 over the preceding year. The number of French-speaking pupils in kindergarten classes was 7,389.

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1962, was 11. The decrease in enrolment compared to previous years is due to the increasing number of schools being built in the remoter parts of the Province.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1962, was 1,528,607, an increase of 66,377 over the preceding year. The elementary schools showed an increase of 33,976, and the secondary schools an increase of 32,401. For the school year 1961-62 the attendance efficiency of all elementary schools was 94.2 per cent; of secondary schools 95.8 per cent.

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required unless excused under the provisions of The Schools Administration Act to attend school from that date until the last school day in June in the calendar year in which they attain the age of sixteen years.

In 1962, The Schools Administration Act was amended by adding a section which stated that a child of compulsory age who is habitually absent from school without being legally excused is guilty of an offence and on summary conviction is liable to the penalties under the Juvenile Delinquents Act (Canada).

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

EMPLOYMENT

The number of employment certificates issued during the year 1961 was 2,730, a decrease of 138 from 1960. The number of home permits in the year 1961 was 1,522, an increase of 30 over 1960. It is an encouraging fact that, in the last few years, the total number of home permits and employment certificates has been decreasing, even though the total school population has increased tremendously.

Agriculture

(a) ELEMENTARY SCHOOLS

Agricultural topics are included on an optional basis in the Natural Science and Science courses outlined in the Programme of Studies for Grades 1 to 6 and in Curriculum I:1 (e) for Grades 7 and 8.

(b) SECONDARY SCHOOLS

Two different programmes are provided for the teaching of Agriculture in the secondary schools. One features the practical work in the field and the shop with an emphasis on scientific investigation; the other features science. The former programme is organized as a Department of Agriculture and is offered in 104 schools in Ontario. The latter is designated as Agricultural Science in Grades 11 and 12 or Science with Agricultural Topics in Grades 9 and 10. It is offered in 110 schools.

Any secondary school board that operates a Department of Agriculture with the prescribed accommodation and equipment is entitled to a special legislative grant as provided in the Regulations. This amounts to approximately \$4,000 for most of the schools that offer the course.

Many of the schools offering the courses are equipped with agricultural buildings, poultry houses, greenhouses and tractors. Outside activities of some of the students taking the courses include attendance at 4-H Clubs and the Royal Winter Fair in Toronto.

Art

NEW COURSES FOR THE SENIOR DIVISION

A new programme in art for the Senior Division, Grades 11, 12, and 13 has been prepared and forwarded to secondary schools. The new programme replaces Curriculum S.13, 1959, for Grades 11 and 12, and outlines, for the first time in Ontario, a course for Grade 13. The programme was introduced in Grades 11 and 12 in September, 1962, and will be used in Grade 13 in September, 1963. The first examination in Art for Grade 13 students will appear in June, 1964.

SUMMER COURSES

Courses in art for teachers-in-service were offered in Toronto and Ottawa in 1962. The courses in Toronto offered instruction leading to all art certificates, while in Ottawa they led only to the elementary certificate. A record number of over one thousand teachers availed themselves of the courses in the two centres.

SPECIAL CLASSES

At the Ontario College of Art, special classes were held from October to March for one hundred gifted adolescents. The staff consisted of four artist-teachers. As well as producing art of a high standard, the classes also provided insight into the best methods of teaching artistically gifted young people.

SUPERVISION

Supervision was carried out in all types of classrooms in various parts of the Province. Visits were made to teachers' colleges, collegiate institutes and technical schools and to elementary schools. Reports were prepared for school boards of elementary and secondary schools.

Audio-Visual Education

FILM DISTRIBUTION

Direct service from the Audio-Visual Education Branch to the schools continued to expand. Screening reports reveal 137,530 showings of films to a total audience of 6,392,755 students during the school year.

Indirect service is maintained with those city schools where boards of education are operating their own film service. Assistance to four local libraries in Hamilton, Guelph, Oshawa, and Peterborough was extended. There are now 23 city-operated film libraries co-operating with the Audio-Visual Branch. There are 5,833 films on deposit with these libraries.

NEW FILMS

As courses of study are constantly being revised, new films are added. In science there were 357 new titles purchased by the Audio-Visual Branch. Special film circuits were set up to enable secondary school science teachers to become familiar with these films.

SUMMER COURSES AND IN-SERVICE TRAINING

Increased professional competence in classroom utilization of all types of Audio-Visual aids resulted from three summer courses offered at Toronto, London and Lakehead. Wider acceptance of these courses was reflected in a 20 per cent increased enrolment of Ontario teachers.

During the school year, assistance in organizing local in-service training programmes was offered by the Branch. Successful evening sessions were held in Galt, Oshawa, Woodstock, Simcoe, and the Lakeshore areas.

AWARD

The Department of Audio-Visual Instruction of the National Education Association recognized the pioneer leadership of the Ontario Audio-Visual Branch with a Certificate Award for meritorious service to Ontario schools.

SCHOOL RADIO BROADCASTS

Through the co-operation of the Canadian Broadcasting Corporation and its network of private stations, 171 school broadcasts were prepared and presented to the pupils in the elementary and secondary schools of Ontario. In addition, fifty-one National broadcasts, eleven exchange programmes from the British Broadcasting Corporation, and five from the Australian Broadcasting Commission were offered. Evaluations compiled from surveys in selected areas of the Province indicate that radio broadcasts continue to make a worthwhile contribution.

In September, radio manuals outlinging the series of presentations were distributed to all Ontario teachers. Statistics report 17,999 classrooms in the elementary schools served by central sound systems and 11,106 radios owned by schools. In the secondary schools, 10,104 classrooms were served by central sound systems and 563 classrooms report radios available.

EDUCATIONAL TELEVISION

While no provincial television programmes were provided, schools were encouraged to make use of the National programmes wherever possible. Through a grant of money and the use of facilities of Ryerson Institute, the Department of Education assisted the Metropolitan Educational Television Association in further experimentation in providing television programmes in the Metro Toronto area.

Auxiliary Education Services

SERVICES

The Auxiliary Education Services Division is concerned with the promotion of the educational growth of all school-age exceptional children. Exceptional children are those, who, for physical, intellectual, or social reasons, are in need of a modified or special educational programme. Such children include those of limited intellectual ability; those who are superior in learning capacity; those who are socially immature; those with orthopaedic, neurological, physical, or speech disability; and those who are educationally retarded.

During the 1961-62 school year, the staff of the Auxiliary Education Division assisted local school authorities through (1) 339 visits to special classes, special teachers and schools where units are established in order to assist the teachers concerned, (2) work with 183 individual children in order to assist in the diagnosis of the problem and the development of an appropriate educational programme, (3) assistance in the establishment of new services through (a) the organization of twenty surveys, (b) the testing of children, (c) working with the local staff and school board, and (4) participation in eighteen in-service training programmes for teachers on special education topics, not only as they affect special classes but also atypical pupils in regular grades.

The Division maintains a library of approximately 6,500 magnatype books to assist pupils with limited vision, as well as a large professional library for the use of teachers and inspectors. Such books are lent free of charge.

SUMMER COURSE TRAINING

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered to all teachers and principals. A total of 896 enrolled in these courses held at Toronto and Kitchener, an increase of 183 over the previous year. Nine different options were offered covering various phases of the education of exceptional children. Ninety-four teachers completed the summer school attendance requirement for the Specialist Certificate in Auxiliary Education.

TRAINABLE RETARDED CHILDREN

In the first half of this century much progress was made in the provision of educational opportunities in the regular school system for those children whose mental capacity was capable of development beyond that of a child of normal mentality of eight years of age, but who, for physical, intellectual, or social reasons, were in need of a modified or special educational programme. Those children who were not capable of development to this level were accommodated in hospital schools under the Ontario Department of Health or were kept at home under the care of parents. In the nineteen-forties, increasing interest regarding the possibilities of training and education for these children who are commonly referred to as trainable retarded children led to certain experimental work in this area.

With financial assistance from the Department of Education, an experiment was carried out in Kirkland Lake between 1948 and 1953. The findings of this experiment were such that, in 1953, an amendment was made to The Department of Education Act permitting the Minister of Education to make grants towards the cost of education of trainable retarded children enrolled in classes conducted by parents' groups affiliated with the Ontario Association for Retarded Children. Subsequently, Regulations governing such grants were approved by the Lieutenant-Governor in Council, and first applied in June, 1953. Among the conditions which were contained in the Regulations was the permission to pay to local Associations for Retarded Children a grant of \$200 a year for each pupil of average daily attendance who attended a half-day.

Three minor revisions have since been made in the regulations respecting assistance in the cost of education of retarded children. At the end of 1962, these Regulations permitted the payment of \$300 a year for each pupil of average daily attendance on a half-day basis and \$550 a year for each pupil of average daily attendance on a full-day basis. In addition, it has been the policy of the Department of Education to pay 30 per cent of approved capital expenditures by local Associations for Retarded Children for classroom and related accommodation.

Although it is obvious that some other policy might have been used to provide assistance in the cost of the education and training of these retarded children, it is generally recognized that the plan of assistance through local Associations for Retarded Children has brought substantial results. The enrolment has increased far beyond expectations. In September, 1962, seventy-seven Associations for Retarded Children were operating seventy-nine schools with an enrolment of 2,497 pupils. These statistics are revealing, but they do not indicate some of the more intangible benefits which have accrued. In 1953, when the programme of assistance was launched by the Department of Education, mental retardation was a subject of which the average person knew little, and many parents of retarded children struggled with their problem in the privacy of the home, reluctant to make public the nature of their children's handicap. To-day the situation has been altered to the degree that the general public has a clearer understanding of the problem of mental retardation and accepts these handicapped children as members of society. As a result, the parents are now less reluctant to discuss their problems and to enrol their children in a school with a programme particularly designed to meet the needs of these handicapped children.

From the inception of the programme in 1953, to March 31, 1962, the total grants paid to local Associations for Retarded Children have amounted to \$3,686,834.02 of which \$2,843,617.14 was on current operation and \$843,216.88 to 44 local Associations on approved capital expenditures. Although the unprecedented growth of this movement must be attributed to many factors including the dedicated service of many individuals in the Ontario Association for Retarded Children and its affiliates, the growth would not have been possible without the financial support of the Province. In the fiscal year ending March 31, 1961, the total amount of grants was \$878,815.25; in September, 1960, the number of children enrolled for the school year 1960-61 was 1,949. From these figures, it will be noted that in this period the grants amounted to approximately \$450 per pupil. This contrasts sharply with \$281, which represents the total cost of education per pupil in the elementary schools of Ontario.

In the early years of the programme for assistance for trainable retarded children, Dr. Harry E. Amoss, who retired from the position of Superintendent of Teacher Education in 1948, served as an adviser to the Department of Education for this programme without remuneration. His knowledge of the problems of the retarded children coupled with his wise counsel contributed immeasurably to the early success of the programme. In 1957, the first full-time inspector of these classes was added to the staff of the Department; in 1961, a second inspector was appointed. These two inspectors on the staff of the Auxiliary Education Services Division devote full-time to activities connected with the programme; their duties include: visiting these schools for the purpose of assisting the local elementary school inspector and the teachers to develop an effective school programme, preparing materials and lesson aids for the teachers; and conducting summer courses for teachers employed by local Associations for Retarded Children. In 1962, there were forty teachers who attended the summer course.

The past ten years have been marked by significant progress in the education of retarded children in the Province. Study of the current programme will continue, however, with a view to determining further steps which may be taken to increase its effectiveness.

Community Programmes

SERVICES

The Community Programmes Branch assists communities to provide better opportunities for people to use their leisure time enjoyably and constructively through recreation and adult education. This assistance to communities involves grants, advice and guidance, leadership-training, surveys, conferences and seminars. The Branch works in co-operation with municipal recreation committees; school boards; national, provincial, and local organizations; university extension departments; and other departments in the Provincial Government. Communication with the municipalities is maintained through a field staff which has offices in Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa, and Toronto. Working out of the central office, special advisers are available in the fields of art and crafts, drama, music, puppetry, recreation for older people, rural programmes, recreation buildings and areas. In order to make resource materials available for community use, the Branch produces a number of publications and maintains a loan service in drama, music, films, slides, and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in that field. The three-year in-service training course, which was initiated by the Branch in 1951, is now administered by the Extension Department, University of Western Ontario. In 1962, there were 227 people who enrolled for such training. In the last nine years, 201 Interim Certificates and 84 Permanent Certificates have been issued to qualified persons.

RECREATION DEVELOPMENT

Ontario Regulations 92/60 provide Provincial grants to the municipal governments that pass the necessary by-law to appoint a municipal recreation authority and conduct or assist local recreation programmes. There has been a significant development in this field during the past fifteen years. Between 1955 and 1962 the number of municipalities involved increased from 255 to 327; during the same period, grants paid per year rose from \$364,465 to \$592,218.

LEADERSHIP TRAINING

Leadership has long been recognized by educators as the most important element in adult education and in organized leisure-time activities. One of the primary roles of the Community Programmes Branch is the provision of assistance to communities and groups in the development of administrative and activity leaders, night-school teachers, and skill instructors for many types of community groups.

The training that the Branch provides, or sponsors in co-operation with one or more communities, is designed to increase the number of capable leaders in physical, social, creative and intellectual activities. Emphasis is placed on the techniques of instruction and programme planning, the process of learning, the philosophy of recreation and adult education. The Branch is continuing to develop series of courses at community, area (two or more communities), district (several areas), and provincial levels. At each level, leaders are selected and receive progressive training in both skill and leadership techniques.

FITNESS AND AMATEUR SPORT

The Fitness and Amateur Sport programme announced by the Government of Canada will be developed in Ontario through the Department of Education. The officials of the Physical and Health Education Branch and the Community Programmes Branch have been co-operating to provide suitable plans for an active programme. Assistance to provincial and local groups may include training for leaders and coaches, provision of undergraduate scholarships and bursaries, co-ordination and strengthening of programme services, sponsoring or encouraging surveys and promotion, and development of participation in amateur sports.

RURAL PROGRAMME

In co-operation with the Ontario Department of Agriculture and local committees, the Community Programmes Branch conducts rural community night schools. In 1962, the number of these night schools was fourteen with a total enrolment of 1,609. The Community Programmes Branch also co-operates with the Department of Agriculture and the Provincial Leadership Forum Committee to conduct an Annual Leadership Institute which serves delegates from all areas of Ontario.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Branch provides Correspondence Courses for Ontario persons who are unable to attend school. During the first eleven months of 1962, over 12,000 persons made application for enrolment; in the two months, September and October, over 5,000 persons applied. Of the students admitted during 1961 more than 95% were 16 years of age or over. The remainder enrolled because of absence from Ontario, distance from school, or illness. It is interesting to note that over 500 students are scattered outside Ontario and in over 50 countries around the world. The courses which are offered are academic subjects for Grades 1 to 13 (the courses at the elementary school level include courses in English for English-speaking children, bilingual courses for French-speaking children and courses for adults) and ten trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice. All academic courses are free to residents of Ontario wherever they may be living. Trades Courses are available to residents of all provinces at \$10 a course.

ENROLMENT

Enrolment of children in the elementary grades continues to decrease, while enrolment of adults in both elementary and secondary grades continues to increase, with enrolment in Grade 13 being much greater than the enrolment in any other grade.

The maximum active enrolment for the school year was 7,229 on April 27, 1962. This was the highest figure yet reached. Since the number of students enrolled in Correspondence Courses at any time is constantly changing, the average weekly enrolment over a period of time should be considered. For the school year 1961-62 the average weekly enrolment (total weekly active enrolments divided by the number of weeks) was 5,428, made up of 242 English elementary, 19 bilingual elementary, 348 elementary adult, 4,708 secondary academic and 111 trades.

A total of 9,702 new students was admitted during the year 1962. The number was made up of 241 elementary academic enrolments under the age of sixteen, 651 elementary adult enrolments, 8,612 secondary academic and 298 trades. In addition to those admitted in the regular way, 27 persons in sanatoria received correspondence courses; 13 persons in penitentiaries, reformatories and training schools; and 1 student in a school car. The number of lessons marked during the 1961-62 school year was 143,541.

CERTIFICATES AND STANDING

In June, 1962, students prepared through correspondence courses wrote 1,189 Grade 13 Departmental Examination papers and were successful in 819. During the year 333 statements of Grade 12 standing, 962 certificates covering subjects in other secondary grades, and 74 trades courses certificates were issued. Elementary school courses were completed by 143 adults and 170 elementary school children were promoted.

Guidance Services

EXPANSION

The importance of, and public demand for, educational and vocational guidance for Ontario students has resulted in an upsurge of guidance activity in the schools and in an intensified and extended programme within the Guidance Services Division of this Department.

COUNSELLOR TRAINING

In the summer of 1962, the enrolment in Departmental courses in Guidance in Toronto went to an all-time high of 487; at an additional summer course in Sudbury, 103 teachers registered. The combined total of these courses represented a 68 per cent increase over the previous high enrolment of 350. In co-operation with elementary school inspectors and with secondary school personnel, thirty-four in-service training courses in various aspects of guidance were conducted at centres across the Province. The Guidance Services Division co-operated with the Secondary Education Branch and the Ontario College of Education in their programmes of teacher education and development.

EDUCATIONAL INFORMATION

Interpretation of the reorganized secondary school programmes to parents and teachers, by means of study pamphlets, conferences, addresses, and a series of three radio broadcasts produced in co-operation with the Audio-Visual Branch, was a feature of the Division's work in 1962. Counsellor training and supervision, encouragement of school personnel to improve their guidance services, and effective use of community resources for guidance, continued to be among its prime concerns.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 76 per cent of the elementary schools of the Province. Music was also taught in 313 secondary schools. There were 284 school choirs, 180 bands and 99 orchestras in these schools, and 19 operas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 150 centres with more than 60,000 pupils participating.

TEACHER TRAINING

There were 1,223 certificated music teachers and supervisors engaged in the elementary schools and 424 in the secondary schools of the Province during the school year 1961-62. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 764 teachers at the summer courses in music in 1962.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1962, Grade 12 standing was attained by 3,069 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 370 pupils who tried the Departmental Grade 13 examinations and by 1,230 pupils who presented equivalent certificates.

RADIO

Twenty-four music broadcasts were presented in four series during January, February, March, and April. "Primary School Music", five 15-minute programmes for Grades 1 to 3; "Junior School Music", five 15-minute programmes for Grades 4 to 6; "Music for Young Folk", nine 30-minute programmes for grades 7 to 10; and "Ontario Sings", five 15-minute programmes for Grades 5 to 8 were broadcast, with commentary prepared and given in each case by the Music Branch of the Department of Education.

Ontario School for the Blind

ENROLMENT

A student body of 240, the largest in the history of the school, reported for the beginning of classes in September, 1962, at the Ontario School for the Blind, Brantford. Of the 236 who had been in attendance from January to June, 24 had withdrawn during the summer—6 by graduation and 18 for other reasons—and 28 new enrollees were admitted—21 to Grade 1 and 7 scattered through Grades 2 to 9. The enrolment is made up of 143 boys and 97 girls and, of these, 181 are Ontario residents while 8 are from Alberta, 23 from Saskatchewan, 19 from Manitoba, 6 from Quebec and 3 are Eskimo children from the far north. The pupils range in age from 6 years to 21 years with a few older ones attending by special permission due to unusual circumstances.

PROGRAMME

Opportunity is provided for the students to proceed to Grade 12 graduation and to receive the Ontario Secondary School Graduation Diploma with four, five or six options. The programme is basically academic and the Ontario Courses of Study for Grades 1 to 12 inclusive are used. Classes are small in order that the needs and abilities of the individual may be served.

To supplement their academic studies, all of the girls take practical courses in home economics and various handicrafts, while all of the boys are busy with industrial arts and piano tuning. Typing is a skill subject taught to both groups. A complete physical education programme with a wide variety of activities, both indoors and out, and a broad recreational and social extra-curricular programme contribute to the pupils' life at the School.

Music is an important subject of study. Through individual lessons, each child is given the opportunity to develop to the full the musical interest and talent which he possesses. Students are also aided and encouraged to avail themselves of all the cultural opportunities of the local community.

GRADUATES

Six students graduated from Grade 12 in June, 1962. Of these, two went directly to college, two are attending Grade 13 prior to university, and two are in training, one as a home teacher of the blind and one as a dictaphone typist. Of the thirty-four students who graduated from Grade 12 during the last five years, fifteen have gone on to university, three entered Grade 13 prior to college, five have become home teachers of the blind, two have become dictaphone typists, six are employed in various capacities and three of the girls are married.

NEW DEVELOPMENTS

During the year, the Industrial Arts building was completely renovated to provide two large shops, one for chair-caning and manual training and one for woodworking with power tools. It is planned to introduce some metal-work. Two smaller rooms will be used for the radio club and hobby crafts.

Regular classes were begun in a formal programme of Orientation, Mobility and Travel. In this course the students are taught the proper use of the white cane. The purpose of the programme is to develop the confidence, knowledge and skill necessary for independent travel.

Ontario School for the Deaf, Belleville

ENROLMENT

Facilities at the Ontario School for the Deaf, Belleville, have been taxed to the utmost to accommodate the largest enrolment in the 92-year history of the school. On October 15, 1962, the enrolment was 549 pupils (312 boys and 237 girls) all from Ontario and distributed as follows: Junior School 255; Intermediate School 129; Senior School 165. The age of admission was raised from five years seven months to six years four months. Ten rooms of the staff residence and a playroom in the junior boys' residence are being used to provide extra sleeping accommodation. Three basement rooms and two other special rooms are being used as temporary classrooms.

The problem of accommodation at Belleville will be reduced with the expected opening of the new junior school for the deaf at Milton in 1963, when a lowering of the admission age will again be possible.

PROGRAMME

The School provides a programme to meet the academic, vocational, and social needs of deaf and severely hard-of-hearing children from six to twenty years of age. Vocabulary and language development are emphasized in the junior grades. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. A broad programme of physical education, inter-school athletics, cultural, social, and recreational activities is carried on throughout the school year. Religious instruction is provided by the teachers assisted by local clergymen. Hobby clubs, Boy Scout, Wolf Cub, Girl Guide, and Brownie groups continue to thrive under the leadership of members of the teaching staff. The after-school recreational programme conducted by teachers was extended to include the 82 boys of the junior residence. Weekly curling at the Quinte Curling Club was added to the athletic programme for senior boys and girls. Swimming at the Alberta College pool and skating at the Belleville Arena continued to be popular.

In anticipation of the opening of the new school at Milton, the junior school was so organized in September, 1962, that nine complete class groups of younger junior children from South-Western Ontario can be transferred with their teachers to the Milton school as soon as it is ready without any interruption in their programme. The enrolment in the course for teachers leading to the Specialist Certificate as teacher of the deaf was increased from eight to fourteen.

The first sod was turned on December 5, 1962, for a new boys' vocational building to provide ten shops and related facilities for senior boys' vocational training. This new building which is being erected under the Federal-Provincial Technical and Vocational Training Agreement, will replace three old small buildings and three basement shops and will make possible a more complete and diversified vocational programme. An additional instructor in welding and machine shop practice was engaged in September, 1962.

The first extra-curricular course in driver instruction for senior students was completed in June with eleven successful graduates. Sixteen students are enrolled for the current year using two cars supplied by local dealers.

IMPROVEMENTS

Significant improvements to facilities in several older buildings were made during the past year. An additional study area was partitioned off and furnished in the senior girls' residence and a basement playroom was renovated and

furnished. Houseparents' rooms were remodelled in the junior boys' residence. Several areas, including the main school auditorium, were redecorated. Wooden floors were replaced by tile in ten classrooms. The senior boys' residence was completely rewired and visual alarms were added to the automatic fire detection and alarm system. Work is underway to add similar signals in the main school building, the senior girls' residence, and the junior boys' residence. Additions were made to the street lighting system on school roadways.

Ontario School for the Deaf, Milton

ACCOMMODATION

Planning of the Ontario School for the Deaf, Milton, the second residential school for deaf children in Ontario, began five years ago, and construction of the first stage of the project on the ninety-three acre site commenced in 1961. Stage one, which will be completed early in 1963, includes a junior residential and school unit for 210 children, a 32-bed hospital, staff residence, administration unit, laundry, heating plant and appropriate landscaping, paved roads and sidewalks. Stage two, which is now being planned, will include a senior girls' residence, senior boys' residence, academic and vocational schools for 220 students, a gymnasium unit, vehicle storage and certain staff houses. Stage three, will be a self-contained, pre-school unit to accommodate from 40 to 50 children.

ENROLMENT

It is expected that approximately 80 junior children will be transferred from the Belleville school, together with their teachers and other key personnel, after Easter, 1963. In September, about 80 beginning students, 5 years of age and over, will be enrolled. By September, 1964, the junior school enrolment may approach 200. The buildings in stage two of this huge project will be required by September, 1965, to receive children promoted from junior classes, and all senior students at the Belleville school whose homes are in Western Ontario.

PROGRAMME

The programme of the new Milton school will be almost identical to that provided at the Ontario School for the Deaf, Belleville. The junior school and residence staff will provide academic training in elementary school subjects, with emphasis given to vocabulary and language development, and also training in good health, play and other desirable habits. The accommodation and facilities to be provided for senior students, to age 21 years, will permit academic instruction to the Grade 10 level, and eventually higher; a good variety of practical, vocational courses for boys and for girls; and ample opportunities for students to develop physically, emotionally and socially, enabling them to become respected, self-supporting and well-adjusted citizens in Ontario communities.

Physical and Health Education Branch

SERVICES

The Physical and Health Education Branch is responsible for the supervision of the Physical and Health Education programmes in the schools of the Province. The branch is also responsible for the operation of two camps for the development of leadership potential of selected secondary school students and for summer courses and in-service training courses for teachers. The Branch also serves as liaison with military services and school cadets, non-profit camping organizations

and other physical education or health agencies. The Physical and Health Education Branch and the Community Programmes Branch, working together, are responsible for the provincial implementation of co-operative planning with the Federal government in the area of fitness and amateur sport.

During the past year the increase in attendance at physical education summer school courses has continued. The rapid increase is revealed when the enrolment figure of 192 in the elementary school summer course in 1952 is compared with that of 963 in 1962. The growing number of trained teachers is reflected in programmes which emphasize the educational as well as the physical aspects of the programme. Many school boards have been quick to recognize the benefits and have been generous in the provision of the equipment necessary to provide challenging programmes.

ONTARIO ATHLETIC LEADERSHIP CAMP

A total of 651 young men and women, representing 366 secondary schools of the Province, attended the Ontario Athletic Leadership Camp at Longford Mills for an intensive two-week leadership course in 1962. This camp-site was used by many organizations during the year for leadership courses. Improvements in the plant continue to be made as the needs of leadership training change.

ONTARIO CAMP LEADERSHIP CENTRE

There were 275 leaders-in-training who attended the three camp courses conducted at the Ontario Camp Leadership Centre, Irondale. These students, recommended by non-profit camps of the Province, followed a programme designed to provide them with techniques and skills which would enable them to make a significant contribution to the programmes of the non-profit camps with which they would later serve.

The sixth Workshop for Camp Directors of Non-Profit Camps was held in June. Every part of the Province was represented in the group of over one hundred persons in attendance.

The 3,300 acre camp-site at Irondale provides opportunities for unlimited experiences in studying natural science, camp craft, water safety, conservation, orienteering, out-tripping and survival living, and is regarded as a model training centre.

CAMP GRANTS

During the last fiscal year the provincial government awarded \$52,000 in grants to non-profit camps.

Provincial Library Service

PUBLIC LIBRARY DEVELOPMENT

Five new libraries were organized in 1962, including the Muskoka and Parry Sound Regional Library Co-operative, with headquarters in Parry Sound. More than five hundred libraries serve Ontario, and all were assisted by grants from the legislative vote of \$2,250,000 in 1962. Several new or improved library buildings were opened in 1962, the largest being the Kitchener Public Library.

USE OF LIBRARIES

Circulation of books in 1961 increased to more than 33,000,000, an increase of 10 per cent over the previous year and 100 per cent over 1951. Total circulation, including use of reference books, films, and other materials, reached 35,510,980. Several public libraries expanded their work in regional service and adult education, and received special provincial grants. Public library expenditure for the Province reached \$2.00 per capita in 1961.

LIBRARIANSHIP

Increased enrolment was reported for courses leading to the Bachelor of Library Science degree, with 80 students graduating from the Library School at the University of Toronto.

PROVINCIAL SERVICE

The staff of the Provincial Library Service assists the counties, districts, and municipalities of Ontario in the provision of libraries. A library of 90,000 volumes is located at headquarters, including a Teachers' Reference section; from this collection, books are sent to libraries and schools. A quarterly magazine, **The Ontario Library Review** is produced, workshops and conferences are sponsored, and inquiries regarding legislation and other subjects are answered.

In Memoriam

MARY A. CLARKE, M.A., Secondary School Inspector of Home Economics, died suddenly on July 7, 1962, in Ottawa while attending an educational conference. Miss Clarke began her duties in the Department of Education on July 16, 1945, following service on the staff of the Macdonald Institute in Guelph and as superintendent of the Women's Institute Branch of the Ontario Department of Agriculture. For nearly seventeen years she gave energetic, capable leadership in her special field of work, devoting herself unselfishly to the improvement of the instruction and programmes of study and gaining the respect and friendship of principals, teachers, pupils, school board members, and her Departmental colleagues. Her work was marked by competence, enthusiasm, and a capacity for friendship which enabled her to make contributions of notable and enduring value to secondary education in this Province.

EARL CLINTON REEB, B.A., M.ED., Superintendent of Public Schools for the City of St. Thomas, died on November 21, 1962. He was born in Essex County on June 22, 1914, and attended Essex High School. He graduated from the University of Western Ontario in 1943, and received his Master of Education degree from the University of Toronto in 1953. Mr. Reeb taught public school for eleven years and high school for ten years. He was appointed Inspector of Public Schools for Sudbury No. 1 in 1954, and became the first Municipal Inspector for St. Thomas in 1960. A dedicated teacher and administrator, Mr. Reeb was untiring in the discharge of his duties. His untimely passing brought sorrow to all who knew him.

STANLEY A. WATSON, B.A., who retired on October 31, 1960, from the position of Superintendent of Curriculum and Text-Books and who served the Department in a number of other capacities, died on May 6, 1962. A tribute to his service was included in the 1960 Report of the Minister.

Retirements on Superannuation

N. DAVIES, B.A., retired on June 30, 1962, after thirty years of devoted and significantly useful service in the Department of Education first as Inspector of Agricultural Classes, and then as a secondary school inspector. Beginning with his initial position in the Essex High School, 1915-1918, where he taught Science and Agriculture, he continued for forty-seven years to give himself with energy, enthusiasm and resourcefulness to his work as teacher, principal, and inspector. A specialist in Science, Agriculture and Physical Education, he taught at the Renfrew

Collegiate Institute, 1918-1922, where as at Essex, he initiated instruction in Agriculture. As principal of Amherstburg High School and of the Ridgetown High and Vocational School, he was an enterprising leader in the development of agricultural education as a definite part of secondary school programmes of study. Throughout his service as inspector he gave province-wide leadership to principals, teachers and school boards in this important field. As lecturer at the Ontario College of Education to candidates for the Specialist's Certificate in Agriculture and as principal for twenty-eight years of the Departmental summer courses in that subject he also influenced greatly its teaching in the Province. Mr. Davies' high standards of service, active interest in the proficiency of teachers and the progress of pupils, and the sincere, friendly manner in which he carried out his duties have gained for him widespread esteem and appreciation.

JENNIE IRWIN, B.A., B.Paed., Master of the North Bay Teachers' College, retired on August 31, 1962. Mrs. Irwin was born in Lancaster, Ontario, and received her elementary and secondary education there. Upon graduating from Queen's University in 1921, she attended the Edmonton Normal School and taught in continuation schools in Alberta from 1922 to 1925. After obtaining a specialist certificate in art from the Ontario College of Education in 1933, and an Honours B.A. degree in English and History from Queen's University in 1934, she was appointed to the staff of the North Bay Teachers' College where she continued to teach until retirement. Mrs. Irwin's zeal, artistic ability, and high qualifications enabled her to make a substantial contribution to teacher education in this Province. In her work she has made many friends among students and associates, who join in wishing her many years of well-earned leisure.

G. E. JOHNSON, M.A., who was appointed secondary school inspector on August 8, 1943, retired from that position on February 28, 1962, after a long career of notably effective service to secondary school education in Ontario. Following service with the Royal Flying Corps in the First World War, he was science master at the Vankleek Hill Collegiate Institute, 1919-20, and at the Welland High and Vocational School, 1920-23. For twenty years, 1923-43, as the highly competent principal of the Welland High and Vocational School, he made an outstanding contribution to its growth and development. A distinguished graduate of Queen's University in science, Mr. Johnson was a medallist in biology and a successful candidate for a Rhodes Scholarship but, under the rule as to age, this could not be awarded. The personal integrity, careful judgment, thorough scholarship, and high professional standards which throughout his career have marked Mr. Johnson's service to Ontario education have brought him well-merited and enduring respect and gratitude.

L. J. LANGAN, B.A., retired as Separate School Inspector for Kitchener R. C. Division No. 1 on November 10, 1962. He was first appointed as Separate School Inspector for R. C. Separate School Division XII with residence in Toronto on September 1, 1935. Subsequently he served in Separate School Division VIII for four years. He was appointed as Inspector of Kitchener R. C. Division in 1944 and served in that area until his retirement. His twenty-seven years of devoted service as an Inspector will be recalled with gratitude by the many teachers and pupils with whom he was associated.

A. B. LUCAS, B.A., B.Paed., LL.D., retired on June 30, 1962, from the position of Director of Education for the London Board of Education. Dr. Lucas was born near Watford, attended rural school in Brooke Township, Watford High School, and the Faculty of Education, Toronto. He taught in rural schools and became principal of Point Edward Public School before joining the Royal Air Force in World War I. The war over, he briefly returned to public school teaching before being named principal of Oil Springs Continuation School; he later taught at Strathroy Collegiate Institute and Malvern Collegiate Institute, Toronto. He was

appointed Inspector of Public Schools in Kent County in 1931, Assistant Superintendent of Public Schools for the London Board of Education in 1939, and Director of Education for that City in 1956. He was president of the Ontario Educational Association in 1955, and in the same year received the LL.D. degree from the University of Western Ontario. Held in high esteem and affection by those who have been privileged to work under his inspiring leadership, Dr. Lucas has made an outstanding contribution to education in London and in the Province.

H. L. MARTYN, B.A., B.Paed., retired on January 31, 1962, from the position of Inspector of Public Schools for the Board of Education of the City of Toronto. He was born in Ripley, Ontario, and educated in Ripley Public School, Kincardine High School, and Toronto University. He served in the Royal Navy during World War I. His whole teaching career was in Toronto. From 1920 to 1936 he taught in Pape Avenue Public School and during 1936-37 he was headmaster in Essex Public School. He was the principal of Earl Kitchener Public School from 1937 to 1940 and of Church Street Public School from 1940 to 1948. His term as Inspector of Public Schools extended from 1948 to 1962. Mr. Martyn was particularly interested in special education, the teaching of reading and the Toronto Island Natural Science School. An understanding and kindly teacher, principal, and inspector, he upheld high standards for his pupils in the basic skills, and encouraged the creative talents of his staff.

J. V. McINTYRE, B.A., B.Paed., Master at the Toronto Teachers' College, retired on August 31, 1962. Born in Brantford, Ontario, Mr. McIntyre attended elementary and secondary schools in that city. He interrupted his education to serve as a member of the Princess Patricia's Canadian Light Infantry, C.E.F., in England and France from 1914 to 1919. Upon graduating from the Faculty of Education in Toronto, he taught in elementary and secondary schools until 1930, when he was appointed to the staff of the Peterborough Normal School. From 1930 to 1962 Mr. McIntyre taught at the Peterborough and Hamilton Normal Schools and at the Toronto Teachers' College with the exception of the year 1941-42 when he served as a Separate School Inspector. During his long period of service, Mr. McIntyre made a significant and lasting contribution to Ontario education in the subject field of mathematics. In addition to teaching this subject at St. Michael's College, St. Catharines Collegiate Institute, and in the Teachers' Colleges, he is the author of a professional book on the teaching of arithmetic, and co-author of two text-books in mathematics. His good judgment, sound scholarship, and sterling personal qualities will long be remembered by his former students and associates.

T. A. S. McKEE, B.A., B.Paed., retired as Superintendent of Public Schools for the Board of Education of the City of Fort William on August 31, 1962. He received his elementary education at Warkworth and Bridgenorth, Ontario, and his secondary education at Peterborough Collegiate Institute. Following service during World War I in the Royal Flying Corps, Mr. McKee taught in the Peterborough area, in Kingston, and in Ottawa. A graduate of Queen's University in 1931, he served as principal of Devonshire Public School in Ottawa prior to his appointment as Public School Inspector by the Ottawa Public School Board in 1949. He was appointed Superintendent of Public Schools in Fort William in September, 1954. In all of his responsible positions, Mr. McKee exercised wise leadership, while his efforts on behalf of the communities in which he resided were outstanding.

H. J. PAYETTE, B.A., retired from the position of Separate School Inspector of Chatham R. C. Division on August 31, 1962. He was a graduate of the University of Toronto and the Ontario College of Education. During World War I he served in the Royal Canadian Air Force. He was principal of Continuation schools at Merrickville, Lanark and Marmora, of the Vienna High School and Assistant Principal of the Sturgeon Falls Model School prior to his appointment as School

Inspector in 1924. He served for seven years as Inspector of Separate Schools in North Bay and from 1931 to 1962 was located in the Chatham area. At the time of his retirement he had given 38 years of effective service as an elementary school inspector to the Province.

ALICE M. PYKE, B.A., retired from the position of Master of Home Economics at the Hamilton Teachers' College on August 31, 1962. Mrs. Pyke's family home was Meaford, Ontario. She attended Meaford High School and subsequently graduated from Victoria College, University of Toronto. Following attendance at the Ontario College of Education she taught in Central Collegiate, Hamilton; Nutana Collegiate, Saskatoon; and Kitchener Collegiate and Vocational School. From 1925-45 she served as Inspector of Home Economics for the Ontario Department of Education and, in 1951, was appointed to the staff of the Hamilton Teachers' College. As Dean of Women in that institution she assisted hundreds of students with her wise counsel. Her keen interest in Home Economics, her instructional skill, and her fine personal qualities have been an inspiration to many teachers in the elementary and secondary schools of Ontario.

J. B. SILCOX, B.A., B.Paed., retired from the position of Assistant Registrar in the Department of Education on November 16, 1962. Born in Elgin County, he received his elementary education at S.S. 10 Southwold. After finishing his secondary school education at Fingal, he attended normal school in London. During his subsequent career as a teacher and principal in Mulmur Township, Oxford Township, Dorchester, Point Edward and Brantford, he obtained the B.A. and B.Paed. degrees as well as his elementary-school inspector's certificate. In 1941 he joined the R.C.A.F. as a Pilot Officer, and left the force in 1945 with the rank of Flight Lieutenant. In July, 1945, he joined the Registrar's staff in the Department of Education, becoming responsible for the immediate supervision of Teachers' College admissions and teacher certification. He proved a tower of strength to the Registrar's Branch in the discharge of these duties.

D. W. SIMPSON, B.A., resigned his position as Public School Inspector for Bruce No. 1, effective August 31, 1962, to accept a position with the Education Division of the Department of Northern Affairs and National Resources in Ottawa. Mr. Simpson was born and educated in Stratford, Ontario, attended the Stratford Normal School, and graduated from the University of Western Ontario. During World War II he served with the Royal Canadian Air Force for five years. He became Navigation Officer of Number 433 Squadron and received the D.F.C. in 1943. After the war, he became principal of the Brampton Public School. Appointed Inspector of Public Schools for North Hastings in 1948, he was transferred three years later to the Inspectorate of Carleton No. 1 and Russell No. 1, and subsequently to the Inspectorate of Waterloo No. 1. For two years, from 1958 to 1960, Mr. Simpson was granted leave of absence to serve as principal of the R.C.A.F. school at Baden-Soellinger in Germany. On his return he became the Public School Inspector of Bruce No. 1 and served in that capacity until his resignation became effective in 1962. Mr. Simpson carried with him to his new post the high regard of the teachers whom he supervised in the Ontario school system.

L. L. SINCLAIR, B.A., retired because of ill health on August 31, 1962, after twenty-two years as the public school inspector for Grey No. 2. Mr. Sinclair was born in Grey County and began his teaching career in Chatsworth Continuation School which he attended as a pupil. After eight years teaching in Chatsworth he was appointed principal of Strathcona Public School, Owen Sound, in 1932, where he taught until his appointment as a public school inspector in 1940. Mr. Sinclair was keenly interested in community activities and gave unstintingly of his time and effort in promoting the improvement of elementary education in the many rural schools under his supervision.

H. A. TANSER, M.A., D.Paed., retired on June 30, 1962, from the position of Director of Education for the Chatham Board of Education. Dr. Tanser was born in England and received his early education there. During World War I he served in the infantry, rising to the rank of Captain, and saw active service in France and the Middle East. He attended Toronto Normal School and the Ontario College of Education and taught in Toronto public and secondary schools. He obtained his Bachelor of Arts and Master of Arts degrees from Queen's University and the Doctor of Pedagogy degree from the University of Toronto. Dr. Tanser was appointed Inspector of Public Schools for the Chatham Board of Education in 1933, Superintendent of Public Schools in 1936, and Director of Education in 1955. In recognition of his long and distinguished service, the Chatham Board of Education named one of its new public schools after him.

BERNADETTE TARTE, B.A., B.L.S., retired on November 17, 1962, from the position of Librarian at the University of Ottawa Teachers' College. She was born in Vancouver, B.C., and received her elementary and secondary education at Our Lady of the Rosary Convent, Ottawa. In 1929, she graduated from Bruyère College, affiliated with the University of Ottawa, with her B.A. degree. In 1932-33 she attended the School of Librarianship, and in 1946 obtained a Bachelor in Library Science degree from the University of Toronto. Miss Tarte was appointed Librarian at the University of Ottawa Teachers' College in 1930, and served in that position until her retirement. For many years she was keenly interested in Girl Guides and served for a term as a Commissioner in that organization. With her interest in the world of books, and her knowledge of the French and English languages, Miss Tarte made a significant contribution to bilingual education in Ontario.

N. R. WIGHTMAN, B.A., retired on August 31, 1962, from the position of Inspector of Public Schools in Welland No. 3. He received his elementary education at Belgrave, Ontario, and his secondary education at Wingham High School. He graduated from the University of Western Ontario in 1930 with the Degree of Bachelor of Arts. Mr. Wightman taught in London and Timmins and was principal of Timmins Public School before his appointment as Inspector of Public Schools in the Inspectorate of Manitoulin and Algoma South in 1932. He was transferred to the Inspectorate of Welland South in 1939. As a teacher, author, administrator and leader, Mr. Wightman served education well and his contribution will long be remembered by his many friends and colleagues in the Niagara Peninsula.

G. A. WRIGHT, B.S.A., who for sixteen years was Director of the Physical and Health Education Branch of the Department of Education, resigned from that position in June, 1962, to accept the newly-created post of Director of Fitness and Amateur Sport with the Department of National Health and Welfare, Ottawa. From the time of his appointment to the Department of Education in 1946, Mr. Wright worked diligently and forthrightly to raise the standards of Health and Physical Education in the schools of the Province. Always unsparing of himself, he was recognized as a leader in the field. Through his influence and guidance, qualifications of teachers of health and physical education have been raised, time allotments increased, courses of study improved and the provision of facilities accelerated. The development of the Departmental leadership camps at Longford Mills and Irondale was largely the result of his efforts and interest. The best wishes of his many friends in the Department of Education follow him to his new and responsible position.

SERVICE RECORD—PERSONNEL EMPLOYED BY PROVINCE OF ONTARIO

DIED IN SERVICE

Mary A. Clarke Secondary School Inspector, Secondary Education Branch, July 7, 1962.

RETIREMENTS ON SUPERANNUATION

N. Davies Secondary School Inspector and Inspector of Agricultural Classes, Secondary Education Branch, June 30, 1962.

Mrs. J. Irwin Master, North Bay Teachers' College, Teacher Education Branch, August 31, 1962.

G. E. Johnson Secondary School Inspector, Secondary Education Branch, February 28, 1962.

L. J. Langan Elementary School Inspector, Elementary Education Branch, Inspectorate, Kitchener R.C.S.S. Division No. 1, November 9, 1962.

J. V. McIntyre Master, Toronto Teachers' College, Teacher Education Branch, August 31, 1962.

H. J. Payette Elementary School Inspector, Elementary Education Branch, Inspectorate, Chatham R.C.S.S. Division, August 31, 1962.

Mrs. A. M. Pyke Master, Hamilton Teachers' College, Teacher Education Branch, August 31, 1962.

J. B. Silcox Assistant Registrar, Registrar's Branch, November 16, 1962.

L. L. Sinclair Elementary School Inspector, Elementary Education Branch, Inspectorate, Grey No. 2, August 31, 1962.

Miss Bernadette Tarte . . . Librarian, Teacher Education Branch, University of Ottawa Teachers' College, November 17, 1962.

N. R. Wightman Elementary School Inspector, Elementary Education Branch, Inspectorate, Welland No. 3, August 31, 1962.

RESIGNATIONS

R. D. Barber Elementary School Inspector, Elementary Education Branch, Inspectorate, Cochrane No. 2, Algoma No. 2 and Sudbury No. 5, August 31, 1962.

H. Hempstead Master, Hamilton Teachers' College, Teacher Education Branch, June 30, 1962.

G. G. Hepburn Master, London Teachers' College, Teacher Education Branch, August 31, 1962.

W. G. MacKay Secondary School Inspector, Secondary Education Branch, July 31, 1962.

A. J. Shupe Special Services Inspector, Guidance Services Division, Special Educational Services Branch, August 31, 1962.

- D. W. Simpson Elementary School Inspector, Elementary Education Branch, Inspectorate, Bruce No. 1, August 31, 1962.
- G. A. Wright Director, Physical and Health Education Branch, June 14, 1962.

PROMOTIONS

- A. W. Bishop Assistant Superintendent, Secondary Education Branch, formerly Secondary School Inspector, July 1, 1962.
- R. F. Bornhold Assistant Superintendent, Elementary Education Branch, formerly Elementary School Inspector, Inspectorate, Halton No. 1, August 1, 1962.
- E. M. Cannon Master, Ottawa Teachers' College, formerly Instructor 2, Ottawa Teachers' College, September 1, 1962.
- R. S. Devereux Principal, Windsor Teachers' College, formerly Master, London Teachers' College, July 1, 1962.
- R. H. Field Assistant Superintendent, Elementary Education Branch, formerly Elementary School Inspector, Inspectorate, Leeds No. 2, August 1, 1962.
- R. L. Fritz Vice-Principal, Windsor Teachers' College, formerly Master, London Teachers' College, July 1, 1962.
- Miss R. E. Gregory Secondary School Inspector, Secondary Education Branch, formerly Master 2, Ryerson Institute of Technology, September 1, 1962.

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare; these reports give the number of families transferring in and out of each province. The data is compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.45 children per family—has been used as a multiplier.

(1)—Name changed from "Normal Schools" in 1953.

(2)—At Toronto and Part Arthur.

(3)—At London.

(4)—Plus 81 at special summer session.

Source: Teacher Education Branch.

(5)—Plus 77 at special summer session.

(6)—The first year these departments were part of the Ontario College of Education.

(7)—At Toronto, Kingston and London.

(8)—At Toronto.

(9)—Discontinued in 1961.

*—As of October 15th.

TABLE 11—PROFESSIONAL CERTIFICATES ISSUED DURING 1961-62
(September 1, 1961 to August 31, 1962)

A—Interim Certificates

1. Intramural

	First Certificates	Up- Grading
Elementary		
1. Second Class (University of Ottawa Teachers' College)		
(a) One-year Course	240
(b) Completion of Three Summer Sessions	62
(c) January to June at other Teachers' Colleges
2. Elementary-School Teacher's Teachers' Colleges		
(a) One-year Course	3,053
(b) Second year of Two-year Course	819
(c) Completing Year (At Teachers' College) of In-Service Course	376
Ontario College of Education		
Elementary-School Teacher's Option	14
3. Primary School Specialist's		
(a) to candidates entering with B.A. degree only	12
(b) to candidates entering with Elementary-School Teacher's Certificates		24
Total, Elementary	4,576	24
Secondary		
4. High School Assistant's, Type B		
(a) One-year Course	239
(b) Completion of 8-week Summer Session 1961 and 7-week Summer Session 1962	931
(c) Regular 8-week Summer Course	28	156
5. High School Assistant's Type A (taken concurrently with Type B but not included in the 239 above)		
(a) One-year Course	149
6. High School Assistant's, Type A, Seminar		213
7. Vocational, Type B, One-year Course	237
8. Vocational, Type B, Summer Session	19	25
9. Vocational, Type A, Summer Sessions		60
10. Intermediate Home Economics		53
11. Intermediate Industrial Arts		48
Total, Secondary	1,603	555
2. Extramural		
Elementary		
1. Second Class		
(a) raised from Third Class		4
(b) to candidates re-writing Teachers' College papers	20
(c) to holders of Letters of Standing	85
2. First Class		
(a) to candidates re-writing Teachers' College papers
(b) to holders of Letters of Standing
3. Elementary-School Teacher's		
(a) raised from Second Class		304
(b) to candidates re-writing Teachers' College papers	182
(c) to holders of High School Assistant's Certificates		6
(d) to holders of Letters of Standing	223
(e) raised from E.S.T. Standard 1 or First Class to a higher standard		3,171
Total, Elementary	510	3,485

TABLE 11—PROFESSIONAL CERTIFICATES ISSUED DURING 1961-62 (Continued)

	First Certificates	Up- Grading
Secondary		
4. High School Assistant's, Type B		
(a) from O.C.E., having passed the final examinations after exemption from attendance because of previous training	179	15
(b) to holders of Letters of Standing	68	
(c) previous certificates (endorsed)		112
5. High School Assistant's, Type A		
(a) from O.C.E., having passed the final examinations subsequent to obtaining the Type B Certificate		133
(b) to holders of Letters of Standing		
Total, Secondary	247	260
Grand Total	6,936	4,324
Total Number of Interim Certificates Issued	11,260	

NOTE: The figure 6,936 does not include the 1,432 Temporary Secondary School Certificates granted upon successful completion of the first 8-week (1961) session of the 8-week and 7-week summer courses at O.C.E.

3. Certificates in Special Subjects

Classification of Certificates	Elementary	Intermediate	Supervisor	Specialist	Total
Persons Holding No Regular Certificate					
Instrumental Music		20	1	7	28
Vocal Music		49	25	13	87
Total		69	26	20	115
Holders of Regular Teaching Certificates					
Accountancy		52		10	62
Agriculture	4	4			8
Art	629	97	61	11	798

TABLE 15—FULL-TIME TEACHERS IN ELEMENTARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1961	38,079
ACQUISITIONS—September 30, 1961 to September 30, 1962:	
From private elementary schools	41
Teachers' Colleges and First-Year Summer Courses	4,191
Letters of Standing	260
Former secondary-school teachers	59
Letters of Permission on September 30, 1962	293*
Certificated teachers re-entering profession	1,314
Others	130
Total, Acquisitions	6,288
WITHDRAWALS—September 30, 1961 to September 30, 1962:	
To further education in teachers' colleges, universities, and other educational institutions	792
To teach in secondary schools, private schools, teachers' colleges, or schools outside Ontario	993
Employment in a non-teaching occupation	344
Marriage	382
Retirement	503
Illness	111
Death	46
Resumption of household duties (married women)	1,789
Others	158
Total, Withdrawals	5,118
ACQUISITIONS LESS WITHDRAWALS	1,170
NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1962	39,249

EXPLANATORY NOTE:

*This total shows only the number of Letters of Permission issued for the school year 1962-63 in the month of September.

Source: Elementary-School Principals' September Statistical Reports, 1962.

TABLE 16—FULL-TIME TEACHERS IN SECONDARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1961 **12,850**

ACQUISITIONS—September 30, 1961 to September 30, 1962:

From private secondary schools.....	58
From Ontario College of Education (all courses).....	1,826(1)
Former elementary-school teachers qualified to teach in secondary schools.....	135
Qualified teachers re-entering profession who were employed previously on full-time basis.....	332
Letters of Standing.....	74
Letters of Permission on September 30, 1962.....	705(2)
Others.....	61
Total, Acquisitions.....	3,191

WITHDRAWALS—September 30, 1961 to September 30, 1962:

To enrol in a university or other educational institution.....	139
To teach in an elementary school, private school, teachers' college, or school outside Ontario.....	204
Employment in a non-teaching occupation.....	184
Marriage.....	71
Retired.....	152
Illness.....	31
Death.....	19
Resumption of household duties (married women).....	244
Others.....	74
Total, Withdrawals.....	1,118

ACQUISITIONS LESS WITHDRAWALS **2,073**

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1962 **14,923**

EXPLANATORY NOTES:

1. This total of 1,826 does not include persons who were employed by Boards on Letters of Permission during the school year 1961-62, who served as teachers during that school year, and who returned to the schools as teachers after successful completion of the 1962 eight-week summer course at the Ontario College of Education.
2. This total shows only the Letters of Permission issued for the school year 1962-63 in the month of September.

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

Source: Technical Adviser, Department of Education.

TABLE 24—ELEMENTARY SCHOOL ENROLMENT
(Continuous Record from September, 1961 to September, 1962)

ENROLMENT ON THE LAST DAY IN SEPTEMBER, 1961	1,163,053
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public or separate school for the first time	153,261
(b) Pupils enrolled previously in another public or separate school in Ontario	223,104
(c) Pupils entering from private schools	1,468
(d) Pupils re-entering after a period of non-attendance	2,277
(e) Pupils from outside Ontario	18,296
TOTAL ADMISSIONS	398,406
TOTAL, SEPTEMBER, 1961 ENROLMENT AND ADMISSIONS	1,561,459
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER	322,608
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario	17,168
(b) To Private Schools	9,781
(c) Died	424
(d) Health and other reasons	2,445
(e) Ceased to attend school (other than in (a), (b), (c) or (d))	12,004
TOTAL RETIREMENTS	41,822
TOTAL TRANSFERS AND RETIREMENTS	364,430
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1962	1,197,029

TABLE 31—PUBLIC SCHOOL ENROLMENT

(Continuous Record from September, 1961 to September, 1962)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1961	861,715
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public school for the first time	112,977
(b) Pupils enrolled previously in another public or separate school in Ontario	167,549
(c) Pupils entering from private schools	653
(d) Pupils re-entering school after a period of non-attendance	1,491
(e) Pupils from outside Ontario	13,550
TOTAL ADMISSIONS	296,220
TOTAL, SEPTEMBER, 1961 ENROLMENT AND ADMISSIONS	1,157,935
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER	254,295
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario	13,191
(b) To private schools	1,664
(c) Died	296
(d) Health and other reasons	1,525
(e) Ceased to attend school (other than in (a), (b), (c), or (d))	6,766
TOTAL RETIREMENTS	23,442
TOTAL TRANSFERS AND RETIREMENTS	277,737
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1962	880,198

TABLE 67—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS
1961-62

The Province of Ontario provided transportation assistance to 824 students during the school year 1961-1962. \$20,285.49 was paid to 564 students residing east of Sault Ste. Marie and 260 students residing west of Sault Ste. Marie. Of those assisted, 262 were in the first year, 237 in the second year, 205 in the third year, 113 in the fourth year, 6 in the fifth year and 1 in the sixth year.

The institutions attended by these students were as follows:

Queen's University	206	Waterloo University College	12
University of Toronto	184	Osgoode Hall Law School	12
University of Western Ontario	167	Ontario College of Education	9
University of Ottawa	85	McMaster University	7
Assumption University	78	Ontario College of Art	6
Ontario Agricultural College	24	Carleton University	5
MacDonald Institute	12	Laurentian University, Sudbury	5
University of Waterloo	12

Report of The Minister of Education 1963

To The Honourable W. Earl Rowe, P.C.(C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1963. The report contains a brief descriptive summary of the work of the divisions and branches which are responsible for the organization and supervision of the educational system together with a collection of general and comparative statistics related thereto. There are some aspects of the service rendered by the Department which seem to merit special consideration. These I shall summarize briefly.

In September, 1963, there were 1,597,374 elementary and secondary school pupils enrolled in the schools of the Province, an increase of 68,767 over the same month in 1962. The elementary schools showed an increase of 36,135 and the secondary schools an increase of 32,632.

The supply of teachers for the public schools continued to be adequate in 1963, and in the separate schools where a rapid increase in enrolment is occurring there continues to be some scarcity of staff. It is encouraging that in the autumn of 1963 there were 6,410 prospective teachers enrolled in the Teachers' Colleges, an increase of 896 over the previous year.

The wishes of rural Ontario for improved elementary school accommodation and for higher educational standards have resulted in the construction of many rural central schools. It is estimated that at present over 60 per cent of the elementary school pupils in the rural and suburban parts of Ontario are now attending these central schools, and that the number of central schools now serving rural Ontario is in excess of 700. Parents, school boards and teachers are recognizing the obvious advantages of a graded school and are giving their support to this trend.

In September, 1963, French was being taught as a second language to English-speaking pupils in schools operated by 160 public and separate school boards. There were 104,206 pupils in the elementary schools receiving this instruction in regular classroom grades and 3,047 pupils in special classes. Indications are that the scope of the programme for the teaching of French as a second language to English-speaking pupils is broadening but that the limiting factor is the number of capable qualified teachers. A summer course in methods teaching for this subject was conducted by this Department for the first time in 1963; 134 teachers attended.

During the year under review, there was a sharp increase in the number of secondary students who elected to take vocational courses. These courses include Commercial Art, Business and Commerce, Technical and Occupational Subjects. The courses in Occupational Subjects, which are designed for pupils of lesser academic ability, have proved to be extremely popular and have been well received in the various communities. As the result of an extensive building programme during the past two years under the Federal-Provincial Technical and Vocational Agreement, facilities for vocational education are now available to most secondary school pupils across the Province.

On April 1, 1963, announcement was made of the establishment in the Department of Education of a Technological and Trades Training Branch to give direction in a rapidly expanding field of manpower training based on the Federal-Provincial Technical and Vocational Training Agreements. This Branch is responsible for the general supervision of the Institutes of Technology and the Institutes of Trades, for the training of the unemployed, for training in co-operation with industry, for advanced technical evening classes and for training involving Federal Departments and Agencies. In addition to the general operation of the various institutes and programmes, the Branch provides leadership in the development of suitable curricula standards and grades for the various courses, and in the planning, organization and implementation of suitable training courses for the staffs. In September, 1963, there were 4,499 full-time students enrolled in the day courses of the six Provincial Institutes of Technology and 1,412 students in the Institutes of Trades; in November of the same year, 5,638 students enrolled in the evening courses.

It was decided in August, 1963, that a Youth Branch be established in the Department to bring about the co-ordination of existing services—private, voluntary, and governmental—for the educational development of the young people of the Province. Special problems have arisen in this field as a result of automation, increased leisure time, the progress of urbanization, premature withdrawals from school, and changes in the social and family patterns. The home, the school, the church, and the community is each contributing to the solution of these problems, but it is felt more co-ordination and co-operation of these agencies with governmental efforts may usefully be developed. The duties of the new Branch will be directed to those ends—co-operation and co-ordination, not dictation. Working together, it is hoped that governmental and private agencies may be enabled to help our youth to help themselves to become fit and effective citizens in a society that promises rapid change and constant challenge.

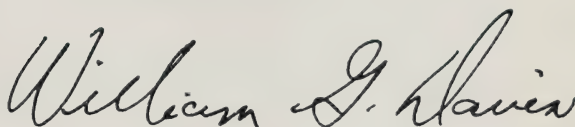

Provision has been made in 1963-64 for the payment of Legislative grants to the universities in the amount of \$70,000,000, an increase of \$24,000,000 over 1962-63. This greatly increased expenditure will help provide for a continued and expanded capital programme to accommodate the increasing numbers of students who will be entering the universities during the next few years. Progress has been made in the establishment of several new institutions. An Act providing for the establishment of Trent University at Peterborough was passed at the last session of the Legislature. The provision of Brock University at St. Catharines has been approved, as well as two additional campuses for the University of Toronto. Announcement of the development of a full-fledged university at Guelph in conjunction with the Federated Colleges there has been made. An Act establishing the University of Windsor as a non-denominational institution was passed at the last session of the Legislature and the new University began operation on July 1, 1963. The establishment of these new institutions brings to eighteen the number of universities in the Province. The development of these newer institutions and the expansion of existing institutions will proceed as rapidly as sound planning will permit.

Two significant conferences of interest to educators were sponsored by the Province in the year under review. A conference on school construction and design was convened by the Department of Education on September 4 and 5, for the purpose of exchanging experience on buildings already completed, of identifying problems requiring attention, and of finding new guidelines for the future. The participants included teachers, educational and administrative officials, school trustees, parents, architects and engineers. The influence of the addresses and discussions at these meetings promises to prove useful in this special field. The Department of Education in co-operation with the Departments of Labour and Economics and Development and the Ontario Economic Council shared in sponsor-

ing a Conference on Automation and Social Change on September 17, 18, and 19. The problems considered had wide implications for education, and the exchange of information and views was helpful.

This report emphasizes the steady growth and development of Ontario's school system. From Kindergarten to University there is a continuing demand for more class-rooms, more teachers, and, inevitably, more money. The Department of Education is meeting these educational demands through the provision of grants, advice and services. In partnership with school boards and with the guidance of supervisory officials, teachers, and parents, the Department endeavours to provide at all levels the type of education which will enable the children and youth of Ontario to develop favourably in body, mind, and character.

Respectfully submitted,

A handwritten signature in black ink, reading "William G. Davis". The signature is written in a cursive style with a large, prominent "W" and "D".

Toronto, December 31, 1963.

Minister of Education.

Elementary Education

ENROLMENT

The total enrolment of pupils in the elementary schools of Ontario in September, 1963, was 1,233,164, of whom 901,830 were enrolled in public schools and 331,334 were enrolled in separate schools. The increase in enrolment over that of the previous September was 36,135.

BUILDING PROGRAMME

Elementary school accommodation was increased during 1963 by 66,730 pupil places in 412 new buildings and additions to existing buildings, at an approximate cost of \$58,707,000. From 1945 to 1963 inclusive, 871,165 pupil places have been provided at an estimated cost of \$623,857,000.

SUPERVISION OF ELEMENTARY SCHOOLS

There is provision in The Schools Administration Act for the permissive establishment of a municipal inspectorate in an area where the average attendance of pupils in public schools under one board is between 2,000 and 3,000, and for the mandatory establishment of a municipal inspectorate where the average attendance is 3,000 or more.

During the past year the number of inspectors employed by local boards has increased from 135 to 142 and the number of municipal inspectorates from 41 to 43. The number of provincially-appointed inspectors also increased from 196 to 203. Of this latter total, 127 are Public School inspectors and 76 are inspectors of Roman Catholic Separate Schools.

In October, the ninth in-service programme for newly-appointed inspectors was conducted by the Department of Education. This one-week course gave inspectors the opportunity to meet the Chief Director, the Deputy Ministers and various branch heads, as well as other officials with whom they will be working and to familiarize themselves with the conduct of business within the Department. This year, for the first time, eight municipal inspectors were invited to attend with the eighteen new provincial inspectors. As a continuing extension of this programme, the assistant superintendents arrange to visit all inspectors in the field as time permits. In this way, liaison between the Department and local school boards, through the inspectors, is strengthened.

In recent years, each elementary school principal has been expected to take a more active part in the supervision of instruction. It was in keeping with this growing recognition of the importance of the principal in the elementary school that the regulations were amended to require each new appointee as principal of an elementary school having an enrolment of 300 or more to hold a Bachelor of Arts degree or a degree deemed equivalent thereto by the Minister, as well as a Permanent First Class Certificate or a Permanent Elementary-School Teachers' Certificate.

CENTRAL SCHOOLS

The wishes of rural Ontario for improved elementary school accommodation and for higher educational standards have resulted in the construction of many rural central schools. It is estimated that at present over 60 per cent of the elementary school pupils in the rural and suburban parts of Ontario are now attending these central schools. At the same time, of all pupils attending elementary schools in this Province, fewer than six out of every one hundred pupils now attend a one-room school.

In January, 1963, a total of 681 rural central schools, with an enrolment of 123,713 pupils, were in operation, an increase from the previous January of 97 new central schools. The number of central schools now serving rural Ontario is in excess of 700. Parents, school boards and teachers have recognized the obvious

TABLE 1—A STATISTICAL SUMMARY OF PUBLIC EDUCATION IN ONTARIO, 1963

	ELEMENTARY			SECONDARY				GRAND TOTAL
	Public	Separate	Total	Academic	Vocational and Composite	Special Vocational	Total

(1) Included are 4,346 pupils in Junior High Schools.

(2) Net Total excluding duplication of Boards of Education operating both Elementary and Secondary Schools.

Source: Elementary- and Secondary-School Principals' June and September Statistical Reports, 1963.

GROWTH IN POPULATION, ENROLMENT AND TEACHING AREAS IN THE PROVINCE OF ONTARIO

* Estimated

Source: Elementary and Secondary-School Principals' September Statistical Reports, 1963, and D.B.S. Reference Paper No. 40—"Population Estimates".

The total number of full-time teachers (including principals) in September, 1963, was 17,170, an increase of 2,247 over the number in the preceding year.

TRANSPORTATION

During the school year 1962-63, secondary school boards furnished transportation for 83,325 pupils. This represents an increase of 18.5 per cent over 1961-62. These pupils were transported over 2,136 routes at a cost of \$44,005 per day.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with operators to furnish transportation for more than one year but not more than five years.

THE TECHNICAL AND VOCATIONAL TRAINING AGREEMENT

The year 1963 saw a very sharp increase in the number of secondary schools which opened their doors to pupils who elected to take vocational courses. These courses include commercial art, business and commerce, technical and occupational subjects. The courses in occupational subjects, which are designed for pupils of lesser ability, have proved to be extremely popular and have been well received in the various communities.

Although the reimbursement to boards for approved vocational facilities under the Technical and Vocational Training Agreement was reduced from 100 per cent to 75 per cent, there appears to be no lessening of interest on the part of boards to add vocational facilities under this Agreement.

As of December 1, 1963, 249 building projects which will provide 133,670 pupil places, had been or were being processed. These projects include both new buildings and vocational additions to existing schools. There are now 132 boards involved in vocational building programmes under this Agreement, of which 94 had not previously offered courses in technical education.

The facilities for vocational education are now available to most secondary school pupils across the Province.

SECONDARY SCHOOL BUILDING PROGRAMME

Thirty-five new secondary school buildings were completed in 1963 and additions made to one-hundred and thirty-nine existing school buildings at a total cost of approximately \$181,611,000.

REORGANIZED SECONDARY SCHOOL PROGRAMMES

The reorganized secondary school programmes which were introduced into Grade 9 in September, 1962, reached the Grade 10 level in September, 1963. A preliminary survey indicates that there has been general acceptance of the diversification of opportunities provided by the new programmes.

As a result of the financial assistance made available to many secondary school boards under the Technological and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario, commercial and technical programmes have been expanded substantially and have been introduced into many municipalities for the first time.

New courses in agriculture have been introduced to stress basic scientific principles rather than practical agriculture. The topics include the roles of chemistry, physics, biology and microbiology as they pertain to the production of food and to the nutrition of plants and animals.

Although some of the smaller and more remotely situated communities have not been able to widen appreciably the range of courses available, most of the secondary-school pupils in the Province of Ontario may now choose from a number

of courses in one of which a willing pupil should have a reasonable chance of success.

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1962-63, financial assistance in the amount of \$4,000,239.50 was provided for 11,170 students in scholarships, bursaries and loans. This represents an increase of 1,628 over the number who were assisted in the previous year. The Federal Government contributed \$100,000 to the aid of university students, and \$27,975 to students attending Institutes of Technology. A number of students received both a bursary and a loan.

Of the amount indicated above, the sum of \$1,668,551.50 in free gifts was awarded in the form of scholarships and bursaries. Loans, repayable on very generous terms beginning a year after a student's graduation or withdrawal, were granted to 5,249 students in the amount of \$2,331,688.00.

The first award of the King George VI and Queen Elizabeth Scholarship was made in 1962 and was granted to the Ontario Scholar receiving the highest marks in Grade 13. The award of \$500 will be continued in each year of the winner's university course, (to a maximum of 4 years), provided he maintains satisfactory standing.

For the fiscal year 1963-64, the sum of \$1,950,000 has been set aside for scholarships and bursaries, while the "drawing account" for student-aid loans is \$3,000,000. With such assistance available from the Provincial Government, no student in Ontario who earns a reasonable amount through employment during his vacation periods needs to forego college or technological training for lack of means, provided that he maintains satisfactory standing.

RESIDENTIAL AND FARM SCHOOL TAX ASSISTANCE GRANTS ACT

The Residential and Farm School Tax Assistance Grants Act was passed in 1961 to relieve residential and farm property owners of a portion of the school tax which they would be required to pay. During 1962 each secondary school board was paid a legislative grant of \$5.00 multiplied by the 1961 average daily attendance of its resident pupils. In 1963 this grant was increased to \$20.00 for continuation schools, \$30.00 for academic secondary schools, and \$40.00 for vocational secondary schools multiplied by the 1962 average daily attendance of resident pupils.

DEPARTMENTAL TESTING PROGRAMME IN GRADES 11 AND 12

In the school year 1962-63, scholastic aptitude tests of an objective type were administered to all pupils in Grade 12. Achievement tests in English and French, or Français for French-speaking candidates, were given to Grade 12 pupils in the spring term.

In June, all pupils of either Grade 11 or Grade 12 who were taking Chemistry for diploma credit in the General Course, wrote a Departmental Examination of essay type in that subject. This paper was marked by the teachers in the schools on a close marking scheme and a number of papers from each school were checked later in Toronto. The marking was completed in such a uniform manner and this procedure met with such general approval from principals and science teachers, that an extension of this type of examination may be possible.

In 1963-64, an aptitude test will again be administered; an objective test will be given in Algebra (Grade 11 or 12); and Departmental Examinations will be set in Latin, Grade 12, and Geography, Part II, whether it is studied in Grade 11 or Grade 12.

During the summer of 1964 an evaluation of methods of examining and testing in Grades 11 and 12 will be conducted before procedure is adopted for future years.

Teacher Education

ENROLMENT

In September, 1963, enrolment at Ontario's twelve Teachers' Colleges totalled 6,410—an increase of 896 over the previous year. Of these student-teachers, 3,755 enrolled in the One-year Course leading to the Elementary-School Teacher's Certificate, 1,444 in the First Year of the Two-year Course, 886 in the Second Year of the Two-year Course, 295 in the One-year Second Class Course at the University of Ottawa and Sudbury Teachers' Colleges, and 30 in the Primary School Specialist Certificate Course. The increase in enrolment was achieved despite the discontinuance of the Completing Year of the In-service Course which, in 1962, the last year the course was offered, had an enrolment of 454 students. Particularly satisfying was an increase of slightly more than 30 per cent noted in the enrolment of the One-year Elementary School Teacher's Course. The proportion of men in the Teachers' College enrolment approximates 29 per cent, about the same as in 1962; in 1957, the proportion was 20 per cent.

In September, 1963, enrolment at the Ontario College of Education in courses leading to the High School Assistant's and Vocational Certificates totalled 711, an increase of 21 over the previous year. A total of 97 students enrolled in the Library Course, an increase of 7 over 1962. The proportion of men remained the same as in 1962, at approximately 62 per cent.

Letters of Standing, granted to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth, totalled 407 in the school year 1962-63, a decrease of 78 from the previous year. Letters of Permission, issued to elementary-school boards of trustees on behalf of uncertificated teachers amounted to 915 by November 30 for the school year 1963-64. Of these, Letters of Permission issued on behalf of certificated teachers who did not hold qualification for their special work totalled 284.

TEACHER SUPPLY ELEMENTARY

In June, 1963, approximately 4,000 candidates graduated from the Ontario Teachers' Colleges—a decrease of approximately 600 from the previous year. Of these, 2,837 were in the One-year Elementary-School Teacher's Course, 756 were in the Second Year of the Two-year Course, and 443 were in the Completing Year of the In-service Course. Despite the decrease in the number of Teachers' College graduates, the supply of teachers for the public schools seemed adequate. In the separate schools where expansion of enrolment continues to be more rapid, some scarcity of staff continued.

The year 1963 marked the end of the In-service Course consisting of two Pre-Teachers' College Summer Courses, each followed by a year of successful teaching and then a Completing Year at a Teachers' College. From 1952 to 1960, a total of 7,780 students attended the First Summer of the Pre-Teachers' College Courses. Of these, 5,927 returned for a Second Summer and 4,695 subsequently attended the Completing Year. Through this course, a total of 4,049 graduates received Elementary-School Teacher's Certificates.

In September, 1963, the Sudbury Teachers' College began operations in quarters rented from the Sudbury High School Board in Lasalle Secondary School. As is the case with the University of Ottawa Teachers' College, this new College

will prepare students to teach in elementary schools where both English and French are languages of instruction. On October 15, 1963, the enrolment at the Sudbury Teachers' College totalled 147 students.

SECONDARY

The supply of teachers for the secondary schools was maintained through the operation of regular courses at the Ontario College of Education and through special summer sessions. A total of 1,812 student-teachers enrolled at centres at Kingston, London, and Toronto for the Initial Eight-week Summer Course—an increase of 311 over the total of the previous year. At the same time, the number of teachers returning for the Seven-week Completing Course rose from 1,139 in 1962 to 1,366 in 1963—an increase of 227. In the winter session, 1963-64, 464 persons were enrolled in courses leading to the High School Assistant's Certificate, Type A and Type B.

Three factors have increased the demand for additional teachers in the secondary schools. The re-organized programme of studies now applies to Grades 9 and 10 with more flexible courses than formerly. The emphasis on vocational training provided by the Federal-Provincial Technical and Vocational Training Agreements has attracted pupils to the vocational branches of the schools. The rate of retention of pupils in the schools for an additional year or two of education has resulted in much larger enrolments. Technical, commercial, and occupational teachers numbered 529 at the first summer course and 247 at the winter session, a net increase of 229 over the previous year. A total of 310 teachers holding certificates valid in elementary schools obtained qualification as teachers in the secondary schools by attending the Regular Eight-week Summer Course. In the summer of 1963, one new course was offered in Physical Education for female elementary-school teachers who wished to qualify for secondary-school teaching by obtaining standing in Physical Education and a university degree—the latter through extra-mural and summer school study. In this course, 39 teachers were registered.

In all courses, the number of secondary school teachers taking initial courses of training in 1963-64 was 3,401—an increase of 695 over the total for the previous year. Such is the increase in pupil enrolment that approximately one-fifth of all secondary-school teachers now employed have taken initial courses of training in the summer or winter session immediately preceding their work in the schools. The Ontario College of Education supervised in first, completing, intermediate, and specialist courses a total of 6,027 teachers in the summer of 1963.

Letters of Permission, issued to secondary-school boards of trustees on behalf of secondary-school teachers not holding basic secondary-school teaching certificates, totalled 1,238 as of November 30, 1963.

NEW CONSTRUCTION

Plans are now completed for a College of Education to be erected on a site near the University of Western Ontario at London. It is expected that tenders for the construction of a building will be called for early in the new year and that the building will be completed in the fall of 1965. Initial capacity at this new College of Education will be 600 students and future expansion to accommodate a total of 1,200 students will be possible.

Plans are under way for a building for the Sudbury Teachers' College. It is hoped that this building will be ready for occupancy by the autumn of 1965.

COMMONWEALTH AID

During the past school year, two members of the Teacher Education Branch continued to serve on leave of absence through the External Aid Office of the Government of Canada, one at the Batu Lintang Training College at Sarawak,

and one at the Wesley College Training School in Kumasi, Ghana. Last September, two staff members began service under the same programme, one in the West Indies Federation and the other in Uganda.

The Registrar's Branch

GRADE 13 DEPARTMENTAL EXAMINATIONS

The problem of obtaining early release of the Grade 13 examination results continues to receive a great deal of attention. In 1963 the results were issued earlier than usual through the expedient of having the examinations and the marking begin several days earlier than usual. The resulting shortening of the teaching year and the provision of double pay for teachers who marked during the month of June were unsatisfactory features of this plan.

TEACHER CERTIFICATION

During the year 1963 two new types of basic teaching certificates were introduced. The Elementary-School Teacher's Certificate (French Only) was made available to qualified French-speaking teachers from outside the Province for the purpose of teaching only French to English-speaking pupils in the elementary schools. Provision was made whereby these teachers may, by passing certain Teachers' College examinations, become qualified to teach all subjects of the elementary school to English-speaking pupils. Complementary to the introduction of the Reorganized Programme in the Secondary Schools, the Occupational Certificate, on both the regular and the specialist levels, was established. In addition to those teachers who become eligible through attendance at several Summer Courses, teachers who have already taken training which is relevant to the occupational programme may obtain the Occupational Certificate with a minimum of additional training.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank, have been in operation for sixteen years. In the year 1962-63, the sum of \$21,758.50 was paid to 874 students, of whom 569 reside east of Sault Ste. Marie and 305 reside west of that city. Of those receiving assistance, 287 were in the first year, 208 in the second, 222 in the third, 124 in the fourth, 29 in the fifth, and 4 in the sixth.

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1962-63, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to Miss Catherine Healey, Hon. J. C. Patterson Collegiate Institute, Windsor; Mr. Roy A. Jackman, Northview Heights Collegiate Institute, North York; Mr. G. R. Lambert, R. H. King Collegiate Institute, Scarborough; and Mr. E. B. Misener, Kipling Grove Public School, Etobicoke.

TEACHER EXCHANGE

During the school year 1962-63 a total of nineteen Ontario teachers were on exchange—eighteen in the United Kingdom and one in Australia.

Technological and Trades Training

TECHNICAL INSTITUTES

The Technical Institutes, organized under the Department of Education Act and operated under Advisory Committees approved by the Department, offer advanced technological education beyond the secondary school level.

Five Institutes of Technology—Ryerson Institute of Technology, Toronto; Hamilton Institute of Technology; Eastern Ontario Institute of Technology, Ottawa; Western Ontario Institute of Technology, Windsor; and the Northern Ontario Institute of Technology, Kirkland Lake, provide three-year programmes leading to employment in business and industrial occupations. They also offer evening classes for employed persons who wish to improve their education.

In September, 1961, the H. B. Beal Secondary School, London, offered the common first year technical institute course, followed in the past two years by one or more secondary schools in the Township of North York, Toronto, Sarnia and Sault Ste. Marie. Successful students from this programme are accepted into the second year of certain diploma courses in the Provincial Institutes of Technology.

The Provincial Institute of Mining at Haileybury has extended its two-year Diploma Course to three years, to permit greater emphasis in the technological subjects relating to mining. The graduates of this institute are regarded highly by the mining industry.

The Northern Ontario Institute of Technology at Kirkland Lake began operation in September, 1962, in temporary buildings. A new building for the Institute was officially opened on June 5, 1963.

On September 30, 1963, there were 4,499 full-time students enrolled in the day courses of the six Provincial Institutes of Technology, and on November 1, 1963, 5,638 students in the evening courses.

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

Although the Lakehead College of Arts, Science and Technology, Port Arthur, now operates under a Board of Governors, it continues to receive financial assistance from the Ontario Department of Education. This Institution offers two-year university courses in arts and science and conducts two-year technological courses in forestry, mining, and industrial chemistry.

PROVINCIAL INSTITUTES OF TRADES

There are now three Institutes of Trades in operation in Toronto, namely, the Provincial Institute of Trades, the Provincial Institute of Automotive and Allied Trades, and the Provincial Institute of Trades and Occupations. These Institutes provide courses for apprentices in trades designated under the Apprenticeship Act of the Department of Labour of the Province of Ontario, and in the non-designated trades under the Federal-Provincial Training Programme 5. The total enrolments on October 31, 1963, were as follows: Apprentices, 703; Under Programme 5, 595; Evening Courses, 2,575; Fee paying students, 124.

The new Trade Institutes in Ottawa and London are approximately 65 per cent complete as of December, 1963, and it is expected that these Institutes will begin operation in September, 1964. A new Trade Institute in Sault Ste. Marie is under construction and should open in 1965. New Trade Institutes, to be located in Hamilton and in the Welland District, are in the planning stage.

Curriculum and Text-Books

CURRICULUM

The preparation of new courses of study, the interpretation of these courses to the teaching profession and the public, and the preparation of suitable text-books are major activities of the Curriculum and Text-Books Branch. In this work, officials have the assistance of committees representative of all levels of the educational system. The advice of other individuals, groups and organizations is sought when changes are contemplated. Officials of the Branch participate in curriculum improvement and development work in local areas, and at conferences, conventions, and workshops, at the provincial, national and international levels.

During the year, new courses of study were developed for the Four-year Programme in the Arts and Science Branch of the secondary schools. Courses have been completed in Theatre Arts, Speech Arts, and Modern Literature. Other courses are well advanced in Biology, Geology, Politics and Economics, and Man in Contemporary Society. Some of these subjects are being introduced into the schools of the Province for the first time, and should increase the range of interest from which a selection of options may be made for students in Grades 11 and 12.

Other new courses were completed for Biology and Physics at Grade 13 level; for Mathematics for each of Grades 7 and 11; for the Business and Commerce Branch; and for the Science, Technology, and Trades Branch for Grades 9 to 12. Work is progressing on revisions for Chemistry in Grades 11 and 13, English for Grades 7 and 8, Home Economics for Grades 7 to 12. Health for Grades 7 to 12, Spanish for Grades 10 to 13, and Mathematics for Grades 8 to 10 and 12 and 13. The work of revision of the programme for kindergarten and Grades 1 to 6 will be accelerated with the completion of courses for the reorganization in the secondary school. A committee has been appointed to study and make recommendations on the best means of achieving an effective, integrated programme of French language instruction for English-speaking students in the elementary and secondary schools. The committee will consider aims and objectives, courses of study, differing approaches to the teaching of the subject, teaching aids including language laboratories, text-books, testing methods from the beginning of instruction through Grade 13.

A major characteristic of curriculum development at the present time is the number of new instructional techniques which are being advanced. Among these are programmed instruction, team teaching and educational television. The Curriculum Branch is involved in the examination and assessment of these developments and their implications for the school programme.

The Branch co-operates with a large number of organizations interested in the programme in the schools. For example, representatives of the Department play an active role on the Board of Governors and the Executive Committee of the Ontario Curriculum Institute; they assist in the editing of *WORLD REVIEW*, issued by the United Nations Association of Canada, for the use of students; they offer advice about the weekly current events broadcast to the schools by the Canadian Broadcasting Corporation; act as consultants in such areas as French language and Mathematics for educational programmes for the Corporation; and serve on a committee interested in the work of the Albion Hills Conservation School organized by the Metropolitan Toronto and Region Conservation Authority. Several other groups show a special interest in the booklets issued annually by the Department to assist teachers with the programmes for Commonwealth Day and Remembrance Day in the schools.

TEXT-BOOKS

Each year, lists of text-books approved for use in the schools of the Province are published in Circular 14 and two or three Supplements to this Circular. Text-books submitted for consideration for listing must meet the highest standards of content, style, method, format, illustration, caption, cartography, printing and binding. Significant progress has been made in the development of texts by Canadian authors. The policy of multiple listing of texts is a compromise between unrestricted freedom of selection and the rigid pattern of a single text for each subject in each grade. It permits teachers to make better provision for students who vary in ability, interest, and aptitude. Continuing improvement of texts is possible since it is expected that each new approved text will be superior in several ways to those already on the list. In addition, it is important that the latest and newest developments in the subject areas be introduced as soon as possible if the content is to be kept up to date. The policy of multiple listing ensures these advantages.

Since 1951, school boards have been able to provide some or all texts for students in Grades 9 and 10 and receive a reimbursement grant of up to \$3.00 per student of average daily attendance for the preceding year on expenditures made by boards for this purpose. The success of the plan for the provision of some texts in Grades 9 and 10 and of all texts in Grades 1 to 8 resulted in the announcement that, effective in September, 1964, boards will be required to provide all texts in Grades 9 and 10, without direct charge to the student. Most boards have built up a supply of some texts through the grant paid in previous years. To assist boards to provide all texts in Grades 9 and 10, a grant of \$12.00 per student of average daily attendance for the previous year will be paid in the initial year of the plan and a regular grant of \$6.00 per student of average daily attendance in succeeding years. It is expected that many of the problems of availability, distribution and supply of texts, will be overcome by the new policy.

Professional Development Branch

SERVICES

The Professional Development Branch promotes the concept of in-service growth among elementary school teachers and assists in providing the opportunities by which such growth may occur. Assistance is given to inspectors and to teachers' groups in preparing outlines for short courses and in organizing and conducting institutes, workshops, conferences, and seminars designed to improve professional competence. In 1963, Branch officials participated in 69 of these sessions as speakers and consultants.

Each winter large numbers of teachers attend non-certificate in-service courses which vary in length from a one-day session to extensive programmes which are held one evening per week for most of the school year.

SUMMER COURSES

The Professional Development Branch has general responsibility for the administration and supervision of Department of Education summer courses. In 1963, a record number of 9,970 teachers enrolled in 20 types of courses in 40 summer schools in 20 Ontario communities. A staff of 558 full-time and 106 part-time teachers was employed.

In addition to offering a larger number of the established courses two new courses were instituted to fill particular needs within the educational programme: Teaching French to English-speaking Pupils in Elementary Schools, and Intermediate Division Mathematics.

Schools Attended by French-Speaking Pupils

TEACHER SUPPLY

On October 15, 1963, there were 482 French-speaking student teachers in attendance at the University of Ottawa Teachers' College and the Sudbury Teachers' College, 87 of whom were enrolled in the course leading to the Interim Elementary School Teacher's Certificate, and 295 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First and Second Class Certificates; in 1963-64, 96.6 per cent of French-speaking teachers hold First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1963, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 6,097. There were, in addition, 5,773 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1963, there were 89,051 French-speaking pupils enrolled in separate and public schools, an increase of 1,102 over the preceding year. The number of French-speaking pupils in kindergarten classes was 7,426.

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1963, was 20. The decrease in enrolment compared to previous years is due to the increasing number of schools being built in remote parts of the Province.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1963, was 1,597, 374, an increase of 68,767 over the preceding year. The elementary schools showed an increase of 36,135, and the secondary schools an increase of 32,632.

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required, unless excused under the provisions of The Schools Administration Act, to attend school from that date until the last school day in June in the calendar year in which they attain the age of sixteen years.

EMPLOYMENT AND HOME PERMITS

The total number of employment certificates issued during the year 1962 was 3,285 and the total number of home permits issued during the same period was 1,524. The total number of cases brought before magistrates was 435, a decrease of 262 over 1961.

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

Art

NEW COURSES FOR THE SENIOR DIVISION

A new programme in art for the Senior Division, Grades 11, 12 and 13 has been prepared and forwarded to secondary schools. The new programme replaces Curriculum S.13, 1959, for Grades 11 and 12, and outlines, for the first time in Ontario, a course for Grade 13. The programme was introduced in Grades 11 and 12 in September, 1962, and has been used in Grade 13 since September, 1963. The first examination in Art for Grade 13 students will appear in June, 1964.

SUMMER COURSES

Courses in art for teachers-in-service were offered in Toronto and North Bay in 1963. The courses in Toronto offered instruction leading to all art certificates,

while in North Bay they led only to the elementary and intermediate part I certificate. A record number of over thirteen hundred teachers availed themselves of the courses in the two centres.

SUPERVISION

Supervision was carried out in all types of classrooms in various parts of the Province. Visits were made to teachers' colleges, collegiate institutes and technical schools and to elementary schools. Reports were prepared for school boards of elementary and secondary schools.

Audio-Visual Education

FILM DISTRIBUTION

Direct service from the Audio-Visual Education Branch to the schools continued at a high level. Screening reports reveal 135,439 showings of films to a total audience of 6,192,668 students during the school year.

Indirect service is maintained with those city schools where boards of education are operating their own film service. Additional assistance was provided to these boards. There are now 23 city-operated film libraries co-operating with the Audio-Visual Branch which has placed 6,139 films on deposit with these libraries.

NEW FILMS

As courses of study are constantly being revised, new films are added. Ninety new titles have been purchased since the last Supplement to the Visual Education catalogue was published. It has been found necessary to purchase a second set of the Biology films at the secondary level.

SUMMER COURSES AND IN-SERVICE TRAINING

Increased professional competence in classroom utilization of all types of Audio-Visual aids resulted in four summer courses offered at Toronto, Cornwall, Kitchener and Kirkland Lake. Wider acceptance of these courses was reflected in 25 per cent increased enrolment of Ontario teachers.

During the school year, assistance in organizing local in-service training programmes was offered by the Branch. Successful evening sessions were held in several centres.

SCHOOL RADIO BROADCASTS

Through the co-operation of the Canadian Broadcasting Corporation and its network of private stations, 173 school broadcasts were prepared and presented to the pupils in the elementary and secondary schools of Ontario. In addition, thirty-five National broadcasts, fourteen exchange programmes from the British Broadcasting Corporation, and five from the Australian Broadcasting Commission were offered. Evaluations compiled from surveys in selected areas of the Province indicate that radio broadcasts continue to make a worthwhile contribution.

In September, radio manuals outlining the series of presentations were distributed to all Ontario teachers. Statistics report 19,717 classrooms in the elementary schools served by central sound systems and 12,075 radios owned by schools. In the secondary schools, 12,202 classrooms were served by central sound systems and 616 classrooms report radios available.

EDUCATIONAL TELEVISION

Ontario schools were encouraged to make use of the National programmes which were offered on Tuesdays and Thursdays. The Metropolitan Educational

Television Association continued to provide broadcasts on alternate weekdays. Further investigation into developments in Great Britain and the United States, and other provinces was made. The facilities of Ryerson Institute of Technology were used to provide an ETV training workshop in July.

Auxiliary Education Services

SERVICES

The Auxiliary Education Services Division is concerned with the educational growth of all school-age exceptional children. Exceptional children are those, who, for physical, intellectual, or social reasons, are in need of a modified or special educational programme. Such children include those of limited intellectual ability; those who are superior in learning capacity; those who are socially immature; those with orthopaedic, neurological, physical, or speech disability; and those who are severely educationally retarded.

During the 1962-63 school year, the staff of the Auxiliary Education Division assisted local school authorities through (1) 435 visits to special classes, special teachers and schools where units are established in order to assist the teachers concerned, (2) work with 169 individual children referred for assistance in the diagnosis of the problem and the development of an appropriate educational programme, (3) assistance in the establishment of new services through (a) the organization of 28 surveys, (b) the assessment of children, (c) working with the local staff and school board, and (4) participation in fifteen in-service training programmes for teachers on special education topics, not only as they affect special classes but also atypical pupils in regular grades.

At the request of the Department of Reform Institutions, Auxiliary Education Division Inspectors visited eight Reform Institutions to make suggestions regarding educational programmes. Five of the Teachers' Colleges were visited upon invitations from the Principals to outline to students Auxiliary services that are available to assist them when they commence their teaching careers. Other activities included visits to Occupational Classes in the Secondary Schools, participation in educational conferences, and the revision of Auxiliary Education Advisements which are made available to any teacher upon request.

The Division maintains a library of approximately 6,600 magnatype books to assist pupils with limited vision, as well as a large professional library for the use of teachers and inspectors. Such books are lent free of charge.

SUMMER COURSE TRAINING

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered to all teachers and principals. A total of 981 enrolled in these courses held at Toronto and Pembroke, an increase of 85 over the previous year. Nine different options were offered covering various phases of the education of exceptional children. One hundred and eight teachers completed the summer school attendance requirements for the Specialist Certificate in Auxiliary Education.

TRAINABLE RETARDED CHILDREN

In 1963, school attendance grants were paid to 84 local associations for retarded children, affiliated with the Ontario Association for Retarded Children. All of the classes were visited by a Special Services Inspector for the purpose of assisting the teachers in organizing and conducting classroom programmes.

The Department of Education conducted a five-week summer course for teachers of trainable retarded children and 53 teachers attended the course.

Community Programmes

SERVICES

The services of the Community Programmes Branch are conducted through two categories of staff members who work in close co-operation with municipal recreation committees, school boards, provincial, national and community organizations. Representatives located in District Offices at Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa and Toronto made 2,240 visits to Ontario municipalities to provide assistance, advice and resources for programmes of adult education and recreation. Working out of the central office in Toronto, special advisers in the fields of art, crafts, drama, music, puppetry, programmes for older people, rural programmes, recreation buildings and areas, made 745 visits to Ontario municipalities to provide leadership, advice and resource aids for programmes of adult education and recreation. In order to make resource materials available for community use, the Branch staff produces a number of publications and maintains a loan service in drama, music, films, slides and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in this field. To meet the increased demand for competently trained recreation personnel, a two-year diploma course was introduced at the Federated Colleges, Guelph, in September, 1963. Thirty-three students enrolled. The in-service training course administered through the Extension Department of the University of Western Ontario will continue until 1965. There are 156 students enrolled in this type of training. In the last ten years, 218 Interim Certificates and 92 Permanent Certificates have been issued to individuals who qualified through the in-service training course.

RECREATION DEVELOPMENT

Ontario Regulation 92/60 provides provincial grants to municipalities which establish, through a by-law, a municipal recreation committee to conduct or assist local programmes. Between 1955 and 1962, the number of participating municipalities increased from 255 to 358 and grants paid increased from \$364,465 to \$640,983. There were 109 full-time recreation directors as well as 223 assistant directors employed by Ontario municipalities. Twelve provincial organizations providing programmes of adult education and recreation were paid grants in the amount of \$19,000.

LEADERSHIP TRAINING

Leadership has long been recognized by educators as the most important element in adult education and in organized leisure-time activities. One of the primary roles of the Community Programmes Branch is the provision of assistance to communities and groups in the development of administrative and activity leaders, night-school teachers, and skill instructors for many types of community groups.

The training that the Branch provides, or sponsors in co-operation with one or more communities, is designed to increase the number of capable leaders in physical, social, creative and intellectual activities. Emphasis is placed on the techniques of instruction and programme planning, the process of learning, the philosophy of recreation and adult education. The Branch is continuing to develop series of courses at community, area (two or more communities), district (several areas), and provincial levels. At each level, leaders are selected and receive progressive training in both skill and leadership techniques. In 1963, the Branch provided 289 courses for 11,142 leaders.

CO-OPERATION

In order to provide the most efficient service, the Community Programmes Branch works in co-operation with the following agencies: The Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Ontario Federation of Catholic Parent-Teacher Associations; University Extension Departments; Ontario Federation of Agriculture; Indian Affairs Branch; Indian-Eskimo Association; Ontario Recreation Association; Society of Directors of Municipal Recreation of Ontario; Ontario Folk School Council; Ontario Camping Association; Ontario Field Naturalists; various sports associations; and several Branches of other Provincial Departments.

FITNESS AND AMATEUR SPORT

The Fitness and Amateur Sport Programme is administered jointly by the Physical and Health Education Branch and the Community Programmes Branch. In 1963, bursaries in the amount of \$35,000 were provided for students enrolled in physical education and recreation courses. There were nineteen projects organized to assist municipalities in the development and training of their leaders and coaches.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Division provides Correspondence Courses for Ontario persons who are unable to attend school. During 1963, over 13,500 persons submitted applications for enrolment. The age-group from which the greatest number of applications was received was that of persons between the ages of 20 and 24. Applications from students under the age of 16, unable to attend school because of temporary absence from Ontario, distance from school, or illness, constituted only a small part of the total number of applications received.

The courses which are offered are academic subjects for Grades 1 to 13 (the courses at the elementary school level include courses in English for English-speaking children, bilingual courses for French-speaking children, and courses for adults) and ten trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice. All academic courses are free to residents of Ontario wherever they may be living. Trades courses are available to residents of all provinces at \$10 a course.

ENROLMENT

Enrolment of children in the elementary grades continues to decrease, while enrolment of adults in both elementary and secondary grades continues to increase, with enrolment in Grade 13 being much greater than the enrolment in any other grade.

The number of students actively working in Correspondence Courses is constantly changing, and a figure which gives the number of active students on only one particular date does not reflect this change. The number of active students is recorded weekly, and from these figures average enrolment for the school year is calculated. For the school year 1962-63, the average enrolment was 6,184 students, made up of 208 students enrolled in English elementary courses for children, 13 students enrolled in bilingual elementary courses, 368 students enrolled in elementary adult courses, 5,512 students enrolled in secondary academic courses and 83 students enrolled in trades courses. The maximum active enrolment for the school year was 7,764, on April 26, 1963.

The number of lessons marked during the 1962-63 school year was 151,812.

CERTIFICATES AND STANDING

In June, 1963, students prepared through Correspondence Courses wrote 1,544 Grade 13 Departmental Examination papers and were successful in 1,067; that is, students were successful in 69 per cent of the papers written. During the year July 1, 1962, to June 30, 1963, 361 Statements of Grade 12 Standing, 985 certificates covering subjects in other secondary grades, and 49 trades courses certificates were issued. Elementary school courses were completed by 160 adults, and 131 elementary school children were promoted.

Guidance Services

GROWTH

Because of the continuing and increasing need for adequate personal, educational, and vocational guidance services for Ontario students, the Guidance Services Division of the Department is being expanded steadily to provide greater assistance to counsellors on the job, to improve the selection and training of counsellors, and to achieve a more satisfactory standard of service for students in the schools of this Province.

SUPERVISION AND TRAINING

During the past year members of the Guidance Services Division inspected the work of more than 1,500 counsellors and teachers involved in school guidance programmes, and gave leadership at sixteen professional development conferences.

At the Department of Education's 1963 summer courses in Guidance, additions and modifications in course content were made to meet the needs of counsellors working specifically in the elementary schools. Additional emphasis was placed upon the theoretical and practical preparation for counselling. Courses were offered at Dryden, Windsor, and Toronto, and registrations at these centres were respectively 51, 160, and 521. The total enrolment of 732 was 24 per cent higher than that of any previous year.

In-service training courses in testing, counselling, and other aspects of the guidance programme were held in co-operation with elementary and secondary school inspectors and principals for more than 1,200 teachers at eighteen centres across Ontario.

Members of the Guidance Services Division again co-operated in programmes of teacher education and development conducted during 1963 by the Ontario College of Education and the Secondary Education Branch.

RELATED ACTIVITIES

The work of the Guidance Services Division in the year under review embodied the following additional features: co-operation in the production of a series of radio broadcasts on Guidance and a series of telecasts on Careers; co-operation with the Curriculum Branch in development of courses allied to Guidance; contribution to programmes of the first National Seminar on Guidance and Counselling, the Ontario Education Association's Personnel and Guidance Section, the Fifth International Guidance Conference, the University-Secondary School conferences at Hamilton, London and Toronto, the autumn conferences of Elementary School Inspectors and Teachers' College Staffs, the Ontario Association for Curriculum Development and many other parent associations and teacher groups; guidance to visiting teachers from overseas; liaison conferences with representatives of the University Women's Club, the Ontario Hospital Services, the Canadian Council of Churches, the Ontario Chamber of Commerce, the National Employment Service, the Canadian Association for Adult Education, the University Counselling and Placement Association and the Industrial Foundation on Education.

Although the work of the Guidance Services Division has many facets, its major concern continues to be the improvement of the quality of school guidance programmes to the end that the individual student in Ontario schools may receive greater assistance towards educational and vocational success.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 76 per cent of the elementary schools of the Province. Music was also taught in 320 secondary schools. There were 315 school choirs, 208 bands and 115 orchestras in these schools; 27 Gilbert and Sullivan operettas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 150 centres with more than 60,000 pupils participating.

TEACHER TRAINING

There were 1,276 certificated music teachers and supervisors engaged in the elementary schools and 451 in the secondary schools of the Province during the school year 1962-63. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 716 teachers at the summer courses in music in 1963.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1963, Grade 12 standing was attained by 3,568 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 569 pupils who tried the Departmental Grade 13 examinations and by 1,379 pupils who presented equivalent certificates.

RADIO

Twenty-four music broadcasts were presented in four series during January, February, March, and April. "Primary School Music", five 15-minute programmes for Grades 1 to 3; "Junior School Music", five 15-minute programmes for Grades 4 to 6; "Music for Young Folk", nine 30-minute programmes for Grades 7 to 10; and "Ontario Sings", five 15-minute programmes for Grades 5 to 8 were broadcast, with commentary prepared and given in each case by the Music Branch of the Department of Education.

Ontario School for the Blind

ENROLMENT

A record number of 245 students was enrolled at the Ontario School for the Blind, Brantford, in September, 1963. The 1962-63 school year began with 240 students in attendance but 29 withdrew, either during the year or in June—7 by graduation and the others to seek employment, attend other schools or for other reasons. Following the summer vacation 34 students, new to the school, were admitted—22 as beginners in Grade 1 and 12 distributed through Grades 2 to 9. The 1962-63 enrolment is made up of 140 boys and 105 girls with 193 being Ontario residents while 7 are from Alberta, 22 from Saskatchewan, 17 from Manitoba, 4 from Quebec and 2 are Eskimo children. The youngest are 6 years of age while five are over 21 years and are attending by special permission due to unusual circumstances.

PROGRAMME

The programme offered is basically academic and follows the Ontario Courses of Study for Grades 1 to 12 inclusive. Opportunity is given for students to achieve Grade 12 graduation with four, five or six options. In the provision of courses, consideration is given to those students who will continue beyond Grade 12 and to those who will terminate their formal schooling either at Grade 12 or at Grade 10. Small classes make it possible to serve the needs and develop the abilities of the individual student.

In addition to the regular academic courses all students take vocational subjects. Typing is introduced in Grade 7 and continues through Grade 12. Home economics and crafts for girls and industrial shop for boys are begun in Grade 6 and continue through Grade 12. Piano tuning for boys begins in Grade 9.

Music is an integral part of the work of the school. Classroom singing and music appreciation begin in Grade 1 and carry on throughout the entire elementary and secondary school. Individual instrumental lessons begin at Grade 4 and vocal talent is developed as it appears. Choirs and orchestras are formed. Participation in music festivals is encouraged and students take Royal Conservatory examinations.

An active physical education programme operates throughout the school providing a wide variety of developmental and recreational activities both in the gymnasium and classrooms, and on the playgrounds and school rink. Organized clubs at various age levels pursue extra-curricular social, recreational and educational objectives. The students attend a wide variety of cultural programmes available in the city.

GRADUATES

Thirty-two students graduated from Grade 12 during the last four years—seven in June, 1963. Of these, twelve are presently attending university, three are home teachers of the blind, four are dictaphone-typists, five are tuning pianos, and the others are employed in industry or in canteen work.

NEW DORMITORY

Approval has been given and plans prepared for the construction of an additional boys' dormitory with living accommodations for sixty boys and the resident supervisory staff. When this building is completed it will relieve the overcrowding in the present boys' dormitory and provide for the steadily increasing enrolment.

Ontario School for the Deaf, Belleville

ENROLMENT

The transfer from the Ontario School for the Deaf, Belleville, of 84 junior pupils from southwestern Ontario to the new school at Milton after Easter, 1963, has made it possible to restore the age of admission to five years and to discontinue the temporary use of a playroom as a dormitory. Sixty-five beginners, ages five to eight years, were enrolled in Belleville in September in seven beginning classes. The enrolment on October 15, 1963, was 514 pupils (292 boys and 222 girls) all from Ontario and distributed as follows: Junior School 211, Intermediate School 101, Senior School 202. The total enrolment is still considerably above the normal capacity of the present facilities of the school. The proportion of senior students has increased significantly over last year since only junior pupils were transferred to Milton. These conditions will continue until the opening of the intermediate and senior facilities at Milton.

PROGRAMME

The comprehensive educational programme aims to meet the academic, vocational, and social needs of deaf and severely hard-of-hearing children from five to twenty years of age. In the junior grades, vocabulary, and language development are emphasized. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. An extensive programme of physical education, inter-school athletics, cultural, social, and recreational activities is carried on throughout the school year. Religious instruction is provided by the teachers assisted by local clergymen. Hobby clubs, Boy Scout, Wolf Cub, Girl Guide, and Brownie groups provide valuable training for 250 students under the leadership of 28 teachers. The after-school recreational programme also conducted by teachers provides planned activities for 400 students. Weekly curling at the Quinte Curling Club, swimming at the Albert College pool, and skating at the Belleville arena continue to be popular. The extra-curricular course in driver instruction for senior students has been expanded to include thirty-two students with three teachers as qualified instructors using two cars supplied by local dealers.

The new Boys' Vocational building which was built under the Federal-Provincial Technical and Vocational training agreement is almost complete. Some equipment from present shops and much new equipment has been installed ready for occupancy in January, 1964. Three additional vocational teachers were added to the staff in September. In addition to expansion of present courses, the new facilities and instructors will provide new courses in auto-body repair, wood and metal finishing, more advanced work in welding and machine shop, and the addition of offset processes to the printing courses. Within the limits of accommodation and trained staff, the school programme is moving towards the provision of more varied and complete academic and vocational training to prepare students to compete for employment with hearing persons for whom these basic necessities are also being extended. As well, more students are being prepared for further academic studies or vocational training after graduation.

IMPROVEMENTS

Several improvements have been made to buildings and grounds during the past year. New rubber tile floors were laid in the dining room and corridors of the main school building replacing original linoleum installed in 1922. Linoleum tile floors were laid in all dormitories of the senior girls' residence and it was re-wired. Asphalt was laid to provide dry play areas to the north and south of the senior boys' residence. An engineering and landscaping survey was carried out and plans were prepared for several stages of development of drainage and landscaping. Tenders were called for the first stage to improve drainage to the north and west of the junior school and residence.

Ontario School for the Deaf, Milton

ACCOMMODATION AND ENROLMENT

Stage one of a building programme, designed to provide complete academic, vocational and residential facilities for the deaf and hard-of-hearing children in Western Ontario, was completed in April. The new junior school and children's residence at Milton opened its doors to 84 children 9 to 12 years of age who were transferred from the Ontario School for the Deaf, Belleville, April 22, 1963. With the children came ten qualified teachers, their supervising teacher, two supervising house-parents and other key personnel for training purposes.

During the period from April to August, additional staff were trained to operate each part of the new school—a 32-bed hospital, a 42-bed staff residence, a laundry, kitchen and dining facilities, an administrative unit, and a power house

which provides heat, light and emergency power to the whole school. In September, by the admission of beginning children who were 5 years of age or over, the enrolment climbed to 159.

SERVICES

In September, 1963, the school's audiological clinic opened and this is helping to serve the school and the Province by giving hearing and psychological evaluation to children. Qualified staff members are also available to do testing in children's homes, and in temporary clinics at health centres and schools if the children cannot be brought to the school. Another innovation in September was the commencement of the home-visiting programme, whereby a trained teacher visits homes to assist parents in the proper training of children who have been diagnosed as hearing impaired and who may later be enrolled at the School. For the parents of these children in Milton and nearby communities, this teacher holds two weekly clinics at the School for the Deaf.

Physical and Health Education

SERVICES

The Physical and Health Education Branch is responsible for the supervision of the Physical and Health Education programmes in the schools of the Province, for the operation and administration of two centres devoted to the development of leadership potential of selected secondary school students, and for summer courses and in-service training courses for teachers of physical and health education. The Branch also serves as liaison for the Department of Education with military services and school cadets, non-profit camping organizations and other Physical Education or Health agencies. The Physical Education Branch and the Community Programmes Branch work together to provide the citizens of the Province with a continuing programme of activities. These two Branches are responsible for the provincial implementation of co-operative planning with the Federal Government in the areas of fitness and amateur sport.

The growing awareness of the importance of Physical and Health Education has found expression in a number of ways. The enrolment in Physical Education summer courses showed an increase of approximately 17 per cent over the previous year. More inspectors were appointed to the Physical and Health Education Branch. Bursaries and scholarships were made available to students in Physical and Health Education undergraduate courses as part of the Province's programme of fitness and amateur sport. The Physical Education Branch has co-operated with the Curriculum Branch in the formation of a curriculum committee to study the course of study in Health which is presently being followed in Ontario schools. The Department of Education exhibit at the Canadian National Exhibition featured activities related to the Physical Education programme of the schools. The Department of Education, through the Physical and Health Education Branch, is continuing to expand its services as a clearing-house for information related to all physical and health activities of the citizens of the Province.

ONTARIO ATHLETIC LEADERSHIP CAMP

A total of 768 Grade 11 students representing 487 secondary schools of the Province attended the Ontario Athletic Leadership Camp at Longford Mills. One boy and one girl from each secondary school in the Province is eligible to attend the intensive two-week leadership course. Although the size of the camp has been increased there is still not enough room for all applicants. It is encouraging to note the development of the students' leadership potential during the course and its implementation in later life. The facilities of the camp are used by many adult organizations during the year for educational leadership conferences.

ONTARIO CAMP LEADERSHIP CENTRE

There were 280 leaders-in-training who attended the three courses conducted at the Ontario Camp Leadership Centre, Irondale. These students, who are recommended for attendance by the directors of non-profit camps throughout the Province, follow a programme designed to provide them with the techniques and skills of camping and also the techniques and skills of leadership. When they return to their sponsoring camp they are prepared to make a significant contribution to the programme.

The seventh annual Workshop for Directors of Non-Profit Camps was held in June. The programme was expanded from a two-day to a three-day session at the request of the Directors. Every part of the Province was represented in the group of over 125.

GRANTS TO NON-PROFIT CAMPS

Grants are paid to non-profit camps in accordance with the regulations, as a token of the Department of Education's interest in the educational values of a progressive, challenging programme.

During the last fiscal year the Province awarded \$52,000 in grants.

Provincial Library Service

PUBLIC LIBRARY DEVELOPMENT

New legislation was introduced in the year under review to provide for the establishment of a regional library co-operative in three or more counties. Two regional library co-operatives were formed in 1963, one in the southwestern region comprising the Counties of Essex, Kent, and Lambton, and one in the Niagara region including the Counties of Welland, Lincoln, and Haldimand. A public library was formed for the County of Middlesex, and municipal public libraries were organized in Larder Lake, Orono, Hawkesbury, Dorion, Sturgeon Falls, and Nepean Township. Several new or renovated library buildings were opened, the largest being the central building of the Toronto Township Public Library. The legislative vote for assistance grants to public libraries was increased to \$2,475,000.

USE OF LIBRARIES

Circulation of books in 1962 reached 37,000,000, an increase of 10 per cent over the previous year. Total circulation, including use of reference books, films, and other materials, was 38,543,615. Public library expenditure for the Province exceeded \$2.00 per capita in 1962.

LIBRARIANSHIP

Increased enrolment was reported for courses leading to the Bachelor of Library Science degree, with 85 students graduating from the Library School at the University of Toronto.

PROVINCIAL SERVICE

The staff of the Provincial Library Service continued its work of assisting library development. Workshops and conferences were sponsored, the quarterly magazine **The Ontario Library Review** was published, and inquiries regarding legislation and other subjects answered. A fire which partially destroyed the quarters early in the year required the obtaining of new offices and library. The service of the library, which includes a Teachers' Reference section, and the Travelling Libraries shipments to rural schools, was interrupted in the spring, but re-established in the fall.

In Memoriam

CULHAM, Thomas A., B.A., M.A., Ph.D., Head of the English Department of the Eastern Ontario Institute of Technology, Ottawa, died suddenly on November 6, 1963. Dr. Culham was born in Barrie, Ontario, and received his early education in Western Canada. He served in the R.C.M.P. from 1919 to 1925 and from 1932 to 1955. He received his B.A. degree from St. Patrick's College, Ottawa, and his M.A. and Ph.D. degrees from the University of Ottawa. He taught English and Civics at the Kemptville Agricultural School from 1955 until 1959, at which time he joined the staff of the Eastern Ontario Institute of Technology. Dr. Culham was highly respected by his students, and members of the Faculty.

N. DAVIES, B.A., who retired on June 30, 1962, from the position of Secondary School Inspector, died on February 19, 1963. A tribute to his service was given in the 1962 Report of the Minister.

MISS MARGARET EPP, B.A., Master and Dean of Women at the London Teachers' College, died in Victoria Hospital in London on December 19, 1963. Born in Russia in 1914, Miss Epp came to Canada at an early age. She began her teaching career in the Province of Saskatchewan and later taught in Port Colborne, St. Catharines, St. Mary's and Kitchener. A graduate of the University of Western Ontario, Miss Epp was on the staff of the Kitchener-Waterloo Collegiate and Vocational School prior to her appointment to the staff of the London Teachers' College in 1960. Her teaching ability, wise counsel and fine personal qualities will long be remembered by former students, friends and associates who mourn her untimely passing.

GEORGE S. JOHNSON, B.A., who retired from the position of Public School Inspector for the Inspectorate of District Division No. 17 at Bracebridge on August 31, 1951, died on May 12, 1962. A tribute to his service was given in the 1951 Report of the Minister.

COLIN W. LEES, B.A., B.Paed., who retired from the position of Inspector of Public Schools for Victoria No. 3 on October 25, 1959, died on January 7, 1963. A tribute to his service was given in the 1959 Report of the Minister.

ROBERT SAMUEL MCBURNEY, B.A., B.Paed., who retired on June 14, 1960, as Inspector of Public Schools for Kenora No. 1, died in Lindsay on Wednesday, September 25, 1963. Tribute was paid to Mr. McBurney in the 1960 Report of the Minister.

ERNEST R. McCLELLAN, B.S.A., District Secondary School Inspector for Brant, Norfolk, Oxford, Perth and Haldimand Counties, died on March 12, 1963, at the Woodstock General Hospital. Mr. McClellan was born in Brant County where he received his elementary and secondary education. He then proceeded to the Ontario Agricultural College at Guelph where he graduated with degree of B.S.A. in 1930. After four years on the staff of the Ontario Department of Agriculture, he attended the Ontario College of Education and pursued a highly successful teaching career in Port Credit and Simcoe which culminated in his appointment as Principal of the Port Perry District High School in 1939. In 1945 he was appointed a Secondary School Inspector and was attached to the head office in Toronto. In 1954 he moved to Woodstock as Resident Inspector. Mr. McClellan was a man of great sincerity and educational integrity who enjoyed the respect and affection of his colleagues and of the teachers and principals with whom he worked. Throughout his career he maintained his interest in Agriculture and was largely responsible for the new courses in scientific agriculture which form a part of the revised programme of studies in secondary schools.

LESLIE P. MENZIES, B.A., B.Paed., who retired on August 31, 1957, as Inspector of Public Schools for Wellington No. 1, died on September 15, 1962. The 1957 Report of the Minister gave a tribute to his service.

HENRY J. PAYETTE, B.A., who retired as Separate School Inspector of Chatham Division on August 31, 1962, died on July 8, 1963. A tribute to Mr. Payette's service was given in the 1962 Report of the Minister.

CECIL ERNEST POTTS, B.A., B.Paed., Inspector of Public Schools, Etobicoke Board of Education, died on March 6, 1963. He attended rural schools in Northumberland County and public and secondary schools in Toronto. After graduation from Toronto Normal School he taught in an ungraded school in Ontario County before becoming a member of the Toronto Public School Staff for the periods 1937-41 and 1945-48. He served with the R.C.A.F. in Canada, the United Kingdom and the United States during the period 1941-45. His B.A., and B.Paed., degrees were obtained from the University of Toronto. In 1948 he became Assistant Public School Inspector for Peel County and in 1949 was appointed Master at Peterborough Normal School. In 1956 he accepted an appointment as Public School Inspector for the City of St. Catharines and in 1958 he moved to Metropolitan Toronto to accept a similar position with the Etobicoke Board of Education. He was co-author of a series of language textbooks for Grades 7 and 8 and a valued member of several Curriculum Revision Committees in the field of English. His enthusiasm for and dedication to teaching were of a high order and his contribution to education, not only in the areas in which he served, but also in the Province as a whole, was outstanding.

Retirements on Superannuation

E. C. ANDERSON, B.A., retired on August 31, 1963, as Inspector of Public Schools for Victoria No. 1 and Peterborough No. 2. Mr. Anderson was born in Lambton County and received his early education in Kirkton, Blyth and London. He attended London Normal School and taught at S.S. No. 3 Keppel in Grey County. During the First World War he enlisted with the 160th Bruce Battalion and served in Canada, England and France until April, 1919. On his return to teaching he became principal of Bobcaygeon Public School, a position he held with distinction for seventeen years. From August, 1941, until August, 1945, during the Second World War, Mr. Anderson served as an Adjutant and Executive Assistant in the Canadian Army and retired with the rank of Major. Mr. Anderson was appointed Public School Inspector on September 1, 1945, in Victoria No. 1. He was highly respected in this area by pupils, teachers and trustees.

J. T. ANDERSON, B.A., retired as Separate School Inspector for Renfrew R.C.S.S. Division on August 22, 1963. His early education was obtained in a rural school in McKillop Township. He then attended Seaforth Collegiate Institute and Stratford Normal School. After five years teaching in both public and separate schools in Western Ontario, he saw service with the 78th Battalion in World War I and was wounded in 1918 at the battle of Cunieus. In 1925, he resumed his education at the University of Western Ontario, obtaining his B.A. degree in 1928. Later he spent six months at the Ontario College of Education and another six months teaching in the Stratford Collegiate Institute. He was appointed as Separate School Inspector in the Renfrew area in 1931, holding this position until his retirement in 1963. His quiet competence and loyal service will be remembered with gratitude.

E. J. DAVIES, B.Sc., retired from the position of Assistant Superintendent of Secondary Education on June 19, 1963. Mr. Davies was born in Ontario, but moved at an early age to Nova Scotia where he received his elementary and secondary education. He served an apprenticeship in a machine shop, followed by several years' service with the Royal Air Force during the First World War.

(continued on page 26)

CHARLES W. BOOTH, B.A., LL.D.

CHARLES W. BOOTH, B.A., LL.D., retired on August 16, 1963, from the position of Deputy Minister of Education for Ontario. Dr. Booth was born in Enterprise, Ontario and spent his boyhood in Northumberland County. He entered Queen's University, and graduated in 1921 with honours in English and History. He spent the following year in the Ontario College of Education, and subsequently obtained a Permanent Specialist's Certificate in English and History and a High School Principal's Certificate. Dr. Booth began his teaching experience on the Toronto Secondary School staff at Riverdale Collegiate Institute. For a period of six years he taught in Windsor Collegiate Institute, then was recalled to Toronto to join the Jarvis Collegiate Institute staff, where he also served as practice teacher for the Ontario College of Education. In 1940, he was appointed Head of the English Department in Lawrence Park Collegiate Institute. There he also acted as school librarian and in 1944 was promoted to the position of Vice-Principal. In 1945 he joined the Department of Education as Provincial Inspector of Secondary Schools. In 1950 he was assigned special administrative duties in the Department, and in 1952 was appointed Assistant Superintendent of Secondary Education. In that capacity he was in charge of general courses and was given major responsibility in organizing the secondary school inspection programme. In 1956, he was appointed Deputy Minister of Education. His record as an educator was recognized in May, 1959, when Queen's University conferred upon him the honorary degree of Doctor of Laws. A man of sound scholarship, generous with his talents, and wise in his judgments, Dr. Booth has made a memorable contribution to education in Ontario both as a teacher and administrator. The best wishes of his associates and former students follow him in his retirement.

(Continued from page 24)

After the war, he returned to Nova Scotia to complete his education at the Halifax Technical Institute and Dalhousie University, where he graduated with a B.Sc. degree. After a successful career as an engineer, he entered the teaching profession. He taught Mathematics, Science and Drafting at the Peterborough Collegiate and Vocational Institute and the Cornwall Collegiate and Vocational Institute where he was Technical Director. In 1938, he became Principal of the Port Arthur Technical High School. Five years later, he became Inspector of Technical subjects for the Department of Education and, in 1957, was appointed Assistant Superintendent of Secondary Education. During his last two years with the Department, Mr. Davies was responsible for administering the Technical and Vocational Training Agreement in Ontario and, in addition, gave substantial guidance to the new secondary school programme. His quiet, kindly, but firm manner, his sound judgment, his effective work and personal integrity have gained for him the lasting respect and gratitude of those with whom he worked.

MILDRED A. FRASER, B.A., retired from the position of Librarian at the Legislative Library on August 31, 1963. Mrs. Fraser was born in Toronto, matriculated from Bishop Strachan School and graduated in English and History from Trinity College. Prior to her marriage she was librarian at the York County Law Association Library. On joining the staff of the Legislative Library in 1932 she took charge of the law room, and in 1949 was appointed Librarian. There are few officials in the Ontario government service or members of the Legislature who have not had occasion to benefit from Mrs. Fraser's great knowledge of the Library's resources and from her keen intellectual curiosity and tenacity in solving a problem. Under her guidance the Legislative Library has made technical strides and enlarged the scope of its services. Her warm and gracious manner has left her with a host of friends in government, educational and legal circles.

ADELARD GASCON, B.A., B.Paed., Ph.D., retired from the position of Separate School Inspector for Ottawa R.C.S.S. Division No. 3 on August 31, 1963. He was a graduate of the University of Ottawa, the University of Ottawa Teachers' College, and the Ontario College of Education. He was successively Principal of St. Charles Separate School at Eastview, professor at the University of Ottawa, and Principal of Garneau Separate School at Ottawa prior to his appointment as Separate School Inspector in 1930 at Cochrane where he served for a period of four years. From 1934 to 1938, he served in the same capacity first at Sudbury, then at Windsor. From 1938 until his retirement he served as an Inspector of the Ottawa Separate Schools. As special assignments, he prepared the bilingual correspondence courses from 1942 to 1945, wrote several French textbooks for use in the bilingual schools, and taught at summer schools for teachers for ten years. On September 1, 1963, he accepted a position with the Department of Northern Affairs and National Resources as Director of the Curriculum Branch. Dr. Gascon carried with him to his new post the high esteem of his colleagues and teachers with whom he was associated in the Province of Ontario.

ROBERT A. JOHNSTON, B.A., B.Paed., retired from the position of Principal of the Toronto Teachers' College on August 31, 1963. Born in Kincardine in Bruce County, Mr. Johnston received his elementary and secondary education there, and later attended the Clinton Model School. After teaching for four years in rural schools, he enrolled at the Toronto Normal School. Upon graduation, he was appointed Vice-principal of Central Public School in Fort William and in two years became its Principal. Ten years later, Mr. Johnston, then a graduate of the University of Toronto, joined the staff of the Port Arthur Technical School where he taught English. In 1932, Mr. Johnston was appointed to the staff of the Toronto Normal School where, with the exception of the year 1940-41 when he served as Inspector of Public Schools of Leaside, Forest Hill, Scarborough and North York, he continued to serve as Master until his appointment as Principal of that institution in 1948. During his long and distinguished career in the field of teacher education,

Mr. Johnston exemplified the best in teaching techniques and gave wise counsel to thousands of students and teachers. His fairness, good judgment, and faith in those with whom he worked, combined to make him an effective teacher and capable administrator.

W. J. JUDD, B.A., retired from the position of Public School Inspector of Thunder Bay No. 3 on October 18, 1963. Born in London Township near Ballymote, he received his elementary school education in an ungraded school and his secondary school education in Central Collegiate Institute in London. He attended the Ontario College of Education in 1915-16 and secured his B.A. degree from Queen's University. After teaching for three and one-half years in the London Public Schools, he was appointed first principal of the new Pine Street Public School in Port Arthur on February 1, 1920. From September, 1921 to 1936, he was Principal of St. James Public School, Port Arthur, and in 1936, he was appointed Public School Inspector of the City of Port Arthur and part of the District of Thunder Bay. He remained a Provincial Inspector until his retirement. Mr. Judd participated in community activities and accepted positions of leadership in church and other social organizations. Throughout his career he was well known for his sympathetic understanding of the needs of elementary school children and contributed markedly to their welfare.

HENRI LEMIEUX, B.A., B.Paed., the first bilingual Secondary School Inspector, with special duties in the supervision of the teaching of Français in bilingual secondary schools, retired on August 10, 1963, after more than twenty-two years of distinguished service with the Department of Education. After graduation from Laval University in 1920, and the Ontario College of Education in 1923, he taught successively at Plantagenet High School and at Cornwall Collegiate Institute. In recognition of his outstanding service as a teacher, Mr. Lemieux was appointed, first as Principal of the English-French Model School at Embrun, by the Department of Education, then was transferred to the Model School at Sturgeon Falls. In 1935-36, Mr. Lemieux returned to the graduate school of the Ontario College of Education and completed his studies for the degree of Bachelor of Paedagogy. Mr. Lemieux's scholarship and pedagogic talents were recognized by the University of Ottawa and he was appointed Master at Ottawa University Bilingual School, a post which he kept until his appointment as Secondary School Inspector in the Department of Education. Mr. Lemieux holds the Baccalauréat en Pédagogie from Montreal University. Throughout his distinguished career as an inspector, he has rendered invaluable service to the cause of French instruction in the bilingual schools of Ontario. His sound scholarship and kindly and encouraging manner have meant much to the students and teachers whom he has taught or supervised.

ROSE M. LYNCH, B.A., B.Paed., retired from the position of Separate School Inspector for Toronto R.C.S.S. Division No. 3 on December 30, 1963. Born in Arthur, she attended the separate school and high school in that village. She is a graduate of Hamilton Normal School, the University of Toronto and the Ontario College of Education. She taught in rural schools near Arthur, on Pelee Island and in New Liskeard. Appointed to the Ottawa Normal Model School in 1918, she taught in that institution until 1939. She assisted in the Roman Catholic Separate School Inspectorate at Kitchener from 1939 to 1941, and then was appointed Inspector of Separate Schools for Toronto R.C.S.S. Division No. 3. Teachers and pupils alike have always appreciated the help and guidance she has given them.

C. P. MATTHEWS, B.A., B.Paed., retired as Separate School Inspector for Kingston R.C.S.S. Division on August 31, 1963. Born in Grey County, he received secondary school education at Shelburne High School and St. Michael's College School. He attended Toronto Normal School and graduated from the University of Toronto in Arts and Pedagogy. After teaching for eight years in a rural school, acting as principal of St. Brigid School, Ottawa, teaching in St. Michael's College

Preparatory School, and serving as Science teacher in the Junior Vocational School, Toronto, he was appointed the first Separate School Inspector with residence at Kingston, in September, 1930. During the thirty-three years of his devoted service in a large area of Eastern Ontario, many new separate schools were established and these will attest to the leadership that he gave in this area. Mr. Matthews was a kindly and co-operative educator who will be remembered by those inspectors, teachers and pupils with whom he was associated.

F. J. McDONALD, M.A., B.Paed., Ph.D., Separate School Inspector for Ottawa R.C.S.S. Division No. 2, retired on October 31, 1963. His first elementary school was S.S. No. 5 Logan where he taught for four years. He also taught for three years in St. Patrick High School, Hamilton. Dr. McDonald received his Bachelor of Arts and Bachelor of Paedagogy degrees from the University of Toronto, and a Doctor of Philosophy degree from the University of Ottawa. In 1927, he was appointed Separate School Inspector for the Port Arthur area. In 1930, he was transferred to Ottawa where he remained until his retirement in 1963. Dr. McDonald was an early advocate of the Ontario School Inspectors' Association and his wise counsel was valuable in assisting in the early days of its organization. His competence in the classroom and his administrative abilities enabled him to give memorable service in the schools of the Ottawa district.

LORNE M. MCKENZIE, B.A., who retired on February 15, 1963, from the position of Director of Correspondence Courses, received his elementary and secondary school education in Guelph and graduated from the University of Toronto. He taught in Weston and at Upper Canada College where he was noted for his ability to interest students in Mathematics through his excellent teaching. Subsequent to serving as Headmaster of Upper Canada College, he joined the staff of the Department of Education in 1949 as Director of Correspondence Courses and brought into the Division an impelling concern to establish and maintain excellent standards in the preparation and marking of lessons. He succeeded in building up a fine relationship between the Division and hundreds of members of the teaching profession who responded to his request for their services as authors or as part-time markers. Under his leadership the Division expanded to offer all secondary school grades, some trades courses, and elementary courses for adults. The services thus made available caused enrolment in correspondence courses to increase fourfold. Mr. McKenzie's zeal and characteristic enthusiasm inspired his colleagues, and his interest in individual students was always apparent to those who called upon him.

A. M. McNAMARA, B.A., retired as Separate School Inspector for Windsor R.C.S.S. Division No. 1 on August 31, 1963. He was born in Penetanguishene, attended the Stratford Teachers' College and began his teaching career as Principal of the Perkinsfield Village School. He next taught at St. Matthew School, Toronto, and later acted as supervising teacher at the School for the Blind in Brantford. He was appointed Separate School Inspector for North Bay in 1940 and served in this area for four years. He was transferred to Windsor Division No. 1 in 1944 and served there until his retirement in 1963. Mr. McNamara, who is a graduate of the University of Toronto, served on the Senate of the University of Windsor. His colleagues recognized his ability by electing him president of the Ontario School Inspectors' Association for the school year 1962-63. His understanding of educational problems and his will to work did much to raise and maintain standards in the schools under his direction.

W. R. McVITTIE, B.A., retired on June 30, 1963, from the position of Public School Inspector for the Guelph Board of Education. Mr. McVittie had previously been employed as a Provincial inspector and a tribute to his service was included in the 1960 Report of the Minister.

GEORGE E. MUNRO, retired from the position of Instructor in Industrial Arts at the Hamilton Teachers' College on August 31, 1963. Born in the City of Peterborough, he received his elementary and secondary education there. Following graduation from the Peterborough Normal School, he taught in a rural school in Peterborough County and in an urban school in Rainy River. A craftsman by nature, Mr. Munro soon returned to the field of Industrial Arts. Following special certification, he became an Itinerant Industrial Arts Instructor for all rural schools in the Peterborough area—the first position of its kind in Ontario. In 1946, Mr. Munro was appointed to the staff of Peterborough Teachers' College on a part-time basis. In 1951, he was appointed full-time instructor in Industrial Arts and divided his time between the Peterborough and Hamilton Teachers' Colleges. Mr. Munro's modest, unassuming personality, his obliging nature, and his devotion to meticulous craftsmanship in many fields will long be remembered with appreciation by his former students and associates.

GEORGE A. PEARSON, B.A., retired as Superintendent of Elementary Education for the Province of Ontario on August 31, 1963. Mr. Pearson was born in McGillivray Township, Middlesex County, where he received his public school education. He attended the Parkhill High School and the St. Thomas Collegiate Institute. After his graduation he attended the Faculty of Education and later graduated from Queen's University, with the Bachelor of Arts degree. Mr. Pearson commenced teaching in a rural school in Lambton County, from which he went to St. Thomas as Vice-principal of Balaclava Street School. In April, 1918, he was appointed Principal of Queen Mary School, Chatham, where he stayed until June, 1919, when he went to Sudbury as Supervising Principal. Two years later he was chosen as Principal of Prince Edward Public School, Windsor. This was the first rotary school to be established in Windsor, and he had an active part in working out this system and in extending it to other schools in that city. In March, 1928, Mr. Pearson was appointed Public School Inspector by the Kent County Council for the East Kent inspectorate. Later he became Senior Inspector for the whole of the county. He did much to improve standards of teaching and to bring about a marked improvement in school accommodations. It was during his term as Inspector that special teachers of music were engaged for all public school classrooms in the county. In addition to his outstanding work in the field of education, Mr. Pearson found time to take an active part in church, fraternal and service club activities. In January, 1946, Mr. Pearson was appointed Assistant Superintendent of Elementary Education, which position he held until his appointment as Superintendent of Elementary Education, effective July 1, 1951. During the twelve years that Mr. Pearson held this position, Ontario experienced a tremendous increase in the number of pupils and teachers in the public and separate schools and in the numbers of new schools that were built. It was a period that brought in new concepts of the job of the teacher, principal and inspector. Mr. Pearson will be remembered as the wise and capable administrator who served the Province as Superintendent with distinction and quiet dignity.

ELMER SAGER, B.A., B.Paed., Inspector of Public Schools, Toronto Board of Education, retired in June, 1963. He was born near Ancaster where he received his elementary education. After graduating from Hamilton Central Collegiate, he attended Hamilton Normal School and the Faculty of Education, Toronto. He taught first in a rural school in Pickering Township, before enlisting in 1916 at an early age in the Machine Gun Corps. After service in France, he returned to a teaching position in Norfolk County in 1919. From 1920 to 1942, he served as teacher and principal in several Toronto schools. In 1942, he resumed his military career and served as Assistant Army Examiner at Brockville until 1945 when, having obtained his majority, he returned to teaching, as Principal of Park Public School, Toronto. In 1948, he was appointed Inspector of Public Schools for Toronto in which capacity he served with distinction until his retirement. He is the author of a Geography textbook, an authority on map reading and conservation and an

expert photographer. His qualities of enthusiastic leadership and sound judgment enabled him to make a significant contribution to elementary education in the City of Toronto and in the Province as a whole.

L. L. SKUCE, B.A., B.Paed., retired on December 31, 1963, from the position of Superintendent of Public Schools for the Oakville Board of Education. Mr. Suce retired as Inspector of Public Schools of Halton No. 1 on September 1, 1958, and a tribute to his service as a Provincial inspector was included in the 1958 Report of the Minister.

R. O. STAPLES, B.A., D.Paed., Vice-principal of the Toronto Teachers' College, retired on August 31, 1963. Dr. Staples was born in Durham County and obtained his elementary education in a rural school. He began his teaching career in an elementary school in Northern Ontario, attended the Toronto Normal School, and then joined the staff of the Toronto Public Schools. Following graduation from Queen's University, he taught for several years on the staff of the Danforth Technical School in Toronto. Before his appointment to the staff of the Toronto Normal School in 1950, Dr. Staples served as Public School Inspector in the Counties of Glengarry, Huron South, and Ontario. In 1948, he visited schools and studied educational systems in Europe and a few years later was associated with the Canadian Educational Association in connection with a preliminary survey for the C.E.A. Kellogg Project. In 1960, he became the first Vice-principal of the Toronto Teachers' College, a position he held until his retirement. During 1961-62, Dr. Staples served on loan to the External Aid Office of the Government of Canada to act as advisor in teacher education in the West Indies. On his return to Canada, he served for six months with the Professional Development Branch of the Department of Education. Following his retirement, he returned to the West Indies to assist in the establishment and operation of Teachers' Colleges in that part of the Commonwealth. Dr. Staples' good judgment, sound scholarship, and wise leadership will long be remembered by his former students, teachers, and associates.

ROBERT H. WALLACE, M.A., B.Paed., retired as Assistant Superintendent of Secondary Education on August 31, 1963. Born in Grey County, he attended a one-room rural school and gained his secondary education at Meaford High School. Before going to university, he served overseas in World War 1 as a lieutenant in the First Canadian Tank Battalion. Experience as an elementary school teacher and principal in Meaford preceded his further education at Queen's University, Kingston, from which he graduated with degrees of Bachelor and Master of Arts with first-class honours in English and History. Proceeding on a Queen's University Travelling Fellowship to the Graduate School of Arts and Sciences, Harvard University, he carried on graduate studies there, securing the degree of Master of Arts. His secondary school teaching experience was obtained at Central Collegiate Institute, Hamilton, where for twelve years he served as Head of the English and History Departments. He was appointed Secondary School Inspector on October 1, 1936. His new responsibilities did not prevent him from pursuing his studies through summer courses in Education at Oxford University in England and French courses at Laval University in Quebec. On a number of occasions he was appointed Chief Examiner of the Upper School English examination and in 1962-63, he was elected President of the Ontario Educational Association. From June 1, 1957, to the date of his retirement, he gave capable service as Assistant Superintendent of Secondary Education. In addition, he served ably as Principal of the Ontario College of Education summer course in Kingston from 1960 to 1963. His sound scholarship, personal integrity, and broad interests enabled him to give outstanding leadership in the educational field throughout a distinguished career.

JOHN YOUNG, retired in March, 1963, because of ill-health, from the position of Instructor in Physical Education, Rural Schools. Mr. Young was born in Scotland and came to Canada with his parents in 1910. After service in the First

World War, in Russia and Manchuria, he returned to Canada and entered the Canadian Army Permanent Force. He was selected to attend the School of Physical Training at the Royal Military College, Kingston, and graduated in 1923. He was then posted to the Physical Training Instructional Cadre. The instructors of this Cadre conducted Physical Education courses in normal schools and assisted with the secondary schools cadet programme. Mr. Young will be remembered by former students of Hamilton, Toronto and North Bay Normal Schools and of the Ontario College of Education. During the Second World War he served overseas with the rank of Major and for two years after the War he served as Director of Cadets for the Western Ontario Area. On his demobilization from the Army he was offered a position as Instructor in the Physical Education Branch. His particular field was the rural schools of Ontario and he made a significant contribution to this area with his work in the production of two films "Physical Education in Rural Schools (Indoors)" and "Physical Education in Rural Schools (Outdoors)".

SERVICE RECORD—PERSONNEL EMPLOYED BY PROVINCE OF ONTARIO

DIED IN SERVICE

- J. F. Biddell.....Master 1, Ryerson Institute of Technology, Technological and Trades Training Branch, September 28, 1963.
- T. A. Culham.....Master 1, Eastern Ontario Institute of Technology, Technological and Trades Training Branch, November 6, 1963.
- Miss Margaret Epp.....Master and Dean of Women, London Teachers' College, Teacher Education Branch, December 19, 1963.
- E. R. McClellan.....Secondary School Inspector, Secondary Education Branch, March 12, 1963.
- Miss J. A. Walsh.....Master 1, Ryerson Institute of Technology, Technological and Trades Training Branch, May 21, 1963.

RETIREMENTS ON SUPERANNUATION

- E. C. Anderson.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Victoria No. 1 and Peterborough No. 2, August 31, 1963.
- J. T. Anderson.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Renfrew R.C.S.S. Division, August 21, 1963.
- C. W. Booth.....Deputy Minister of Education, August 16, 1963.
- E. J. Davies.....Assistant Superintendent, Secondary Education Branch, June 18, 1963.
- Mrs. M. A. Fraser.....Librarian, Legislative Library, August 31, 1963.
- A. J. Gascon.....Elementary School Inspector, Elementary Education, Branch, Inspectorate, Ottawa R.C.S.S. Division No. 3, August 31, 1963.
- R. A. Johnston.....Principal, Toronto Teachers' College, Teacher Education Branch, August 31, 1963.
- W. J. Judd.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Thunder Bay No. 3, October 18, 1963.
- H. Lemieux.....Secondary School Inspector, Secondary Education Branch, August 9, 1963.

- Miss Rose Lynch.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Toronto R.C.S.S. Division No. 3, December 30, 1963.
- C. P. Matthews.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Kingston R.C.S.S. Division, August 31, 1963.
- F. J. McDonald.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Ottawa R.C.S.S. Division No. 2, October 31, 1963.
- L. M. McKenzie.....Director, Correspondence Courses Division, Special Educational Services Branch, February 14, 1963.
- A. M. McNamara.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Windsor R.C.S.S. Division No. 1, August 31, 1963.
- G. E. Munro.....Instructor 2, Teacher Education Branch, Hamilton Teachers' College, August 31, 1963.
- Miss M. I. Mustard.....Secondary School Inspector, Secondary Education Branch, July 31, 1963.
- G. A. Pearson.....Superintendent, Elementary Education Branch, August 31, 1963.
- R. O. Staples.....Vice-Principal, Toronto Teachers' College, Teacher Education Branch, August 31, 1963.
- R. H. Wallace.....Assistant Superintendent, Secondary Education Branch, August 31, 1963.

RESIGNATIONS

- J. H. Bowers.....Master, Stratford Teachers' College, Teacher Education Branch, July 31, 1963.
- C. A. Cowan.....Master, Toronto Teachers' College, Teacher Education Branch, August 31, 1963.
- G. J. Goman.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Huron No. 3 and Perth No. 3, July 31, 1963.
- G. T. Hackett.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Leeds No. 1, July 31, 1963.
- H. Hempsted.....Master, Hamilton Teachers' College, Teacher Education Branch, June 30, 1963.
- A. R. Low.....Vice-Principal, Ryerson Institute of Technology, July 22, 1963.
- R. T. Macaulay.....Secondary School Inspector, Secondary Education Branch, May 31, 1963.
- Miss S. K. McCullagh.....Master, London Teachers' College, Teacher Education Branch, August 31, 1963.
- H. A. Peacock.....Master, Ottawa Teachers' College, Teacher Education Branch, August 31, 1963.
- R. W. Timms.....Master, North Bay Teachers' College, Teacher Education Branch, July 31, 1963.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas, and for the use of schools for practice teaching.

(2) Commencing with 1953, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956 and 1957 are special per pupil grants. The legislative grants for 1961, 1962 and 1963 are the Residential and Farm School Tax Assistance Grant.

NOTE: During the calendar years 1962 and 1963, payments in the amounts \$116,880,945 and \$108,645,957 respectively were made to School Boards for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

TABLE 15—FULL-TIME TEACHERS IN ELEMENTARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1962..... 39,249

ACQUISITIONS—September 30, 1962 to September 30, 1963:

From private elementary schools.....	49
Teachers' Colleges (all courses).....	3,752
Letters of Standing.....	317
Former secondary-school teachers.....	81
Letters of Permission on September 30, 1963.....	390 (1)
Certified teachers re-entering profession.....	1,895
Others.....	223
Total, Acquisitions.....	6,707

WITHDRAWALS—September 30, 1962 to September 30, 1963:

To further education in teachers' colleges, universities, and other educational institutions	462
To teach in secondary schools, private schools, teachers' colleges, or schools outside Ontario.....	1,055
Employment in a non-teaching occupation.....	392
Marriage.....	298
Retirement.....	491
Illness.....	102
Death.....	45
Resumption of household duties (married women).....	2,097
Others.....	139
Total, Withdrawals.....	5,081

ACQUISITIONS LESS WITHDRAWALS..... 1,626

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 40,875

EXPLANATORY NOTE:

1. This total shows only the number of Letters of Permission issued for the school year 1963-64 for the month of September.

TABLE 16—FULL-TIME TEACHERS IN SECONDARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1962..... 14,923

ACQUISITIONS—September 30, 1962 to September 30, 1963:

From private secondary schools.....	53
From Ontario College of Education (all courses).....	2,273(1)
Former elementary-school teachers qualified to teach in secondary schools.....	139
Qualified teachers re-entering profession who were employed previously on full-time basis.....	354
Letters of Standing.....	34
Letters of Permission on September 30, 1963.....	820(2)
Others.....	67
Total, Acquisitions.....	3,740

WITHDRAWALS—September 30, 1962 to September 30, 1963:

To enrol in a university or other educational institution.....	216
To teach in an elementary school, private school, teachers' college, or school outside Ontario.....	294
Employment in a non-teaching occupation.....	234
Marriage.....	88
Retired.....	175
Illness.....	21
Death.....	35
Resumption of household duties (married women).....	355
Others.....	75
Total, Withdrawals.....	1,493

ACQUISITIONS LESS WITHDRAWALS..... 2,247

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 17,170

EXPLANATORY NOTES:

1. This total of 2,273 does not include persons who were employed by Boards on Letters of Permission during the school year 1962-1963, who served as teachers during that school year, and who returned to the schools as teachers after successful completion of the 1963 eight-week summer course at the Ontario College of Education.
2. This total shows only the Letters of Permission issued for the school year 1963-1964 in the month of September.

FRANKLIN PUBLIC SCHOOL, KITCHENER

Architect: D. Lea Matthews

TABLE 24—ELEMENTARY SCHOOL ENROLMENT
(Continuous Record from September, 1962 to September, 1963)

ENROLMENT ON THE LAST DAY IN SEPTEMBER, 1962	1,197,029
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public or separate school for the first time	157,252
(b) Pupils enrolled previously in another public or separate school in Ontario	240,388
(c) Pupils entering from private schools	1,410
(d) Pupils re-entering after a period of non-attendance	2,292
(e) Pupils from outside Ontario	21,963
TOTAL ADMISSIONS	423,305
TOTAL, SEPTEMBER, 1962 ENROLMENT AND ADMISSIONS	1,620,334
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER	
(a) To public or separate schools	240,145
(b) To secondary schools—promoted	94,722
(c) To secondary schools—not promoted	11,432
TOTAL TRANSFERS	346,299
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario	18,014
(b) To Private Schools	8,424
(c) Died	471
(d) Health and other reasons	2,539
(e) Ceased to attend school (other than in (a), (b), (c) or (d))	11,423
TOTAL RETIREMENTS	40,871
TOTAL TRANSFERS AND RETIREMENTS	387,170
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963	1,233,164

TABLE 31—PUBLIC SCHOOL ENROLMENT

(Continuous Record from September, 1962 to September, 1963)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1962.....	880,198
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public school for the first time.....	115,717
(b) Pupils enrolled previously in another public or separate school in Ontario.....	181,049
(c) Pupils entering from private schools.....	782
(d) Pupils re-entering school after a period of non-attendance....	1,565
(e) Pupils from outside Ontario.....	16,439
TOTAL ADMISSIONS.....	315,552
TOTAL, SEPTEMBER, 1962 ENROLMENT AND ADMISSIONS.....	1,195,750
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) To public or separate schools.....	185,859
(b) To secondary schools—promoted.....	75,529
(c) To secondary schools—not promoted.....	8,572
TOTAL TRANSFERS.....	269,960
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario.....	13,768
(b) To private schools.....	1,580
(c) Died.....	339
(d) Health and other reasons.....	1,619
(e) Ceased to attend school (other than in (a), (b), (c), or (d))....	6,654
TOTAL RETIREMENTS.....	23,960
TOTAL TRANSFERS AND RETIREMENTS.....	293,920
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963.....	901,830

5. Secondary Schools

TABLE 56—SECONDARY SCHOOL ENROLMENT
(Continuous Record from September, 1962 to September, 1963)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1962	331,578
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a secondary school for the first time:	
(i) from public and separate schools—promoted	86,939
(ii) from public and separate schools—transferred	11,411
(iii) from private schools	2,101
(b) Pupils enrolled previously in another secondary school in Ontario	35,307
(c) Pupils re-entering school after a period of non-attendance	3,807
(d) Pupils from outside Ontario	3,516
TOTAL ADMISSIONS	143,081
TOTAL, SEPTEMBER, 1962 ENROLMENT AND ADMISSIONS	474,659
TRANSFERS SINCE THE LAST SCHOOL DAY IN SEPTEMBER	33,510
RETIREMENTS SINCE THE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Death, disability, marriage, etc.	2,743
(b) Left Ontario	3,582
(c) To continue their education	21,064
(d) Ceased to attend school (other than (a) and (b))	49,550⁽¹⁾
TOTAL RETIREMENTS	76,939
TOTAL TRANSFERS AND RETIREMENTS	110,449
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963	364,210

(1) Of this number, 26,646 students held secondary school diplomas or certificates.

Northwestern..... District of Kenora, Rainy River and Thunder Bay (H.Q. Fort William, Waterloo and Moodie Streets)	179,302	21	182,640	\$54,502	\$369,606	\$2.06
Southwestern.....	445,571	47	\$987,338	\$2.22

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage co-operative services among member libraries.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated: they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.

2. Free Municipal Public Libraries in centres with population of 10,000 and over

(1) Not included here are grants to the Metropolitan Toronto School Board: Public School Boards—\$18,232,199; Secondary School Boards—\$10,480,449. This item includes superannuation deducted by the boards in 1962.

(2) Includes receipts for the education of non-resident pupils from territorial districts and Ontario Government establishments, for the transportation of non-resident (Elementary) pupils and for the use of schools for practice teaching.

(3) In the case of the municipalities composing Metropolitan Toronto, this item includes maintenance assistance payments from the Metropolitan School Board.

(4) Includes bank and other interest on current funds, transfers from Capital Fund, rentals and subscriptions in lieu of taxation.

(5) Amount received during 1962.

(6) Includes instruction, instructional supplies, administration, plant operation, plant maintenance, auxiliary services.

(7) Comprises principal and interest paid or set aside in 1962 by the issuing authority.

(8) Includes transfers to capital fund, payment for milk for free distribution, rebates of receipts and refunds of taxation to individuals paying fees to other boards, payments for school health services, etc.

(9) Includes income due to losses, sales of land, buildings, furnishings and equipment, etc. reported in the capital account.

(10) Includes transferred funds.
